Colorado Farmers' Markets Are Now At Your Fingertips

BROOMFIELD, Colo. – The popular Colorado Farm Fresh Directory, which has been helping consumers find local farmers' markets for 30 years, is now available as a free mobile app. Farmers' markets, roadside stands, u-picks, wineries and other agritourism activities are now conveniently available at your fingertips.

“We are excited to expand this year’s Farm Fresh to include a mobile app version,” said Colorado Commissioner of Agriculture John Salazar. “We want to connect consumers with local producers and this is one more way we can reach out and share information.”

The Colorado Farm Fresh mobile app features more than 200 farms, ranches, roadside stands, u-picks, wineries, restaurants, corn mazes, pumpkin patches and Community Supported Agriculture (CSA) programs as well as 100 farmers' markets across the state. The app allows users to find markets closest to them, provides contact information, lists products available and gives directions and maps to locations.

The Farm Fresh mobile app is available for Apple and Android phones. For more information or to download the app, visit www.coloradoagriculture.com.
