

Structure Type and Desired Outcome considerations are specific to acquisition HMGP applications.

| <b>Structure Type</b>   | <b>Points Available</b> | <b>Project</b> |
|---|-------------------------|----------------|
| Primary Residence(s)  | 30                      |                |
| Secondary Residence(s)  | 10                      |                |
| Critical Facility(s)  | 30                      |                |
| Public Facility(s)  | 20                      |                |
| Commercial Property(s)  | 15                      |                |
| Vacant Land   | 5                       |                |
| <b>Desired Outcome</b>  | <b>Points Available</b> | <b>Project</b> |
| Project Removes Certified Substantially Damaged Structures – Primary Residences & Commercial Property | 50                      |                |
| Project Removes Structures Located within Floodway  | 30                      |                |
| Project Removes Structures at Imminent Risk   | 25                      |                |
| Project Removes Repetitive Loss Property(s)   | 20                      |                |
| Project Removes Structures Located within Floodplain  | 20                      |                |
| Project Removes Structures Located within Identified Hazard Area                                      | 15                      |                |
| Project Removes Structures Not Located within Identified Floodplain                                   | 5                       |                |
| Structure has Potential for future Flood damages  | 1 - 10                  |                |
| Unregulated Post-FIRM Construction  | 0 or 5                  |                |
| Post-Acquisition Plan   | 0 or 5                  |                |
| Alternate Housing Solution Plan   | Yes or N/A              |                |
| Structure is affected by multiple hazards   | 0 or 5                  |                |
| Project Under BCA Waiver  | 0 or 10                 |                |

| <b>Project Benefits</b>   | <b>Points Available</b> | <b>Project</b> |
|---|-------------------------|----------------|
| Reduce or Alleviate need for EM Services  | 0, 5, 10                |                |
| Alleviate or Reduce Damages to Built Environment  | 0, 5, 10                |                |
| Project Impacts Multiple Communities  | 0 or 5                  |                |
| Long-term or Permanent Solution   | 0, 5, 10                |                |
| Life and Safety   | 0, 5, 10                |                |
| Reduce Future Disaster Cost   | 0, 5, 10                |                |
| Reduce Cost of Repetitive Flood Damage Repairs  | 0 – 10                  |                |
| Restore or protect floodplains, wetlands, open space, watershed, etc.                               | 0 – 10                  |                |
| Achieves multiple objectives – damage reduction, environmental enhancement, economic recovery, etc. | 2, 4, 6, 8, or 10       |                |
| Promotes Development of Recreation Areas/Preserves Historic Areas                                   | 0, 5, or 10             |                |
| Promotes Development, Adoption and Enforcement of Local Building Codes and Standards                | 0 or 10                 |                |
| Promotes Protection beyond 5, 10, 25, 50, 100+ year floodplain (N/A for Acquisition)                | 2, 4, 6, 8, or 10       |                |
| <b>Special Considerations</b>   | <b>Points Available</b> | <b>Project</b> |
| Mitigation Plan (Approved, Updating)  | 10 or 5                 |                |
| Integrated Planning (to include Hazard Mitigation Considerations)                                   | 0, 5, 10                |                |
| Completeness of Application   | 0, 5, or 10             |                |
| Previously submitted HMA project (not funded)   | 5                       |                |
| Project has Access/Egress Issues  | 0 – 10                  |                |
| Low/Moderate Income Considerations  | 0, 5, 10                |                |
| Willing to Increase Local Match Funds   | 0 or 10                 |                |
| Level of Future Maintenance Required (10=no maintenance required)                                   | Scalable 0 to 10        |                |
| Variety of Risk Reduction/Resiliency Planning Efforts   | 0 or 5                  |                |
| Successfully Implemented Previous Mitigation Grants   | 0 or 5                  |                |
| Pre-Disaster Recovery Plan  | 0 or 10                 |                |

|                             |
