(A) Intent: The Downtown Service District is not intended to compete with the Historic

Business District or the General Commercial District, but rather intended to provide some flexibility in use for existing residences located on or within 100 feet of Highway 62, west of Laura Street as depicted upon the Town Comprehensive Plan Land Use Map. The flexibility in use is intended to mitigate the impact of increasing traffic upon the highway upon residences, by allowing for limited business use of the properties. The Downtown Service District is further intended to provide an effective transition between the General Commercial and Historic Business Districts and nearby residential neighborhoods along and near the Highway without creating an undue, adverse impact on these areas. Establishments and structures within the Downtown Service District are intended to appear “residential” as opposed to simply providing a visual extension of the commercial and business districts. Toward this objective, some service-oriented businesses are allowed within the Downtown Service District, as conditional uses, and with performance criteria that speak to appearance, signage and parking. These businesses may have limited and ancillary retail use. Home occupation of these business uses is permissible in accordance with Section 7-3-13(A). Auto intensive uses such as gas stations, drive-through businesses, convenience stores and similar uses that generate high traffic of items or require large parking areas are not permitted.

(2) Limited retail use that is ancillary to the professional offices or service businesses is allowable under the conditional use, as long as it is not a primary use of the business. For purpose of determining whether retail uses are “ancillary”, floor space allocated to retail use and /or gross receipts of retail sales may be considered.

(3) Bed and breakfast operations which meet the criteria of Subsection 7-3-13(F) in addition to the criteria of Section 7-3-14.

(4) Churches, schools, daycare facilities not allowed as an accessory use to a residence, multi-family residences and community centers. (Ord 1-2015)

(D) Performance Standards for Conditional Uses:

(1) Conditional Uses, other than churches, schools, multi-family residences and community centers, shall comply with the intent of Subsection A and these performance standards.

(3) All professional offices and service businesses allowed as a conditional use shall have no more than five employees.

No parking shall be allowed on alley ways or on Highway 62 (Sherman Street).

The plan shall indicate location, type and species of all buffering vegetation. The landscaping plan shall also include the details of irrigation systems necessary for establishment and continued survival of all plantings. The Town shall review the landscaping plan to determine if it is in conformance with landscaped buffering standards in the Ridgway Municipal Code. Unacceptable proposals will be rejected and the building permit shall be withheld until a plan providing adequate buffering is submitted and accepted by the Town.

(5) The maximum fence height shall be 8 feet.

(6) Maximum Building Size Without Special Review - 5,000 square feet of gross floor area. Buildings containing more than 5,000 square feet of gross floor area will be required to mitigate the visual impacts of their size by means of design, landscaping, berming and other methods of site treatment. Buildings must be compatible with the mass and scale of existing buildings on adjacent properties, or if there are no such buildings, compatible with the mass and the scale of buildings in the Town generally. In no case, shall buildings exceed 5,000 square feet of building footprint. (Ord 1-2014)

(7) Fencing, parking and storage is not allowed in the front or side setbacks along any street.

(7.5) Drive-in restaurants, drive-in theatres, or any other retail stores and service establishments with drive-through facilities shall not be allowed in the "I-1" District.

(Ord 6-2004)

(8) Applicants shall submit an Industrial Use Mitigation Report that details how the proposed use will conform to the following criteria. Mitigation measures shall include, at a minimum, a combination of site design, building setbacks, landscaping and screening, to minimize noise, odor, glare, vibration or lighting from emanating beyond the property boundaries in a manner that is not in conformance with these or other town regulations. An application that fails to address each of the following items or that inadequately addresses these items shall be deemed incomplete and no permits shall be issued until all criteria have been addressed.

(a) Additional Studies. The applicant shall complete or provide funding for completion of studies by qualified personnel that the Town deems necessary to quantify and to develop recommendations for abating impacts directly associated

with the proposed use.

(b) Dust and Fly Ash. No solid or liquid particles shall be emitted in such a quantity as to be readily detectable at any point along lot lines or as to produce a public nuisance or hazard beyond lot lines.

(c) Electrical Disturbance or Interference. No use shall:

(1) Create any electrical disturbance that adversely affects any operations or equipment other than those of the creator of such disturbance, or

(2) Otherwise cause, create, or contribute to the interference with electrical signals (including television and radio broadcasting transmissions) to the extent that the operation of any equipment not owned by the creator of such disturbance is adversely affected.

(d) Exterior Lighting. All exterior lighting shall conform to Chapter 6 Section 5 of the Town of Ridgway Municipal Code titled "Outdoor Lighting Regulations".

(e) Fire and Explosion. No fire or explosive hazard shall exist such as to produce dangerous exposure to adjacent property.

(f) Glare. No direct or reflected glare shall be detectable at any Light Industrial District boundaries.

(g) Hazardous Waste. Hazardous waste shall be those substances as defined by Federal, State or local regulations. The disposal, treatment, bulking or handling (hereinafter collectively called treatment) of hazardous waste within the municipal limits of the Town of Ridgway shall be permitted only when such waste is generated within the Town of Ridgway. Any such treatment shall be prohibited except in conformance with all applicable Federal, State or local regulations governing hazardous waste. The temporary storage of hazardous waste other than for treatment is permitted only when it is used, manufactured or generated as a waste as part of an industrial, manufacturing or laboratory process that takes place within the Town of Ridgway. In this circumstance, hazardous waste shall be inventoried and stored inside a building with an impermeable floor and otherwise handled in strict conformance with all applicable Federal, State and local regulations. The records pertain to such inventory and storage shall be open to authorized personnel of the Town of Ridgway and/or the Ridgway Fire Department upon reasonable request.

(h) Heat. No direct or reflected heat that is dangerous or discomforting shall be detectable at any Light Industrial District boundaries.

(i) Landscaping. A landscaping plan setting forth type, size, location of all plant types and species shall be submitted in conformance with the landscaping standards Section 6-1-11 of the Town of Ridgway Municipal Code. The design of the landscaping plan shall adequately buffer the light industrial use from adjacent surrounding non-light industrial zone districts and breakup any parking area more than 25 spaces to avoid the appearance of large areas of parking.

Ridgway Municipal Code

(j) Noise. No persistent noise shall be detectable beyond the property line in excess of the values identified in the following table:

(i)

Zoning of Lot Where Use Is located	All Residential Zone Districts	Zoning of Adjacent Lot		
		General Commercial District	Industrial-1 District	Industrial-2 District
Industrial-1 District	50	55	60	65
Industrial-2 District	50	60	65	70

All of the above levels are measured in decibels dB(A).

(ii) Impact noises are sounds that occur intermittently rather than continuously. Impact noises generated by sources that do not operate more than one minute in any hour are permissible up to a level of 10 dB(A) in excess of the figures listed in the table above, except that this higher level of permissible noise shall not apply from 7:00 pm to 7:00 am when the adjacent lot is zoned residential. The impact noise shall be measured using the fast response of the sound level meter.

(iii) Noise resulting from temporary construction activity that occurs between 7:00 am and 7:00 pm shall be exempt from the requirements of this section.

(iv) Noise shall be measured on a decibel or sound level meter. Noise level shall be measured at a point located within a street or public right-of-way in the town and a distance of at least 25 feet from the noise source; and/or at the common property line of the property on which the noise source is located and the adjacent property.

(v) No use in the light industrial zone districts may generate noise that tends to have an annoying or disruptive effect upon uses outside the immediate space occupied by the use if that use is one of several located on the lot or uses located on adjacent lots.

(vi) The table above establishes the maximum permissible noise levels for the I-1 and the I-2 Zone Districts. Measurements shall be taken at the boundary line of the lot where a particular use is located, and, as indicated, the maximum permissible noise levels vary according to the zoning of the lot adjacent to the lot on which subject use is located.

(k)

(i) Odor. For purposes of this section, the "odor threshold" is defined as the minimum concentration in a year of a gas, paper or particulate matter that can be detected by the olfactory systems of a healthy observer.

(ii) No use in the I-1 or I-2 Districts may generate any odor that reaches the odor threshold measured at:

(a) The outside boundary of the immediate space occupied by the enterprise generating the odor.

(b) The lot line if the enterprise generating the odor is the only enterprise located on a lot.

(l) Off-site Impacts. Off-site impacts that directly result from the proposed use shall be abated. The Town of Ridgway reserves the right to require an independent evaluation of off-site impacts including recommendations about mitigation measures.

(m) Radioactivity. No operation shall be permitted which causes radioactivity in violation any applicable Federal, State or local regulation.

(n) Smoke. For purposes of determining the density of equivalent opacity of smoke, Ringlemann chart, as adopted and published by the United States Department of Interior, Bureau of Mines Information Circular 8333 May 1967, shall be used. The Ringlemann number referred to in this Section refers to the number of the area of the Ringlemann Chart that coincides most nearly with the visual density of equivalent opacity of the omission of smoke observed. For example, a reading of Ringlemann No. 1 indicates a twenty percent density of the smoke observed. No smoke shall be permitted in such quantity as to become a nuisance nor shall it be detectable at any property boundaries. All measurements shall be taken at the point of emission of the smoke. In the I-1 District, no use may emit from a tent, stack, chimney or combustion process any smoke that exceeds a density or equivalent capacity of Ringlemann No. 1, except that any emission that does not exceed a density or equivalent capacity of Ringlemann No. 2 is permissible for a duration of not more than four minutes during any eight hour period if the source of such emission is not located within 250 feet of a residential district.

(o) Vehicular Traffic. Traffic to and from the site shall not overload or damage street systems to or from the site. Verification of this provision shall be confirmed by an independent traffic analysis conducted by properly qualified individuals.

(p) Vibration. No inherent and recurrently generated vibration shall be perceptible, without instruments, at any point along in the boundary line of the property on which the use is located. Where more than one use is located on a property, then this standard shall also be measured along any wall of any other building on the property.

(q) Waste Disposal. Liquid and solid waste disposal and water service shall comply with all pertinent Federal, State and local regulations.

(r) Observations shall be made as described in the applicable subsection above. In the event that the point of measurement is not defined or if there is more than one use on the property, measurements shall be taken at the property line of the lot on which the use is located if it is the only use on the lot, or at the exterior of the building in which the use is located if more than one use exist on the same site.

7-3-9.6 UNCOMPAHGRE RIVER OVERLAY DISTRICT.

(Section Added by Ord 1-2018)

(A) Purpose and Intent: The purpose of the UROD is to promote the public health, safety and welfare of the citizens of the Town of Ridgway. The Town shall use the UROD to implement goals, policies and action items in the Town of Ridgway's Land Use Plan; preserve, improve and protect the river corridor as a Town amenity; regulate buildings and structures to maximize access to the Uncompahgre River and view corridors along the Uncompahgre River; utilize design and development techniques that avoid, minimize and mitigate impacts to the natural environment; and ensure aesthetic and ecological qualities of the river corridor continue to be a community asset.

(B) Applicability: The provisions and regulations of this Section 7-3-9.6 shall apply to all land within the Town of Ridgway Official Zoning Map included as part of the UROD; and as defined within these regulations. The provisions of this Section 7-3-9.6 shall apply in addition to the applicable requirements of the underlying zoning district, the Flood Plain Management Regulations in Ridgway Municipal Code Chapter 6-2, and other regulations of the Town. When the standards of this UROD conflict with any other provision of the Ridgway Municipal Code, the more stringent limitation or requirement shall apply. Within the UROD, all land use activity, development, redevelopment, renovation, and/or change in use requiring a building, development, or other land use permit (for the purposes of this Section of the Ridgway Municipal Code shall be defined as "Development") are subject to the provisions of this Section 7-3-9.6.

(C) Uses by Right: Uses permitted by the underlying zoning district are allowed unless specifically prohibited, provided that the use complies with this Section 7-3-9.6, and provided any Development complies with this Section 7-3-9.6.

(D) Conditional Uses: All conditional uses allowed within the underlying zoning district may be permitted upon approval in accordance with Section 7-3-14, and provided any Development complies with this Section 7-3-9.6.

(E) Development between 25 and 75 feet:

(1) Development between 25 and 75 feet from the High-Water Mark shall be reviewed in accordance with Section 7-3-14, as a conditional use. In addition to the review criteria under Section 7-3-14, the following shall also apply:

(a) All of this Section 7-3-9.6.

(b) The applicant shall provide an Ecological Characterization Study in accordance with Subsection 7-3-9.6(G) which concludes that any adverse impacts to the river environment with the proposed Development can be mitigated, and the applicant shall incorporate the mitigation into the development plan and construct the mitigation with the Development.

(c) Special consideration for Development shall be given so as to not deprive reasonable use of any land within the UROD.

(F) Performance Standards:

(1) Setback: All Development must be setback a minimum of 75 feet from the High-Water Mark, unless approved as a Conditional Use as further set forth under Subsection 7-3-9.6 (D) and (E).

(2) Public Access:

(a) If any proposed or existing trail, path or public access area as described in the Town's Land Use Plan or Parks and Trails Map, as amended from time to time and including the Uncompahgre RiverWay Trail, traverses a parcel proposed for Development, the Town may require as a condition of Development approval, dedication of a bicycle/pedestrian trail easement and/or public access easement benefiting the Town of Ridgway. The preferred dedication is for a 10 foot wide bicycle/pedestrian public access trail easement. However, in reviewing the proposed site plan, the Town shall evaluate the nature and extent of the proposal and the proportionality between the proposal and the dedication and may determine that the 10 foot dedication is appropriate or may reduce the dedication based on the proportionality assessment. The Town may also take into consideration whether and to what extent there are existing easements over the subject property, which provide the same functions of the required public access trail easements. Any trail easements shall be located at, or above, the High-Water Mark or abutting a public right of way. In lieu of a trail dedication, other trail locations that provide for connectivity to existing or future trails, and are made accessible to the public through a dedicated public access easement, may be approved by the Town.

(b) As a condition of Development approval, if any proposed or existing trail, path or public access area as described in the Town's Land Use Plan or Parks and Trails Map, as amended from time to time and including the Uncompahgre RiverWay Trail, does not traverse a parcel proposed for Development, the Town shall not seek a dedication of bicycle/pedestrian trail easement and/or public access easement benefiting the Town of Ridgway. However, parcels within the UROD are encouraged to provide public access to the Uncompahgre River

including clearly defined access points to public trail segments. “Access” refers to the provision of access from a public right-of-way to a publicly accessible trail or path and/or to the water’s edge of the Uncompahgre River.

(3) Design Guidelines and Standards:

(a) These Design Guidelines and Standards under this Subsection 7-3-9.6(D)(3) shall apply to all Development within the UROD, with the exception of single-family and duplex residential buildings.

(b) Site Planning:

(i) Existing or historic drainage ways shall be accommodated with the development plan.

(ii) Discharge of storm water directly into the river is prohibited. Use of landscaped/grassed catchment areas and similar design features shall be used for managing, controlling and filtering parking lot and site drainage.

(iii) Outdoor common areas, seating and/or dining is recommended on the river side of the building.

(iv) A visible and accessible public entrance from the side of the property facing the Uncompahgre River is encouraged for commercial properties that are open to the public.

(c) Parking and Loading:

(i) Parking and loading shall be sited to provide the least visual impact from public rights-of-way, including the Uncompahgre River corridor.

(ii) Trees shall be incorporated to provide parking lot shading. Bollard and/or street lighting shall be used to provide lighting at critical access points.

(iii) Site parking shall include bike racks and areas for parking strollers and other non-motorized vehicles near the main entrance to the primary building(s) and should have a logical connection to on-site non-motorized access routes.

(d) Mass, Scale, Architectural Design and Materials:

(i) Total building façade length shall be less than 50 feet in length parallel to the river.

(ii) Buildings shall avoid monolithic shapes and surfaces by incorporating solids and voids, changes in color, pattern, texture and materials at minimum along the primary façade and the façade along the linear frontage of the river.

(iii) Use of naturally-derived materials, such as stone, wood and

innovative materials such as metal, or high-quality environmentally friendly wood-alternative decking and siding, shall be required.

(e) Screening and Buffers: All parking areas, outside trash receptacles, large utility boxes, mechanical systems and other unattractive views shall be screened with landscaping from public rights-of-way, including the Uncompahgre River corridor. Screening is not required where access is necessary but shall be screened with a gate where feasible. The purpose of screening and buffers is to promote the public health safety and welfare to conserve views along the Uncompahgre River corridor, and to improve the visual appearance along the river.

(f) Exceptions to these Design Guidelines and Standards may be pursued through the variance process pursuant to Section 7-3-16.

(G) Submittal Requirements: These submittal requirements are in addition to the underlying zoning district submittal requirements for the type of land use activity or development proposed. The following information must be completed and included in all applications for development or land use activity:

(1) A development plan showing compliance with the Performance Standards listed in Subsection 7-3-9.6(F).

(2) Survey map including: property boundaries, the location of the High-Water Mark and 75 foot setback. In the event the identification or location of the High-Water Mark is disputed by the Town, the Town may hire a professional experienced in the identification of a High-Water Mark, to survey the High-Water Mark, and charge the cost of each survey to the Property Owner.

(3) In addition to the above, Development applicants seeking a Conditional Use in accordance with Subsection 7-3-9.6(D) and (E) are required to submit an Ecological Characterization Study completed by a professional qualified in the areas of ecology, wildlife biology or other relevant discipline. The Ecological Characterization Study shall describe, without limitation, the following:

(a) The boundary of wetlands and riparian areas and a description of the ecological functions and characteristics provided by those wetlands and riparian areas;

(b) The pattern, species and location of any significant native trees and other native site vegetation;

(c) The pattern, species and location of any significant non-native trees and non-native site vegetation that contribute to the site's ecological, shade, canopy, aesthetic and cooling value;

(d) The top of bank, the 25 foot setback and High-Water Mark of any perennial stream or body of water on the site;

(e) The wildlife use of the area showing the species of wildlife using the area, the times or seasons that the area is used by those species and the "value" (meaning feeding, watering, cover, nesting, roosting, perching) that the area provides for such wildlife species;

Ridgway Municipal Code

- (f) Special habitat features;
- (g) Wildlife movement corridors;
- (h) The general ecological functions provided by the site and its features;
- (i) Any issues regarding the timing of Development-related activities stemming from the ecological character of the area; and
- (j) Any measures needed to mitigate the projected adverse impacts of the development project on natural habitats and features along the Uncompahgre River corridor.

(H) Exempt Uses and Activities: The following uses and activities are exempt from these regulations, including the Performance Standards of Subsection 7-3-9.6(F) and the Submittal Requirements of Subsection 7-3-9.6(G), provided plans and specifications are approved by the Town, and all local, state and federal permitting is approved.

(1) Public improvements essential for public health and safety, installed by, and/or approved by the Town, including but not limited to: public utility buildings, facilities, systems and accessory structures;

(2) Public improvements such as: pedestrian and automobile bridges, trails and recreational amenities installed by, and/or approved by the Town;

(3) Irrigation, drainage, flood control or water diversion structures installed by, and/or approved by the Town; and

(4) Bank stabilization, river restoration and planting of native vegetation installed by, and/or approved by the Town.

Upon the filing of an appeal or request for review in the courts, the Town shall cause a transcript of any tape recording of the hearing to be made and certified to the court, and the party filing such appeal or such review, shall pay the Town the reasonable cost incurred in producing such transcript, unless such party has a transcript produced by a court reporter at his expense.

(G) The Reviewing Board may approve the requested action only upon finding that all applicable criteria and requirements of these Zoning Regulations or other Town ordinances have been met. If it determines that such criteria have not been met, the application shall be denied. The application may be granted upon conditions or limitations which the Reviewing Board determines are necessary in order to ensure that the applicable criteria are met. Such conditions or limitations shall be provided to the applicant and interested parties, in writing, as part of the decision.
