

Forest View Acres Water District

Operations Report – September 25, 2008

Prepared by Erik Tameler, Southwest Water Co.

Sampling:

- The August Coliform sample result was acceptable.
- Water Quality samples were collected for the Corrosion Control Study

Treatment Plants:

Arapahoe Water Plant:

- The plant is operating normally.

Transmission Line/Booster Station:

- CRWA is scheduled to locate leaks on Wed. Sept. 17th.

Surface Water Plant:

- The plant was placed back on-line during my absence. It appears there are a few minor issues to be resolved, but the plant is operating normally.

Distribution system:

- A leak near the bus stop at Stoneview and Pixie Park was repaired.
- A leak was found at a residence and repaired.
