 - A. References to developmental disability in 19-2-103(5.5) (page 2); 19-2-1301(2):
Should any reference to developmental disability remain in the legislation?
If so, are the references correct and appropriate?
Should "Intellectual disability" be added to 19-2-1301(2)—should it be in place of or addition to developmental disability?
 - B. Developmental immaturity
Should developmental immaturity be included in the legislation in place of or in addition to mental capacity?
If in place of mental capacity, should mental capacity factors remain in legislation and, if so, where?
Mental capacity factors set forth in 19-2-103(12.3) (page 3)
Discuss AG office's proposed suggested revisions to sections (b) and (c)
Discuss suggested revision of additional section at the end—likely (g)—stating "any other factors that the qualified expert deems to be relevant."
Should there be additional or different factors included in this from the evaluator's perspective?
