    - This continues to be a CMS requirement for all Medicaid eligible children until Colorado can provide enough data to show it is not a concern in this region

EPSDT - D = Diagnostic

  - Include duration and treatment goals for the request as well as any previous treatments and responses
  - Is the service or item safe?
  - How do you believe the item to be effective?
    - Send relevant internet documents, manufacturer information, etc. with your request

EPSDT PAR Requests

- Providers can submit a PAR for non-covered services or items to be reviewed under EPSDT guidelines to the appropriate third party vendor that authorizes that category of service
- All requests for services or items will be reviewed by the appropriate third party vendor for medical necessity and a response will be returned to the requesting provider

- When does this edit deny claims?
  - Billing for antepartum + global care
  - Billing for postpartum care + global care
- There are many codes for billing OB services
  - Choose appropriate procedure code and modifier for your service
- Remember: you cannot bill for both global care and antepartum and/or postpartum care

Modifiers: Multiple Infants

- Use appropriate Vaginal or Cesarean delivery procedure code and bill one (1) unit of service for first baby without any modifier
- Modifier 22- use with additional infants
  - Each additional infant must be billed on separate lines using modifier 22 for codes 59409, 59514, 59612 or 59620
  - Indicate one (1) unit for each additional infant in unit field on claim
- Use appropriate ICD-9-CM diagnosis code to indicate multiple infants
  - Date of service must be delivery date

Modifiers: Multiple Infants

Use Modifier UK when:

Both mother and newborn must be in the hospital to bill this charge

Don't use Modifier UK when:

Mother has been discharged or infant is transferred to a different hospital

- Charges must be submitted under newborn's State ID
- You can no longer use the mother's State ID and modifier UK

Obtaining an Infant's Medicaid ID

- In order for county to enroll newborn, notify county Department of Human/Social Services of all the following:

Common Sterilization Errors

- Common Errors
  - Using an old version of the Med-178 (2004) form
  - Missing member's signature
  - Type of operation entered in Consent differs from that in Physician's Statement
  - Incomplete facility address
    - Must include zip code
  - Operation performed less than 30 days or more than 180 days from signature date

Universal Procedure & Diagnosis Coding

- HIPAA requires providers to use universal Current Procedural Terminology (CPT) coding guidelines
  - Medicaid payment policies are based on CPT descriptions
  - Providers are required to consult CPT manual definitions for each code they submit for reimbursement
- Providers must also use International Classification of Diseases, 10th Revision, Clinical Modification diagnosis codes (ICD-10)

CPT Coding Guidelines

- Some codes represent a treatment session, regardless of length of time, so each code is correctly billed as one session or one (1) billable unit
  - Do not bill non-timed codes with greater than one (1) unit
  - Bill non-timed codes such as 92507, and 92508 (otorhinolaryngology services) with one (1) unit per date of service
- Other codes may be billed as number of "timed" units
  - For example, 92607 and 92608 (evaluation and therapeutic services)
- Note: Do not bill 92607 without 92608 if the time is beyond one (1) hour

Common Denial Reasons

Timely Filing	Claim was submitted more than 120 days without a LBOD
Duplicate Claim	A subsequent claim was submitted after a claim for the same service has already been paid
Bill Medicare or Other Insurance	Medicaid is always the “Payer of Last Resort” - Provider should bill all other appropriate carriers first

Common Denial Reasons

PAR not on file	No approved authorization on file for services that are being submitted
Total Charges invalid	Line item charges do not match the claim total
