NR = Not required due to taxpayer confidentiality requirements. Total includes NR data. For §24-12-113 (5), C.R.S., data derived from taxpayer returns is aggregated in order to protect the confidentiality of individual taxpayers. For the Department's practice to release aggregated data only where there are at least three taxpayers in a given category and none of them represents more than 60% of the total.

1 These industries are defined in the North American Industry Classification System (NAICS). Industry categories are reported to the Department of Revenue by the taxpayer, and they are not generally audited.
