

Colorado smoke management and open burning permits

Colorado county government air-quality contacts for smoke

Relevance

1. Two to 48 hours before a person who has a smoke management permit ignites a prescribed fire in Colorado, they must notify the person listed below for the county in which they are burning.
2. The State of Colorado has delegated to some counties authority to issue [open burning smoke permits](#). If the county has delegated authority, the **county's name is in bold and is highlighted** in the list below. If the county's name is not in bold and highlighted, smoke permits for open burning in that county are issued by the Colorado Department of Public Health and Environment. Unlike open burn smoke permits, all [smoke management permits](#) are issued by the state.

Contact Names

County	Person's name	Address	Phone, fax	Email / website
Adams No burning November 1-March 31 each year. Map of the areas North Metro Fire Rescue District's jurisdiction covers (unincorporated Adams County): http://northmetrofire.org/about-us/general-information/ *Request applicants get an open burning permit from North Metro Fire as well if they fall in these areas.	* Tri-County Health Department * Carol Thompson or Chris Woolley, Brighton Fire * Dave Waller, North Metro Fire	Tri-County Health: 6162 S. County	Person's name	Address	Phone, fax	Email / website
Summit Two categories: <8' piles and 8'-15' piles. For piles greater than 15', applicants must go through the CDPHE as those cannot burn out cold by dark. For the 8'-15' piles, the applicant must call the Summit Public Health Department to get permission to burn each day. The day must have >60k ventilation OR greater than 60 percent probability of precipitation.	*Dan Hendershott, Environmental Health manager, Public Health Department	0037 Peak One Drive P.O.
