4/3/19	Should We Adopt the 2018 IECC?	Many jurisdictions are moving to new energy codes all of the time. Which one should they move to? Should they go to the 2015, 2018 or hold out for the 2021? Let's look at the differences and the benefits of the codes to understand why most are going to the 2018.	https://attendee.gotowebinar.com/register/7052031581938130433
4/10/19	What Should We Amend in the IECC?	Many jurisdictions adopt the codes unamended, while others have so many amendments it's like looking at a new code. Is there a way to meet in the middle to only amend what's absolutely needed in order to best serve your community? Let's look at common amendments to the Energy Code and how to tailor a code to fit your needs without rewriting the whole thing.	https://attendee.gotowebinar.com/register/300698134881993985
4/17/19	Energy Raters and the IECC- Be in the Know!	Many jurisdictions utilize energy raters for their residential energy code inspections. Many allow raters to do code compliance work without really understanding who a rater is or what they really do. There are assumptions made, let's talk about them. Raters are amazing! Let's just make sure we're all on the same page, understanding what all they will be looking at when it comes to code compliance.	https://attendee.gotowebinar.com/register/5635109638920764673
