

COLORADO

Department of Public
Health & Environment

Dedicated to protecting and improving the health and environment of the people of Colorado

**APPROVED LIST OF
BREATH ALCOHOL IGNITION INTERLOCK DEVICES (BAIID's)**

Effective: August 1, 2015

Pursuant to Colorado Revised Statutes section 42-2-132.5 (9)(b), effective January 1, 2001:

For the purposes of this section, "approved ignition interlock device" means a device approved by the department of public health and environment that is installed in a motor vehicle and that measures the breath alcohol content of the driver before a vehicle is started and that periodically requires additional breath samples during vehicle operation. The device may not allow a motor vehicle to be started or to continue normal operation if the device measures an alcohol level above the level established by the Department of Public Health and Environment.

The Colorado Department of Public Health and Environment has determined that the Breath Alcohol Ignition Interlock Devices (BAIIDs) listed below meet the federal standards as determined by the Department of Transportation, National Highway Traffic Safety Administration Model Specifications for Breath Alcohol Ignition Interlock Devices (BAIIDs).
