ASM Dallas explained that there are no notes or minutes to ratify that. Mayor Labbe suggested a work session on this and the odor ordinance. Work session set for May 29<sup>th</sup> at 6:00 pm. able to be used for wildland and bring in revenue to help offset cost. Very thankful for the SAFER grant given these circumstances right now. Need to revamp strategic plan and reorganize.

CM Roti questioned the departure of the veterans. Chief Dailey explained that Captain Pigati left because there was greater opportunity up the chain for a different program. Engineer Olsen left for an increased salary for the same position elsewhere. Mayor Labbe explained how the city has worked very hard for the increased salaries over the past few years, but the reality is that we will never be able to keep pace with departments on each side of us. Chief Dailey is hopeful to utilize the SAFER grant to encourage those with deep roots such as high school students to grow and move up the ladder.

c. Police Department & Animal Shelter Report

Sergeant Bertolas explained that Chief Glennly was at a presentation for a grant today and he is unable to be here tonight. Sgt Bertolas explained that this grant is for computers in each car, etc. and is about \$45,000. Mayor Labbe questioned the increase in calls. She explained with a full staff and being more proactive rather than reactive. She also believes they are more approachable now and more coming from presence of officers. Now that fully staffed she is able to move part-time back into the detective role.

f. Financial Report

Roy McGuinness explained that sales tax summary increased amounts, continuously for several years now. Explained that next month's amount is 40-50k higher than expected because of a past due vendor catching up. MPT questioned the purchase of the new chief vehicle. Roy explained that the chief purchased a new vehicle because he put his vehicle back into the fleet. Roy explained it came out of the police department budget, but it was not formally documented out of that budget. He will be over his budget by that amount, if council does not agree. MPT Beck questioned the fact that this wasn't a line item in his budget and this is a substantial purchase, she questioned how he could do this. Roy and Mayor Labbe discussed with him. Mayor Labbe explained that they sought financing but they decided not to go that route. MPT Beck believes if there was an appropriation than there should be a line item. CM Roti said they had discussed somewhat during budget but does very much remember the chief talking about the car and that he didn't need a police cruiser and put that back in the force, but concerned about how to handle capital expenses. Street department did this the way that council had asked and upset that the police department did not do it that way. CM Gowing concerned that there was no decision about the terms and not getting a heads up. She does not remember the police department being a part of that, just the street department. MPT Beck concerned over police vehicle use for personal reasons. Questioned how we address that when it comes up. Mayor Labbe explained that that is part of the personnel policy. Mayor Labbe moved to approve all reports, CM Roti seconded.

that would allow rehabilitated and help reduce affect om neighbors. If this was vacant they would have a different recommendation, but because it is this type of building in a transitional zoning, that would have been burdensome and inappropriate. ASM Dallas explained the 4 conditions. Roman Horicka explained they will employ 3-4 people and there will not be any dust. The machines are about 60 decibels at full load, so very minimal noise. CM Linebarger questioned the conditions set to Mr. Horicka from the P&Z and he said he did not. CM Greene questioned the size and delivery of the materials brought to the site. It would come on a delivery truck and then 3x10 feet long, no semi-trucks and would be once a month. Comments in favor: Greg Boule: explained that he knows the owner and that this in a transitional zone and this is minimal impact since the building is already there. ASM Dallas read a letter into the record from Harry Temple. He explained a concern with noise from an exhaust fan and the exhaust that will be coming out of it and the potential affect on him and his visitors. He also expressed concern over the spray painting. The exhaust fan has been removed as a condition for council and it was brought up that applicant does not plan to do any painting, simply bending. Dr. Rod Weston spoke in favor and emphasized that all of the concerns in that letter were considered and addressed at P & Z. MPT Beck moved to close, CM Gowing seconded. MPT Beck commented that Planning & Zoning is much more of experts than council and like their conditions and have adequately addressed the letter. Council should not rehash P&Z's hearing. CM Gowing explain that in TC zone, it has been that for many years and agree that P&Z has mitigated and if there is an issue there is proper procedures to be able to address them, already in place. MPT Beck moved with the conditions set by P&Z, CM Gowing seconded.
