

# Air Pollution Control Division

## Notice of a Proposed Project or Activity Warranting Public Comment

Website Title: Noble Energy, Inc - Wells Rnach Sec 14 EcoNode - Weld County

Notice Period Begins: November 26, 2014

Notice is hereby given that an application for a proposed project or activity has been submitted to the Colorado Air Pollution Control Division for the following source of air pollution:

Applicant: Noble Energy, Inc  
Facility: Wells Rnach Sec 14 EcoNode  
Oil and Gas Exploration and Production Facility  
SWSW, Sec 14, T6N, R63W  
Weld County

The proposed project or activity is as follows: The applicant wishes to permit a new Synthetic Minor E&P EcoNode including Produced Water Storage, Truck Loadout, and emissions associated with separation

The Division has determined that this permitting action is subject to public comment per Colorado Regulation No. 3, Part B, Section III.C due to the following reason(s):

- permitted emissions exceed public notice threshold values in Regulation No. 3, Part B, Section III.C.1.a (25 tpy in a non-attainment area and/or 50 tpy in an attainment area)
- the source is requesting a federally enforceable limit on the potential to emit in order to avoid other requirements

The Division has made a preliminary determination of approval of the application.

A copy of the application, the Division's analysis, and a draft of Construction Permit 13WE2323 have been filed with the Weld County Clerk's office. A copy of the draft permit and the Division's analysis are available on the Division's website at <https://www.colorado.gov/pacific/cdphe/air-permit-public-notice>

The Division hereby solicits submission of public comment from any interested person concerning the ability of the proposed project or activity to comply with the applicable standards and regulations of the Commission. The Division will receive and consider written public comments for thirty calendar days after the date of this Notice. Any such comment must be submitted in writing to the following addressee:

David Thompson  
Colorado Department of Public Health and Environment
