Questions?

Roles for Denver Health/University

- Department's proposal:
 - Retain statutory requirement for Denver Health and University hospitals to participate in the transformed CICP.
 - Specific to University: Must continue to provide CICP specialty/complex medical care for Colorado. Propose to delete current requirement that University be primary CICP provider for the Denver Metro Area.

Remove Restricted CICP Participation in City and County of Denver

- Current rule states: *“If the general provider is located within the City and County of Denver, the general provider must offer discounted specialty health care services to a specific population, of which more than 50% must reside outside the City and County of Denver (does not apply to University Hospital or Denver Health).”*
- Department’s Proposal: Eliminate this sentence so that other qualified CICP providers may offer services in the City and County of Denver.
