The ability of a CHP+ member to select a particular HMO is dependent on where the CHP+ member resides. A pre-HMO enrollment period is the span of time from a member’s application date until the member is enrolled in a CHP+ participating HMO. The State Managed Care Network delivers care during this span.

State Managed Care Network is available in all counties during the presumptive eligibility and pre-HMO enrollment periods, as well as enrollments for prenatal clients.

DH - Denver Health Medical Plan services these counties only

*Effective 8/1/13:

- Colorado Access HMO starts as an HMO to provide service to CHP+ children in Sedgwick county. I don’t know what this means.

"The mission of the Department of Health Care Policy & Financing is to improve health care access and outcomes for the people we serve while demonstrating sound stewardship of financial resources."
