## CDOT C-470 Express Toll Lanes DBE Reverse Trade Fair

CDOT and the Denver Metro Small Business Development Center (SBDC) are hosting a workshop and Reverse Trade Fair to bring together prime contractor teams and small, minority, and woman-owned subcontractors for the \$230 million expansion of C-470 in Denver. This project is a traditional design-build that will include a variety of subcontracting opportunities for small businesses that provide highway design, engineering, and construction-related services.

Disadvantaged Business Enterprises (DBEs) are invited to attend a pre-fair workshop on May 18<sup>th</sup> to meet the CDOT team and learn more about the project scope, schedule, and event logistics. **Note: DBEs must attend this session to reserve a free display table at the Reverse Trade Fair.**

The Reverse Trade Fair will be held on June 3<sup>rd</sup> and will provide an opportunity for DBEs to showcase their capabilities to the short-listed prime contractor teams. The fair coincides with the release of the Request for Proposal (RFP) so there will be plenty of time to meet key players and secure a place in final proposals. **Space is LIMITED so register today!**

### Register:

Please register online for one or both sessions.
