

Colorado Department of Public Health and Environment
Air Pollution Control Division
SUMMARY OF 2004 SIGNIFICANT CHANGES TO
REGULATION NO. 8, PART B – EFFECTIVE MARCH 1, 2004

This summary was issued on March 1, 2004.

Please visit our web page: <http://www.cdphe.state.co.us/ap/asbeshom.asp> for the most current version.

Section I and Section II

- These sections have not been changed.

Section III

- The Section III.E.2. wording changed. The language in the regulation states: An owner of a single-family residential dwelling may opt-out of the area of public access requirements of this regulation for the abatement of asbestos-containing material in excess of the trigger levels in that owner's primary residence by completing the opt-out form. If the homeowner chooses to opt-out, the GAC contracting with the homeowner shall provide the completed, signed "Single-Family Residential Dwelling Area of Public Access Opt-Out Form" to the Division. For a project in which the homeowner has chosen to opt-out, then the single-family residential dwelling will revert to being subject to the area of public access requirements: 1) at the end of the project; 2) when the homeowner no longer owns the single-family residential dwelling; or, 3) if the dwelling ceases being the homeowner's primary residence, whichever is first.
- In section III.S.3., the word "roofing" was added in several places to prevent the inadvertent interpretation that any tar or tar-impregnated materials were exempt from this regulation.

Section IV, Section V, and Section VI

- These sections have not been changed.

Section VII

- This section has not changed except to add the newest "Statement of Basis and Purpose" in VII.D. "Revisions To Address Incorrect Language In The Single-Family Residential Dwelling Opt-Out Provision, Roofing Materials And Typographical Errors."

Appendix A, Appendix B and Appendix C

- These appendices have not changed.
