SECTION 1: GENERAL INFORMATION

PURPOSE

This publication provides software developers with the technical information and/or references necessary for creating and formatting Colorado state electronic business income tax returns. Updates to this document will be posted to our website at the address listed on the previous page. Tax year 2013 draft forms, and schemas will be also be posted on the internet at that web address.

MODERN EFILE

Colorado will accept tax year 2014 business income tax returns through the IRS Modern eFile program. The start date for such filings is January 6, 2015, for partnership returns and corporation returns. Colorado follows the TIGERS and IRS guidelines for Modern eFile returns.

TYPES OF RETURNS/FORMS

Colorado will accept refund, balance due, or zero balance returns for tax year 2014. Forms 112, 112CR, Schedule SF, Form 106 Parts I-IV, 106CR, 0617, 1305, 1316, and 1366 can be transmitted electronically to Colorado.

DIRECT DEBIT DATE

If direct debit is used as a payment method, the direct debit requested payment date is the date of withdrawal from the taxpayer's bank account. The debit date for returns filed by the due date cannot go past the due date. The debit date for returns filed after the due date should be two business days after the filing date. The following elements must be included: checking or savings, routing number, bank account number, account holder type(business or individual), and requested payment date. Paper return filers will not have direct debit. Please alert clients with a balance due that if they do not submit direct debit information with their return, they can go to our website for the online e-pay application to pay by echeck or credit card. If they do not do direct debit or online payment, they must send any Colorado balance due payment by check along with Form DR 0900.

SECTION 3: SPECIAL INSTRUCTIONS

RETURN DATA REQUIREMENTS

Business rules apply if certain lines are greater than zero. For example, the Enterprise Zone credit claimed and used on Form 112 or Form 106 must be supported by the total enterprise credit claimed for use on Form DR 1366. Other non-refundable credits claimed must be supported by Form 112CR or Form 106CR.

ACKNOWLEDGEMENTS/ERROR CODES

For tax year 2014 Colorado will be using the Internal Revenue Service for acknowledgement service. A document with error codes and alerts is available on our web page.

E-FILE PROBLEMS DURING TAX SEASON

Errors or processing problems discovered after testing (during the production income tax season) must be resolved immediately after their discovery and disclosure. To help Colorado maintain the integrity and reputation of the Fed/State e-file program, a short questionnaire for all software developers is provided in the appendix of this document to facilitate the cooperative resolution of problems.

COLORADO TAX CALCULATION

Multiply Colorado taxable income by 4.63 percent and round the product to the nearest dollar amount.

DIRECT DEBIT DATE

If direct debit is used as a payment method, the direct debit date is the date of withdrawal from the taxpayer's bank account. The debit date for returns filed by the due date cannot go past the due date. The debit date for returns filed after the due date should be two business days after the filing date. The account holder type, business or individual, is required.

MODERN EFILE FORMATTING

1. All dollar amounts are in whole dollars.
2. Percentage fields are expressed as percentages using LargeRatioType and must be limited to four places of precision past the decimal point. Example: 12.34557% is expressed as 12.3456. Negative percentages are not allowed.
3. For S-Corp/Partnership composite returns only one form 106CR is needed if the taxpayer entity claims credit for tax paid to another state and has no income or losses in any additional state(s) outside Colorado. A taxpayer claiming credit for tax paid to another state who has income or loss in two or more states outside Colorado must complete a summary using parent element TaxPaidOtherStates with state name "CO" and up to forty-four iterations of parent element TaxPaidOtherStates to claim credit for tax paid to other states. On Form 106 Part III the sum of partner/shareholder percentage should not exceed 100 percent.
4. Taxpayer names should not exceed sixty(60) characters in length.

SOFTWARE DEVELOPER ID

The element SoftwareId should not be a numeric value. Use the software name to fit in the ten character text field allowed. Colorado may suggest an ID.

STATE SUBMISSION MANIFEST

The state submission manifest should have the following

Taxpayer Type	StateSubmissionType	SubmissionCategory
C-Corp	1120	CORP
S-Corp	1120S	CORP
Partnership	1065	PART

Do not include the Colorado schema version in the state submission manifest.

SUBMITTING ATTACHMENTS

Software that supports credits needing supporting documents must support pdf attachments. Colorado will not reject returns that are missing supporting document attachments, but processing of the return will be delayed. The ability to support pdf attachments will be part of the testing process. Software that does not support credits or adjustments needing documentation will not be required to submit pdf attachments as part of their acceptance testing. A new element, SupportingDocMethod, has been added to Forms 112 and 106 to indicate how attachments will be submitted.

If a taxpayer is claiming certain credits or adjustments, the documentation per the form instructions to support the claim should be sent as a pdf attachment with the electronic return. This is the most reliable way to submit documents and associate them with the current year tax return.

If the supporting documents are not attached in pdf format, they can be uploaded to the taxpayer's account in Revenue Online. If neither the efile attachment nor Revenue Online upload methods are used, the documents should be sent by mail using form DR 1778 as a cover sheet for the necessary attachments. Submission of supporting documents by mail will typically add 4-6 weeks to processing time.

To emphasize again, returns that claim certain credits subject to review may experience processing delays if the attachments are submitted separately from the electronic return. We suggest that your software should display a diagnostic box advising that supporting documentation is required and that pdf attachment with the return is the most efficient means of submission.

SIGNATURE ALTERNATIVES

For the Colorado DR 8453C and DR 8453P, Colorado will accept electronic signature methods that are accepted by the Internal Revenue Service.

FRAUD PREVENTION

Software developers should conform to the IRS standards for fraud detection and prevention as stipulated in IRS Publication 1345. Information on suspected fraud should be sent to:

Jennifer Tate	Jennifer.Tate@state.co.us
Cathy Gallen	Cathy.Gallen@state.co.us
Shirley Stevens	Shirley.Steven@state.co.us

SECTION 4: TESTING

COLORADO SOFTWARE DEVELOPER TEST PACKAGE

The Colorado Business Income Test Package contains a series of 8 tests with scenarios for C-Corp returns on Form 112, and S-Corp/Partnership returns on Form 106. The test package should be available by October 24, 2014. Testing will begin Nov. 12, 2014, unless the IRS has delayed the start of ATS testing.

ELECTRONIC DATA TESTING

When ready to test, please send notification by email and include the submission IDs of the tests.

SECTION 5: WHAT'S NEW FOR CALENDAR YEAR 2015

Forms 112 and 106 have a new line for the marijuana business deduction. A copy of a pro forma federal 1120 or 1065 should be included to show the business deductions not allowed at the federal level.

Form DR 1305 for the gross conservation easement credit has updates due to law changes that take effect. Taxpayers who are just using credits they purchased as transferees only need to complete part G, aka Form DR 1305G. Forms DR 1303 and DR 1304 are no longer required due to the law changes.

Form DR 0617 for innovative motor vehicle credit has updates due to changes in the law that went into effect for 2014. The current 2014 paper version of the form does not include a line for the actual credit being claimed such as was on line 35 of the 2013 version, but there is an element in the schema for that value. There is an error on the line 22 instruction. It should say to multiply the amount on line 20 by line 21. The line 12 credit percentage for CNG or LPG vehicles < or = 26,000 pounds is 12.25%, not 13%. At the time this is being written it is expected the form will be updated to correct these items.

Form DR 1366 for enterprise zone credit has been updated to add lines due to changes in the law for the enterprise zone new employee credit. Note that the paper version of this form has incorrect line instructions on lines 28 and 29. Line 28 should instruct to calculate the increase in employees as line 26 minus line 27. Line 29 should instruct to multiply line 28 by \$1,100. Claiming enterprise credits requires efile of the DR 1366. At the time this is being written it is expected the form will be updated to correct these items.

Error Codes

Colorado error codes for rejects and alerts will be published on the software developer page by October 1, 2014.

Many of the error codes are Alerts rather than reject codes. For example, when a return claims an innovative motor vehicle credit, a supporting copy of the dealer invoice must be submitted. If Colorado does not see a pdf attachment with the name ALTFUELINV.pdf, we will accept the return but add an alert message to the acknowledgment regarding the need to submit that document.

Alert messages should be passed along in full by the transmitter to the preparer or taxpayer. Those messages are for the benefit of the preparer/taxpayer so that the return information requirements are fully communicated.
