

Upper Ohio Creek Flow Restoration Project

Location: Gunnison, CO

Funding Partners: Trout Unlimited, Upper Gunnison River Water Conservancy District, Colorado River Water Conservation District, Colorado Water Conservation Board, Acme Ditch owners.

Project description: Trout Unlimited worked with irrigators to install remote monitoring equipment at the head gate and on ranch efficiency improvements which allowed irrigators to manage irrigation water more effectively and prevent a section of stream from drying up below the diversion.

Reducing diversions by 25% which improves stream flows, improving habitat for trout.

Water is available to downstream users.

Improves production.

Protects producers during water short years.

Will not negatively effect water right
