RE: Service of Operator Certification Notice of Violation, Number: OC-120926-1

Dear Mr. Baranway:

You are hereby served with the enclosed Operator Certification Notice of Violation (the "NOV"). This NOV is issued by the Colorado Department of Public Health and Environment's (the "Department") Water Quality Control Division (the "Division") pursuant to the authority given to the Division by §25-9-110(3) of the Colorado Revised Statutes ("C.R.S."). The Division bases this NOV upon findings that you have violated the 5 CCR 1003-2, §100 ("Regulation 100") *Water and Wastewater Facility Operators Certification Requirements* as described in the enclosed NOV.

Pursuant to §25-9-110(3), C.R.S., you are required, within thirty (30) calendar days of receipt of this NOV, to submit to the Division an answer to each alleged violation.

As a recipient of an NOV, you may request a formal hearing to contest the NOV in accordance with § 25-9-110(4), C.R.S., and 5 CCR 1003-2, §100.21.1. Requests for such a hearing shall be filed in writing with the Division no later than thirty (30) days after service of the NOV. Such requests, at a minimum, shall contain the information specified in 5 CCR 1003-2, §100.21.1(a-c). Hearings on NOVs shall be conducted before the Colorado Water and Wastewater Facility Operators Certification Board in accordance with §24-4-105, C.R.S. The filing of an answer does not constitute a request for hearing.

This violation could result in the imposition of civil penalties. The Department is authorized pursuant to §25-9-110(5), C.R.S., to impose a penalty of up to \$300 per day for each day during which such violation occurs. Please be advised that the Division is continuing its investigation into this matter and the Division may identify supplementary violations that warrant amendments to this NOV or the issuance of additional enforcement actions.

Should you desire to informally discuss this matter with the Department or if you have any questions regarding Regulation 100 or the violations contained in this NOV, please don't hesitate to contact Amy Schultz at 303-691-4927 or by electronic mail at amy.schultz@state.co.us.

PERMITTEE RESPONSIBILITIES

Article 9 of Title 25, C.R.S., requires that every domestic or industrial wastewater treatment facility and collection system be under the supervision of a certified operator, holding a certificate in a class equal to or higher than the class of the facility or system. A permittee who fails to comply with this requirement is subject to a penalty of \$300 per day per violation.

“Direct supervision” means that the operator in responsible charge has supervisory responsibility and authority with respect to the operation of the wastewater facility and for the activities and functions of other facility operators.

The operator in responsible charge (ORC) is the person designated by the permittee of a wastewater facility to be the certified operator(s) who has ultimate responsibility for decisions regarding the daily operational activities of the facility that will directly impact the quality and/or quantity of treated wastewater or treated effluent.”

There must be a designated operator in responsible charge or another designated operator certified at or above the level of the facility available for all operating shifts. “Available” means that the designated certified operator must either be on-site or must be able to be contacted as needed to make decisions and to initiate appropriate actions in a timely manner.

Section 100.18.4, Regulation 100, requires the owner(s) of each facility or system to formally designate the Operator in Responsible Charge and to report to the Division any changes no later than thirty days following any changes.
