SERVICE DEFINITION	MINIMUM DOCUMENTATION REQUIRED																	
Educational and coaching services that assist clients and family members to recruit other family members and friends to form an informal caregiver network to share caregiving responsibilities.	<ul style="list-style-type: none"> Log notes; Training curriculum; Individual data form; Caregiving schedule; Telephone tree of caregivers; Assessment notes; Record of completion of training by caregivers. 																	
NOTES	EXAMPLE ACTIVITIES																	
Training for crucial informal support network on service availability, appropriate expectations, health and safety issues, problem-solving, caregiving, best practices and models for organizing and coordinating informal support networks. Training will include assisting the client, family and other informal supports with implementing the strategies and techniques into their daily routine of caregiving. Strategies and techniques are intended to facilitate greater structure of supports and a community of care for client and caregivers to mitigate stress and conflict and to share responsibility for caregiving. Models such as Share the Care™, Caring for You, Caring for Me: Education and Support For Family & Professional Caregivers, Coping with Caregiving, and American Red Cross Family Caregiving Program may be used. Taking into consideration the client's preferences for support, and at the direction of the client, this service is designed to help clients and family members and friends who provide caregiver responsibilities.	Training activities might include helping clients and caregivers identify: <ul style="list-style-type: none"> What does caregiving look like for your family member or loved one? What does caregiving look like for the caregivers? How do caregivers identify client needs? How do clients ask for help for what they need? How do clients match people with the assistance or support they need? What do clients expect of their caregivers? What tasks will the caregiver be expected to perform? What does the caregiving schedule look like and how does it fit the needs of both the client and the caregiver? Daily? Weekly? Monthly? Yearly?

SERVICE DEFINITION	MINIMUM DOCUMENTATION REQUIREMENTS																	
<p>Case management services to assist clients in assessing needed home and community-based services, Medicaid State Plan services and non-Medicaid supports and services to support the clients' return to the community from placement in a qualified institution and to aid the client in attaining their transition and independent living goals.</p>	<ul style="list-style-type: none"> • Service plan to include risk mitigation plan and emergency back-up plan; • Prior Authorization Request (PAR) for services; • Client demographic information; • Duration of each contact; • Each contact with and on behalf of client; • Nature and extent of service; • Date and place of service delivery; • Mode of contact (face-to-face/telephone); • Issues addressed (CCT services, family, income/ support, legal, medication, educational, housing, interpersonal, medical/dental/behavioral health, vocational, behavioral services, other client issues); • Client's response; • Progress toward care plan goals and objectives; • Type of activity and specific functions <ul style="list-style-type: none"> ○ Assessment ○ Care plan indicating that client was provided choice ○ Referrals ○ Monitoring and follow-up ○ Critical Incidents; • Conflict mitigation efforts 																	

NOTES	EXAMPLE ACTIVITIES
<p><i>Case management involves linking the consumer to the direct delivery of needed services, but is not itself the direct delivery of a service to which the consumer has been referred.</i> Weekly contacts are required for the duration of the assigned client’s enrollment. Weekly contacts can either be home visits or telephone calls based on necessity. On the date of discharge, the case manager is required to conduct a home visit with the client and transition coordinator to ensure the client is safe, confirm the start of services and to alleviate any concerns the client may have with their transition. Case manager is required to conduct a check-in with the client 48 hours post-discharge. Three additional home visits are required in the first month of program enrollment. Best practice is joint visit between the transition coordination agency and the case management agency within 30 days of discharge. All critical incidents will be reported via the department approved process and investigated. Necessary follow-up to remediate the situation will be at the discretion of the case manager. Hospitalizations and reinstitutionalizations should be documented as soon as possible to adjust CCT enrollment period. Services assist individuals’ access to needed long-term services and supports (LTSS), Medicaid State Plan services, non-Medicaid supports and services to support clients in their return to the community from institutional placement, and to aid the client in attaining their transition and independent living goals identified in the Consumer Transition Guides. Case managers are expected to coordinate with other local agencies, such as Mental Health Centers, for the purpose of joint service planning and the arrangement of services. Case Manager is responsible for:</p> <ul style="list-style-type: none"> • Assessing needs; • Determining eligibility; • Service planning and authorization; • Care coordination; • Risk mitigation; • Service monitoring; • Monitoring the health, welfare and safety of the client; and • Promotion of client’s self-advocacy. 	<ul style="list-style-type: none"> • Confirm CCT eligibility requirements by verifying client had qualified nursing home stay and moved to a qualified community residence. • Assess the need for service(s), identifying and investigating available resources, explaining options to participant and assisting with referral and procurement of services. • Contact with clients’ family members or informal supports to assist client with accessing services. • Conduct home visits and telephone calls for the purpose of monitoring and reassessing the health, welfare and safety of the client to determine appropriateness of services and client satisfaction. • Report, investigate and remediate critical incidents. • Develop risk mitigation plan with client to prevent reinstitutionalization and critical incidents. Modify as needed particularly following a discharge after reinstitutionalization or after a critical incident. • Coordinate care with mental health centers for clients with mental illness. • Assess and monitor progress with achieving goals and increased independence. • Seek input from medical and service providers to inform assessment and monitoring activities. • Verify with client that he/she is making medical appointments. • Resource development to ensure client has access to providers and services.

SERVICE DEFINITION	MINIMUM DOCUMENTATION REQUIREMENTS										
<p>Services by a qualified paraprofessional to support a client during the transition period to mitigate issues, symptoms, and/or behaviors that are exacerbated during the transition period and negatively affect the client's stability in the community.</p>	<ul style="list-style-type: none"> Date of service (DOS); Start and end time/duration; Participant demographic information; Specific activity provided and POS; Participants response; Providers dated signature, title/position; Participants' progress toward his/her person-centered goals identified in the treatment/service plan. 										
NOTES	EXAMPLE ACTIVITIES										
<p>Frequency of services will be higher than typical behavioral health services. Services will be provided in the client's home or other community based settings. When necessary, a community mental health center will develop behavioral health plan prior to discharge from the nursing facility or ICF/IID. The behavioral health support specialist will help develop and implement the behavioral health plan. Individuals with behavioral health conditions face additional barriers to community integration, including:</p> <ul style="list-style-type: none"> Insufficient understanding and limited provider competency in dealing with psychiatric disorders, making providers reluctant to serve these individuals. Need for a process for identifying and connecting individuals with psychiatric or substance abuse disorders with appropriate long-term services and support options. Limited services and support options appropriate for individuals with co-occurring behavioral disorders. Limited availability of substance abuse services for adults under Medicaid. A need for integrative care for both physical and behavioral health. High level of need for services provided in settings other than office. 	<ul style="list-style-type: none"> Problem-solving challenges of transition De-escalating emotional situations Coaching to resolve maladaptive behaviors Coaching family members and friends to follow a behavior plan Coaching to set up reminders to take medication Assistance with navigating the community mental health provider intake process Assessing and accompanying clients to community resources and support groups as needed; Assisting with community integration.

Although Behavioral Health Supports are different than Behavioral Programming, the H0025 procedure code is appropriate for both. Thus the unit designation for Behavioral Health Supports must be the same as Behavioral Programming, which has a 30 minute unit designation.
