Eric Kurtz
Joint Budget Committee Staff
200 East 14th Avenue, Third Floor
Denver, CO 80203

Dear Mr. Kurtz:

Enclosed please find a report to the Joint Budget Committee on the Health Care Policy and Financing expenditures and caseload for Medicaid and the Children's Basic Health Plan pursuant to FY 2013-14 Legislative Request For Information #1:

"The Department is requested to submit monthly Medicaid expenditure and caseload reports on the Medical Services Premiums and mental health capitation line items to the Joint Budget Committee, by the fifteenth or first business day following the fifteenth of each month. The Department is requested to include in the report the managed care organization caseload by aid category. The Department is also requested to provide caseload and expenditure data for the Children's Basic Health Plan, the Medicare Modernization Act State Contribution Payment, and the Old Age Pension State Medical Program within the monthly report."

The data contained in this month's Medicaid expenditure and caseload report is reflected as of May 31, 2014. The current report contains a separate worksheet for Medical Services Premiums expenditure by service category and Medicaid caseload data by eligibility category, which includes the monthly and over-the-year growth rates. Year-to-date caseload averages for clients in risk-based managed care organizations, non-risk based managed care organizations, and the Primary Care Physician Program appear in the Medicaid caseload worksheet. Beginning in FY 2012-13, the Department is reporting on the number of clients enrolled in the Accountable Care Collaborative. This count is based on capitations paid to a Regional Care Collaborative Organization (RCCO) for the month of service, and does not include clients who have been attributed to a RCCO but for whom a capitation has not been paid. This report also includes caseload and expenditure data for the Old Age Pension State Medical Program and the Medicare Modernization Act (MMA) State Contribution Payment.

Effective February 2014, the Department is reporting caseload for 'Categorically Eligible Low-Income Adults' and 'Expansion Adults to 60% FPL' in aggregate. With implementation of standardized income rules in Medicaid, the Department's prior methodology used to report these caseload groups is no longer applicable; as a result, the Department must currently report caseload in aggregate. The Department is investigating the possibility of using other

information to continue reporting these populations separately, however, a determination on a new methodology may not be made until a future budget request.

If you have any questions, please contact Josh Block at (303) 866-4116.

Sincerely,

A handwritten signature in black ink, appearing to be 'JB' followed by a long horizontal flourish.

Josh Block
Budget Director
