

Energy Communities Planning for the Future

Meeting Agenda

Wednesday, April 27, 2016

6:00-9:00 p.m. (Moffat County High School Auditorium)

OVERVIEW

In Colorado, energy communities are engaging in economic development discussions to plan for their future given a number of current and pending environmental regulations and broader changes affecting energy development. The City of Craig is in the midst of this process and is co-hosting a meeting with the Air Pollution Control Division to provide stakeholders an opportunity to share ideas and concerns with each other about power demands, coal, natural gas, renewable energy, energy efficiency, economic development and a wide range of current and potential issues that may impact them.

PURPOSE

1. Provide an overview of existing and proposed air quality rules and regulations, market forces and other factors impacting energy communities.
2. Discuss concerns about power demands, coal, natural gas, renewable energy, energy efficiency and other issues impacting energy communities.
3. Identify regional economic development opportunities and resources.
4. Solicit stakeholder comments.

AGENDA

1. Introductory Remarks (10 min)
 - Ray Beck - City of Craig, *Mayor*
 - o Featuring an a cappella performance by Moffat County High School's "Good Vibes"
