**Division of Homeland Security  
& Emergency Management**

Department of Public Safety

2 **ESF # 12: Utilities Personnel Credentialing**

3 The Colorado Credentialing Working Group has developed minimum training standards for  
4 several positions and has grouped them using the Emergency Support Function framework so  
5 that it is easier to locate a specific credential.

6 To participate in the Colorado Identification and Credentialing Program, utilities personnel (ESF  
7 #12) must possess and provide proof of a valid Colorado driver’s license.

8 In accordance with NIMS standards, all personnel are also required to complete the following  
9 base training courses (in addition to any other required coursework specified for respective  
10 positions): IS 100, 200, 700, and 800. Personnel must have a current, valid driver’s license or  
11 State-issued ID card.

12 **Note:** All personnel credentialing attachments are available online at:  
13 <http://dhsem.state.co.us/emergency-management/operations/logistics/credentialing>
