

Colorado Identification and Credentialing Program Guidance

Appendix C

Attachment C: ESF # 3 Public Works Personnel Credentialing

Colorado Division of Homeland Security and Emergency Management

Logistics Section

COLORADO

**Division of Homeland Security
& Emergency Management**

Department of Public Safety

2 **ESF # 3: Public Works Personnel Credentialing**

3 The Colorado Credentialing Working Group has developed minimum training standards for
4 several positions and has grouped them using the Emergency Support Function framework so
5 that it is easier to locate a specific credential.

6 To participate in the Colorado Identification and Credentialing Program, transportation and
7 public works personnel (ESF #3) must possess and provide proof of a valid Colorado driver’s
8 license with appropriate commercial driver’s license (CDL) endorsements. Colorado follows
9 federal guidelines that provide for three classifications and six endorsements of commercial
10 motor vehicles (CMVs) as described below.

11 In accordance with NIMS standards, all personnel are also required to complete the following
12 base training courses (in addition to any other required coursework specified for respective
13 positions): IS 100, 200, 700, and 800. Personnel must have a current, valid driver’s license or
14 State-issued ID card.

15 **Note:** All personnel credentialing attachments are available online at:
16 <http://dhsem.state.co.us/emergency-management/operations/logistics/credentialing>

17
18 This discipline has yet to be finalized and is currently a place holder while under development.
