Durable Medical Equipment (DME) and Supplies

Program Overview

The Colorado Medical Assistance Program covers Supplies and Durable Medical Equipment (DME) as described in this manual. Durable Medical Equipment is defined as equipment that can withstand repeated use and that generally would be of no value to the member in the absence of a disability, illness, or injury. This manual gives a summary of the covered DME benefits and is periodically modified as new billing information is implemented. Therefore, the information in this manual is subject to change.

The definitive list of covered diagnosis and procedure codes is located in the Supply Healthcare Common Procedure Coding System (HCPCS) Codes provided in this manual, which the Colorado Medical Assistance Program updates and makes available to all enrolled DME providers annually. Providers should consult the current Supply HCPCS Codes included in this manual for updated benefit coverage, limitations, and prior authorization request (PAR) requirements. Providers may refer to the Code of Colorado Regulations, [Program Rules](#) (10 CCR 2505-10 Section 8.590), for specific regulations and guidance on providing the DME benefit.

The Department of Health Care Policy and Financing (the Department) periodically modifies billing information. Therefore, the information in this manual is subject to change, and the manual is updated as new billing information is implemented.

Eligible Providers

Providers must be enrolled as a Colorado Medical Assistance Program provider in order to:

- Treat a Colorado Medical Assistance Program member
- Submit claims for payment to the Colorado Medical Assistance Program

Note: For members with primary insurance refer to the PAR submission instructions below.

Prescribing Providers

Supplies and DME must be prescribed by a physician, physician assistant or nurse practitioner. The prescription must be within the scope of the prescribing provider's license.

Supply/Equipment Providers

Supply providers may be either enrolled pharmacies or durable medical equipment supply companies.

Pharmacies: In state or border pharmacies will be automatically enrolled as a DME supplier upon approval of pharmacy application.

Mail order pharmacies do not qualify to provide DME/Supplies. Pharmacies with less than 5% of total revenue received from DME are not required to obtain Medicare accreditation.

All DME providers must provide proof of Medicare accreditation with the exception of pharmacy and orthotics and prosthetics providers.

Out of state DME providers may only provide services for crossover Medicare/Medicaid members or have a specialized product that cannot be obtained through an in-state DME provider.

The rendering provider must retain the member's prescription for services and related documentation for at least six (6) years, and make it available for audit by the Department of Health Care Policy and Financing (the Department) and its agents or representatives.

Covered Benefits

Supplies and DME must be medically necessary and prescribed by an authorized prescriptive authority for use by an eligible members. The following are categories of covered benefits and are further outlined in this section. Additional equipment and supply items are listed in the Supply HCPCS section of this manual.

Durable Medical Equipment (DME)

DME refers to equipment that can withstand repeated use and allows member accessibility in the home and community. DME is covered in the following categories

Inexpensive or Routinely Purchased: These items are purchased for a recipient.

Capped Rental/Purchased Equipment: These items are rented or purchased as follows:

- a. The item is **rented** if the physician, physician assistant, or nurse practitioner documents that the anticipated need is six (6) months or less.
- b. The item may be **rented** or **purchased** if the physician, physician assistant, or nurse practitioner documents that the anticipated need exceeds six (6) months.

Once rental is initiated on an item, a subsequent request for prior approval of purchase of that item must be accompanied by additional supporting documentation validating the need for purchase. Rental reimbursements may not exceed the purchase price of the item. Once the purchase price of the item is reached, the rental will be considered purchased and no additional reimbursement will be made. Some items are rental only.

Example: If the monthly rental for an item is \$30 and the new purchase price is \$200, the Colorado Medical Assistance Program will pay six (6) full months of rental, plus no more than \$20 in the seventh month of rental. At that time, the item becomes the property of the recipient, and no more rental payments are made.

Equipment Requiring Frequent and/or Substantial Servicing: Most equipment will convert to purchase when purchase price is met. Exceptions to this policy include:

- a. Oxygen Equipment
- b. Specialized high-complexity hospital beds
- c. Ventilators

Supplies

Related Medical Supplies

Supplies accompanying DME that has been prescribed and is currently being used by the member are covered.

Rebates

If a rebate is available the provider must reflect Usual and Customary charge minus the rebate received or anticipated from the manufacturer.

Disposable Supplies

Disposable supplies, including gloves, are a benefit the Colorado Medical Assistance Program for use by the member in his/her home. With the exception of gloves, the Home Health agency is responsible for providing all supplies necessary to meet the universal precaution requirement during a visit.

Enteral Nutrition Products

Enteral nutrition (EN) refers to medical formula/solutions when ordered by a physician, physician assistant, or nurse practitioner and provided according to standards of practice. The allowance for all items includes delivery to a member's residence. Equipment, supplies, and nutrients for enteral feeding or food supplements are a benefit when prior authorized.

Durable Medical Equipment providers should request that members participate in the Women, Infants & Children (WIC) program as a primary resource for medically necessary enteral nutrition products. Enteral nutrition products prescribed over the WIC limit are a covered benefit. Providers have the option of requesting a three (3) month PAR for members in the process of applying for WIC. After WIC determination is completed, provider may then submit a new PAR for one (1) year less one (1) day.

PARs and claims must identify the calculated number of units as specified in the current Supply HCPCS Codes section of this billing manual. Nutritional supplements are not for replacement of conventional foods or for use as a convenience item.

Home Intravenous (IV) Equipment

Home Intravenous (IV) equipment is a DME benefit for administration of Total Parenteral Nutrition (TPN), administration of antibiotics, maintenance of electrolyte balances, hydration, or other medications.

The home IV therapy solutions and medications in this manual that are indicated as a home mix are a pharmacy benefit. The following HCPCS codes must be provided by a pharmacy per pharmacy billing requirements using a rebateable National Drug Code (NDC): B4164, B4168, B4172, B4176, B4178, B4180, B4186, B4189, B4193, B4197, B4199, B4216, B5000, B5100, B5200. These codes are only reimbursed as supply benefit for crossover claims when provided as an inpatient therapy for full benefit Medicare-Medicaid members.

Diabetic Supplies

Diabetic Supplies including glucose testing meters, test strips and other related supplies are a benefit with a prescription from a physician, physician assistant or nurse practitioner. Diabetic supplies are available for insulin, and non-insulin dependent members. Diabetic supplies MUST be billed as DME/Supply. Pharmacies billing supply must follow supply billing procedures and will not be reimbursed if billed as pharmacy or using NDC codes.

Incontinence Products or Briefs

The prescribing practitioner's prescription must include incontinence as a condition of a primary or secondary diagnosis in order for the member to qualify for reimbursement by the Colorado Medical Assistance Program. COMBINATION LIMIT: Diapers or briefs for children 0-4 years old are an expected childhood expense and are not a Colorado Medical Assistance Program benefit. Products are limited to 240 per calendar month in any combination of diapers, liners, and undergarments. Medically necessary usage above that amount requires prior authorization. Incontinence wipes are not a benefit.

Oxygen Contents and Oxygen Delivery Systems

Oxygen contents and delivery systems must be billed by the supply provider.

Prosthetics and Orthotics

Prosthetics and orthotics are a covered Colorado Medical Assistance Program benefit for eligible members. The benefit includes items such as breast prostheses, braces, artificial limbs, implants, augmentative communication devices and orthopedic shoes for diabetic members. Some services require prior authorization.

Wheelchair Purchase (Manual, Power and Scooter)

All wheelchair purchases require prior authorization and must be accompanied by a signed letter of medical necessity from a physician, physician assistant or nurse practitioner. Customized items must be identified separately and included in the letter of medical necessity.

Members who meet medical criteria guidelines may receive one (1) primary wheelchair and, when deemed necessary, one (1) secondary/backup wheelchair within a five-year time period. Replacement of stolen equipment requires a police report that conforms to criteria outlined in the Colorado Revised Statutes.

Billing for Wheelchairs:

- Providers must retain record of the serial number for each approved item. ALL electronic and paper claims for wheelchairs must be submitted with the serial number of the equipment that was approved on the PAR.
- Primary and secondary/backup wheelchairs are identified by the unique PAR approval and serial numbers and should be indicated on all wheelchair claims to avoid duplicate claim denials. Providers should NOT submit claims with the 76 modifier, as it is not a valid DME modifier for the Colorado Medical Assistance Program.
- Beginning April 1, 2014, all prior authorization requests and claims for secondary/backup wheelchairs must be submitted with a TW modifier. All components associated with the secondary or backup wheelchair must also contain the TW modifier.

Wheelchair Equipment Repair (Manual & Motorized)

Wheelchair and equipment repair costs are a Colorado Medical Assistance Program benefit when the member owns the equipment and the repair cost does not exceed the equipment's replacement cost. PARs for wheelchair repair no longer require a prescription or signature from the physician.

Prior Authorization for Repairs:

A PAR is required for **EACH** wheelchair repair item. Prior Authorization Requests submitted with multiple repairs will be denied. The following information must be included in the request; requests lacking any of the following information will result in a denial or will be returned to the provider for the missing information:

- Wheelchair type indication: manual or motorized; and
- Manufacturer, make, and model; and
- Serial number: PARs for equipment repair must identify the serial number of the equipment in field 12 or 30 (paper) or field 12 (electronic) on the PAR form; and
- If available, please include the original wheelchair purchase date or PAR; and
- If the repair is for a secondary/backup wheelchair, the PAR and claim must contain the TW modifier.

Note: Wheelchair repairs for members residing in a nursing facility may be covered if the wheelchair was owned by the member prior to entering the facility. In this instance, the PAR must indicate that the

member is residing in the nursing facility by checking “yes” in the appropriate field on the PA request. The PAR will not be processed without this disclosure.

Billing for Repairs:

Providers must retain record of the serial number for each approved repair item. The serial number must also be included on the CMS 1500 claim form in field 30 for all paper claims.

Transcutaneous or Neuromuscular Electrical Nerve Stimulators (TENS or NMES)

TENS or NMES require a 2-month trial rental period. A PAR is required for the rental or purchase of a TENS or NMES unit. This benefit requires the use of Questionnaire #9.

Augmentative and Alternative Communication Devices (AACDs)

The AACD Benefit Coverage Standard has been incorporated by reference to the Durable Medical Equipment and Disposable Medical Supplies rule 10 CCR 2505-10, §8.590.2.S, effective September 30, 2013. This coverage standard contains important information on updated prior authorization requirements and guidelines for providing tablet computers, which is an addition to the communication device options covered by Medicaid.

Please refer to the AACD Benefit Coverage Standard for detailed coverage guidelines and prior authorization requirements located on the Department’s website (colorado.gov/hcpf) → For Our Stakeholders → Committees, boards, & collaboration → Boards & Committees → Benefits Collaborative → [Approved Benefit Coverage Standards](#).

Complex Rehabilitation Technology (CRT)

Program Overview

Complex Rehabilitation Technology (CRT) includes individually configured manual wheelchair systems, power wheelchair systems, adaptive seating systems, alternative positioning systems, standing frames, gait trainers, and specifically designed options and accessories classified as DME. Only qualified CRT suppliers may bill CRT procedure codes. The CRT procedure codes are listed beginning on page 170.

Eligible Providers

Prescribing Providers

Complex Rehabilitation Technology must be prescribed by a physician, physician assistant or a nurse practitioner. The prescription must be within the scope of the prescribing provider’s license.

Billing Providers

Only providers enrolled as a CRT supplier may bill for CRT codes. In order to qualify as a CRT supplier, providers must:

- Be accredited by a recognized accrediting organization as a supplier of CRT.
- Meet the supplier and quality standards established for DME suppliers under the Medicare or Medicaid program.
- Employ at least one (1) qualified CRT professional (ATP) for each location.
- Have CRT professionals present during member evaluation to:
 - Assist in selecting the appropriate CRT items for such needs and capacities

- Provide the member technology- related training in the proper use and maintenance of the selected CRT items
- Directly involve with the assessment, and determination of the appropriate individually configured complex rehabilitation technology for the member, with such involvement to include seeing the member visually either in person or by any other real-time means within a reasonable time frame during the determination process
- Maintain a reasonable supply of parts, adequate physical facilities, and qualified services or repair technicians to provide members with prompt service and repair of all CRT it sells or supplies; and
- Provide the member written information at the time of sale as to how to access service and repair.

Existing Colorado Medicaid DME providers that want to enroll as a CRT supplier, need to request a letter of intent to enroll as a CRT supplier. Suppliers with multiple Medicaid provider ID numbers need to submit a letter of intent for each provider ID number that will bill CRT for Medicaid.

Special Considerations

DME Rental

Unless specifically noted, the first month of equipment rental does not require prior authorization. The provider must use modifier -KH (first month's rental) in the modifier column on the claim form and one (1) unit of service per procedure code. There may be a financial cap on rental items. If the total cost for rental of any item reaches the cost of purchase, the item will be converted to a purchase unless otherwise specified. Rental amounts in excess of purchase amounts are subject to recovery.

Used/Refurbished DME

Supply providers have the option to request refurbished durable medical equipment. Equipment may be donated, passed down from a sibling or purchased from a durable medical equipment provider post refurbishment. All refurbished equipment requires a PAR.

The durable medical equipment provider must guarantee that the equipment provided to the member is in "like new" condition, and that any modifications are made prior to the delivery of the equipment. The cost of repairs or modifications must not exceed the cost of replacement equipment. The provider will maintain a one (1) year limited warranty that covers all necessary parts or repairs. Comparison pricing for new equipment must be included in the PAR documentation. PAR documentation must include the make, model, and serial number of equipment. The Used Equipment (UE) modifier must be used on all used equipment.

Examples of allowable used or refurbished equipment are:

- Manual Wheelchairs
- Power Operated Vehicles (Scooters)
- Power Wheelchairs
- Hospital Beds (Frame only, new mattress must be purchased)
- Lifts
- Augmentative Communication Devices

Dates of Service After the Death of a Medicaid Member

The Colorado Medical Assistance Program will reimburse supply providers for durable medical rental equipment, oxygen, and bulk supplies that are drop-shipped to the member's home for services rendered during the month of the member's death. The Colorado Medical Assistance Program will make recoveries

for other services following the date of the member's death, or for rental and bulk supplies billed after the month of the member's death.

Shipped Supplies

Member must be contacted prior to shipping to ensure member information is correct. Members may not be charged for costs associated with shipping and handling.

Pricing

Maximum Purchase Amount

Priced Code: Purchase amount is available up to the maximum identified dollar amount listed on the fee schedule. This is not a guarantee of the printed amount if the actual cost of the item is less. No additional handling, shipping, or tax charges may be billed.

MSRP or Invoice Pricing: Fee schedule items that require manual pricing are reimbursed using the manufacturer suggested retail price (MSRP) or invoice methodology. Current pricing can be found in 10 CCR 2505-10, Section 8.590.7.I of the [Colorado Medical Assistance Program rules](#) regarding DME and Supplies.

***Please note:** The above listed maximum allowable purchase and rental price is subject to change. For current pricing, please refer to the Rates & Fee Schedules section on the [Provider Services](#) web page of the Department's website at colorado.gov/hcpf. Quotes are not allowed for pricing at any time.

Maximum Allowable Rental Price

Priced Code: Rental benefit is available up to the identified dollar amount maximum listed on the fee schedule. This is not a guarantee of the printed amount if the actual cost of the item is less. Accessories, maintenance, and repairs are inclusive in the cost of the rental item.

Per PAR: Rental payment is based upon attachment of a manufacturer's invoice to the PAR. Reimbursement will be determined at the time of PAR approval as a percentage of invoice cost. A copy of the PAR must be attached to each submitted claim only if the PAR indicates the amount of reimbursement allowable in the Comments field. Otherwise, claims can be billed through the electronic media system. All approved prior authorized miscellaneous codes approved for rental must have a copy of the approved PAR attached to each submitted claim.

***Please note:** The above listed maximum allowable purchase and rental price is subject to change. Please refer to the fee schedule on the [Provider Services](#) web page of the Department's website at colorado.gov/hcpf for current pricing. Quotes are not allowed for pricing at any time.

Prior Authorization Requests (PARs) for Supplies and DME

Some supply items and most DME items require prior authorization. A member may be required to receive an occupational therapy evaluation to determine appropriateness of prescribed equipment such as motorized chairs and lift chairs. This manual contains a detailed list of prior authorization requirements as well as the correct form and mailing address for each PAR.

Prior Authorization Requests must be submitted and approved before services are rendered. The service must be rendered by the identified supplier on the approved PAR. Services rendered must match the approved services exactly.

Approval of a PAR does not guarantee Colorado Medical Assistance Program payment and does not serve as a timely filing waiver. Prior authorization only assures that the approved service is a medical necessity and is considered a benefit of the Colorado Medical Assistance Program. All claims, including those for prior authorized services, must meet eligibility and claim submission requirements (e.g., timely filing, detailed provider information, detailed description of medical necessity, all required attachments included, etc.) before payment can be made.

CRT PAR Requirement

There are two (2) levels of documentation requirements associated with PARs for CRT:

1) Basic Documentation

- This level of documentation does not require a specialty evaluation. Basic documentation requirements apply to all CRT wheelchairs and wheelchair-related items that require a PAR. The basic documentation should include at a minimum the following information:
- Member's name, date of birth, residence address, height and weight, and all relevant medical diagnoses.
- A summary of the member's current medical condition, prognosis, previous and current treatments that are pertinent to the requested item.
- Length of anticipated need for the requested item.
- A brief description of the member's impairment in functional mobility that establishes that they have a mobility limitation and the item is needed for a medical purpose.
- If the recommended item is not the least costly option available to meet the member's medical need, documentation must contain a brief description of the impairments in body functions or structures that rule out use of the less costly item to justify the need for the recommended item.
- A description of how the member will operate the device (e.g. self-propel, tiller, joystick, etc.). Include a statement summarizing the member's mental and physical abilities/limitations as they pertain to member's ability to operate the recommended equipment appropriately for the duration of recommended use and in the environments in which it will routinely be used.
- If applicable, a brief description of the member's seating and positioning needs, and how these will be adequately met by the recommended device.
- If applicable, a brief description of where the equipment is to be used (example home, school, place of work, neighborhood, rural, city, train, etc...), including the accessibility of member's residence or non-institutional setting. Include if the equipment will be transported in a vehicle and how, as well as the capability of the member or caregiver to properly operate the equipment in these environments.
- A brief description of any anticipated changes in the member's physical size, medical or functional status which may require modifications to the equipment, and how the equipment will accommodate the member's needs over time. The recommended equipment should be capable of modification to meet the needs for anticipated improvement or deterioration of functional mobility when possible.
- Detailed description of all manually priced items that are requested including manufacturer's retail pricing or invoice information with itemized pricing, including the description of the specific base, any attached seating system components, and any attached accessories.

- All basic documentation paperwork (except for repair and replacement) requires the signature of the ordering physician, indicating that he or she agrees with the recommendation, and has evaluated the member within the past 12 months of signing and dating the required paperwork.

2) Specialty Evaluation Documentation

This level of documentation provides further details in order to establish medical necessity. A specialty evaluation is an assessment performed by a licensed/certified medical professional (such as a Physical Therapist, Occupational Therapist, or physician) who has no financial relationship with the DME supplier and who has specific training and experience in complex rehab technology wheelchair evaluations. The evaluation includes the physical and functional evaluation, treatment plan, goal setting, preliminary device feature determination, trials/simulations, fittings, function related training, determination of outcomes, and related follow-up. This evaluation is performed in conjunction with an equipment supplier who is a Rehabilitation Engineering and Assistive Technology Society of North America (RESNA)-certified Assistive Technology Professional (ATP), and who assists with the home environment accessibility survey, system configuration, fitting, adjustments, programming, and product related follow up.

Specialty evaluation is required for:

- A new CRT wheelchair or a replacement CRT wheelchair after the 5th year mark for adults and 3rd year mark for children.
- A new custom contoured seating system or modification.
- An addition of power seating or alternative drive control to a wheelchair.
- Items that require a specialty evaluation must include both the basic and specialty evaluation documentation. Documentation for specialty evaluation should include the following information in addition to the basic documentation requirements previously listed:
- Date(s) of specialty evaluation; name and signature of licensed/certified medical professional completing the evaluation and assessment. A statement attesting that the person performing the assessment has no financial relationship with the DME provider should be included.
- A brief description of the specialty evaluation process that was completed, which includes a summary of the pertinent assessment findings/outcomes in the following assessment areas that apply:
 - Functional mobility, including transfers
 - Sitting balance/postural alignment
 - Existence and severity of postural asymmetries
 - Sensory function, if impaired
 - Neuromusculoskeletal function (movement, muscle tone, coordination)
 - Mat exam (joint range of motion, deformities, orthopedic impairment), addressing the existence and severity of orthopedic deformities
 - Equipment trials/simulations
- A description of the member's current mobility and/or seating equipment, how long the member has been using the current equipment and why it no longer meets the member's needs.
- Information on any recent changes in the member's physical or functional status, and any expected or potential surgeries that will improve or further limit mobility.

- If applicable, information regarding the member's seating and positioning needs and the specific seating equipment and accessories required to meet those needs.
- A summary of the type of mobility equipment that will best meet the member's medical and functional needs and an explanation of the basic and/or instrumental ADLs that will be possible with this equipment that would not be possible with a lower level or lower cost item.
- If applicable, documentation that supports why a tilt seat function is necessary to meet the member's medical and/or functional needs.
- If a member has a progressive disability, the documentation must indicate how the item will accommodate the member's needs over time. If a member is expected to grow, the wheelchair must have a growth potential.
- All specialty evaluation paperwork requires the signature of the ordering physician, indicating that he or she agrees with the recommendation and has evaluated the member within the past 12 months of signing and dating the required paperwork.

NOTE: Specialty evaluation is not required for CRT repair and replacement.

PAR Submission

All PARs must be submitted by the supply provider that intends to submit the claim for the service and have an attached prescription from the prescribing authority and any other required documentation. Each PAR must include the name and phone number of the member's Primary Care Physician (if applicable). PAR requests for members with a non-Medicaid primary care physician must include the primary care provider's National Provider Identifier (NPI), contact information and note in the "comment" section stating that the referring provider is not a Colorado Medical Assistance Program provider and prescriptive authority has been verified. Pharmacies and providers shall not charge a member for items covered as a Colorado Medical Assistance Program benefit. This includes but is not limited to blood pressure monitors, blood glucose monitors, walkers, canes, nutritional supplements, and incontinence products.

Prior Authorization Request dates typically have a date span for one (1) year less one (1) day. Exceptions for decreased span dates less than one (1) year are allowed in certain circumstances such as short term rental or WIC application period. Dates must not exceed one (1) year and must match the dates on individual line items or the PAR will be denied.

All PARs and revisions processed by the ColoradoPAR Program must be submitted using [CareWebQI](#) (CWQI). Prior Authorization Requests submitted via fax or mail **will not** be processed by the ColoradoPAR Program and subsequently not reviewed for medical necessity. These PARs will be returned to providers via mail. This requirement only impacts PARs submitted to the ColoradoPAR Program.

The electronic PAR format will be required unless an exception is granted by the ColoradoPAR Program. Exceptions may be granted for providers who submit five (5) or less PARs per month.

To request an exception, more information on electronic submission, or any other questions regarding PARs submitted to the ColoradoPAR Program, please contact the ColoradoPAR Program at 1-888-454-7686 or refer to the [Department's Colorado PAR Program web page](#)

PAR Review and Notification

The actual number of units approved for any item may be reduced or increased by the reviewer evaluating the PAR.

Once review is complete, the status of a PAR (approved, partially approved, or denied) is available through the Colorado Medical Assistance Program Secure Web Portal ([Web Portal](#)). In addition, both the provider and the member receive a letter indicating whether or not the services were authorized. The letter will include a PAR number that must be included on the claim.

Submitting Claims after PAR Approval

Providers must receive an approval for all items/services that require a prior authorization before submitting a claim.

Once prior authorization is received, claims should only include the approved PAR number and, if applicable, the serial number of the approved equipment. In most cases, it is not necessary to submit a copy of the approved PAR. Providers will be notified if a copy of the approved PAR is needed.

Questionnaires

All questionnaires are located in the Provider Services [Forms](#) section of the Department's website. Complete the corresponding questionnaire needed. Follow the links to the location.

colorado.gov/hcpf → For Our Providers → [Provider Services](#) → [Forms](#) → DME-Supplies Questionnaires

Record Keeping

Supply providers must maintain the records described below for all items provided to member. Supply providers must keep the information for 6 years, and provide a copy of any documentation to the Department and member or his/her representative upon request.

1. Prescribing practitioner's prescription(s);
2. Approved prior authorization requests;
3. Additional documentation received from physicians or other licensed practitioners;
4. Documentation that the member or caregiver has been provided with the following:

- Manufacturer's instructions;
 - Warranty information;
 - Registration documents;

 6. Verification that equipment requiring repairs belongs to the presenting member.

National Provider Identifier (NPI)

The Health Insurance Portability and Accountability Act (HIPAA) requires that covered entities (i.e., health plans, health care clearinghouses, and those health care providers who transmit any health information electronically in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard) use NPIs in standard transactions.

General Billing Information

All of the requirements for member eligibility and proper claim submission must be met before reimbursement will be made. The provider is responsible for verifying the member's eligibility status on the date of service, securing appropriate physician authorizations, correct coding and billing information.

Failure to use the proper coding when billing may result in claims being denied or may place the provider in jeopardy of recovery actions and/or state or federal civil sanctions. Use procedure codes and modifiers as instructed in this manual.

Paper and Electronic Billing

Paper Claims for All Billing Types

Electronic claims format shall be required unless hard copy claims submittals are specifically authorized by the Department. Requests may be sent to the Department's fiscal agent, Xerox State Healthcare, P.O. Box 90, Denver, CO 80201-0090. The following claims can be submitted on paper and processed for payment:

- Claims from providers who consistently submit five (5) claims or fewer per month (requires prior approval)
- Claims that, by policy, require attachments
- Reconsideration claims

Paper claims do not require an NPI, but do require the Colorado Medical Assistance Program provider number. Claims submitted on paper without pre-approval are processed, denied, and marked with the message "Electronic Filing Required."

Electronic Claims

Instructions for completing and submitting electronic claims are available through the following:

- X12N Technical Report 3 (TR3) for the 837P, 837I, or 837D (wpc-edi.com)
- Companion Guides for the 837P, 837I, or 837D in the Provider Services section of the Department's website
- Web Portal User Guide (within the Web Portal)

The Colorado Medical Assistance Program collects electronic claim information interactively through [Web Portal](#) or via batch submission through a host system. Please refer to the [General Provider Information](#) manual (Colorado.gov/hcpf) → For Our Providers → Provider Services → Billing Manuals → CMS 1500 for additional electronic billing information.

Using Modifiers

Modifiers are used with HCPCS codes to describe circumstances that may change or alter payment. Refer to the approved modifiers for use with DME procedure codes in field locator 19c in the Paper Claim Reference Table section.

The following modifiers are approved for use with DME procedure codes and must be used when applicable:

22	Increased Procedural Services
52	Reduced Services
BO	Orally administered nutrition, not by feeding tube
KH	DMEPOS item, initial claim, purchase or first month rental
KI	DMEPOS item, second or third month rental
KR	Rental item, billing for partial month
MS	Six (6) month maintenance and servicing fee for reasonable and necessary parts and labor which are not covered under any manufacturer or supplier warranty
RR	Rental (use the RR modifier when DME is to be rented)
SC	Medical Necessary Service or Supply (to be used with MSRP priced codes only)
TT	Individualized service provided to more than one (1) member in same setting
TW	Secondary or back-up equipment
UB	Invoice cost
UE	Used Equipment

Actual acquisition costs are defined as the manufacturer's list price for the item less any standard trade discount applied to lower the actual cost to the provider, but excluding any time sensitive or otherwise conditional discounts available to the provider. Misrepresentation of actual acquisition costs could result in State or Federal, civil, or criminal sanctions.

Pricing for Supplies and DME

There are three (3) ways to determine the price for supplies and DME: the Fee Schedule, the Manufacturer's Suggested Retail Price (MSRP), and By Invoice.

Fee Schedule

Supplies and DME that are on the [Fee Schedule](#) have a maximum allowable reimbursement. These items are reimbursed at the lesser of submitted charges or the Fee Schedule amount.

If the cost of the supply or DME is less than the maximum allowable rate listed on the Fee Schedule, the provider must submit claim for the actual cost.

Manufacturer Suggested Retail Price (MSRP)

If there is no maximum purchase price listed on the Fee Schedule, the provider is reimbursed the current MSRP less the current percentage outlined in 10 CCR 2505-10, Section 8.590.7. The provider must keep a copy of the item invoice and documented MSRP.

The documented MSRP must include the name of the provider's employee that received and documented the MSRP, and the date the MSRP was received.

Member must be contacted prior to shipping to ensure member information is correct.

- Providers may not submit for reimbursement either state sales tax collection or shipping costs.
- Providers must add the "SC" (Medical Necessary Service or Supply (to be used with MSRP priced codes only) modifier when using the MSRP for pricing.
- Providers must attach a copy of the MSRP on all paper claims.
- Providers may not use MSRP pricing for procedure code A9901.

Billing for "By Invoice" Services

DME/Supply items that have no Fee Schedule rate and no Manufacturer Suggested Retail Price (MSRP) are reimbursed at the actual acquisition invoice cost plus the percentage amount outlined in 10 CCR 2505-10 Section 8.590.7.

Claims submitted By Invoice must be submitted with the UB modifier. Invoiced claims submitted with procedure code A9901 must be billed at the current rate per the actual acquisition cost of the products.

Procedure/HCPCS Codes Overview

The Colorado Department of Health Care Policy and Financing develops procedure codes that are approved by the Centers for Medicare & Medicaid Services (CMS). The codes are used for submitting claims for services provided to Colorado Medical Assistance Program members and represent services that may be provided by enrolled certified Colorado Medical Assistance Program providers.

The Healthcare Common Procedural Coding System (HCPCS) is divided into two (2) principal subsystems, referred to as level I and level II of the HCPCS. Level I of the HCPCS is comprised of CPT (Current Procedural Terminology), a numeric coding system maintained by the American Medical Association (AMA).

The CPT is a uniform coding system consisting of descriptive terms and identifying codes that are used primarily to identify medical services and procedures furnished by physicians and other health care professionals. Level II of the HCPCS is a standardized coding system that is used primarily to identify products, supplies, and services not included in the CPT codes, such as ambulance services, durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) when used outside a physician's office. Level II codes are also referred to as alpha-numeric codes because they consist of a single alphabetical letter followed by 4 numeric digits, while CPT codes are identified using 5 numeric digits.

Late Bill Override Date

For electronic claims, a delay reason code must be selected and a date must be noted in the "Claim Notes/LBOD" field.

Valid Delay Reason Codes

- 1 Proof of Eligibility Unknown or Unavailable
- 3 Authorization Delays
- 7 Third Party Processing Delay
- 8 Delay in Eligibility Determination
- 9 Original Claim Rejected or Denied Due to a Reason Unrelated to the Billing Limitation Rules
- 11 Other

The Late Bill Override Date (LBOD) allows providers to document compliance with timely filing requirements when the initial timely filing period has expired. Colorado Medical Assistance Program providers have 120 days from the date of service to submit their claim. For information on the 60-day resubmission rule for denied/rejected claims, please see the General Provider Information manual located in the Provider Services [Billing Manuals](#) section of the Department’s website.

Making false statements about timely filing compliance is a misrepresentation and falsification that, upon conviction, makes the individual who prepares the claim and the enrolled provider subject to fine and imprisonment under state and/or federal law.

Adjusting Paid Claims	<p>If the initial timely filing period has expired and a previously submitted claim that was filed within the original Colorado Medical Assistance Program timely filing period or the allowed 60 day follow-up period was paid and now needs to be adjusted, resulting in additional payment to the provider.</p> <p>Adjust the claim within 60 days of the claim payment. Retain all documents that prove compliance with timely filing requirements.</p> <p><i>Note: There is no time limit for providers to adjust paid claims that would result in repayment to the Colorado Medical Assistance Program.</i></p> <p>LBOD = the run date of the Colorado Medical Assistance Program Provider Claim Report showing the payment.</p>
Denied Paper Claims	<p>If the initial timely filing period has expired and a previously submitted paper claim that was filed within the original Colorado Medical Assistance Program timely filing period or the allowed 60 day follow-up period was denied.</p> <p>Correct the claim errors and refile within 60 days of the claim denial or rejection. Retain all documents that prove compliance with timely filing requirements.</p> <p>LBOD = the run date of the Colorado Medical Assistance Program Provider Claim Report showing the denial.</p>
Returned Paper Claims	<p>A previously submitted paper claim that was filed within the original Colorado Medical Assistance Program timely filing period or the allowed 60 day follow-up period was returned for additional information.</p> <p>Correct the claim errors and re-file within 60 days of the date stamped on the returned claim. Retain a copy of the returned claim that shows the receipt or return date stamped by the fiscal agent.</p> <p>LBOD = the stamped fiscal agent date on the returned claim.</p>
Rejected Electronic Claims	<p>An electronic claim that was previously entered within the original Colorado Medical Assistance Program timely filing period or the allowed 60 day follow-up period was rejected and information needed to submit the claim was not available to refile at the time of the rejection.</p> <p>Correct claim errors and refile within 60 days of the rejection.</p> <p>Maintain a printed copy of the rejection notice that identifies the claim and date of rejection.</p>

Billing Instruction Detail	Instructions
	<p>LBOD = the date shown on the claim rejection report.</p>
<p>Denied/Rejected Due to Member Eligibility</p>	<p>An electronic eligibility verification response processed during the original Colorado Medical Assistance Program timely filing period states that the individual was not eligible but were subsequently able to verify eligibility. Read also instructions for retroactive eligibility.</p> <p>File the claim within 60 days of the date of the rejected eligibility verification response. Retain a printed copy of the rejection notice that identifies the member and date of eligibility rejection.</p> <p>LBOD = the date shown on the eligibility rejection report.</p>
<p>Retroactive Member Eligibility</p>	<p>The claim is for services provided to an individual whose Colorado Medical Assistance Program eligibility was backdated or made retroactive.</p> <p>File the claim within 120 days of the date that the individual's eligibility information appeared on state eligibility files. Obtain and maintain a letter or form from the county departments of social services that:</p> <ul style="list-style-type: none"> Identifies the member by name States that eligibility was backdated or retroactive Identifies the date that eligibility was added to the state eligibility system. <p>LBOD = the date shown on the county letter that eligibility was added to or first appeared on the state eligibility system.</p>
<p>Delayed Notification of Eligibility</p>	<p>The provider was unable to determine that the member had Colorado Medical Assistance Program coverage until after the timely filing period expired.</p> <p>File the claim within 60 days of the date of notification that the individual had Colorado Medical Assistance Program coverage. Retain correspondence, phone logs, or a signed Delayed Eligibility Certification form (see Appendix H) that identifies the member, indicates the effort made to identify eligibility, and shows the date of eligibility notification. Claims must be filed within 365 days of the date of service. No exceptions are allowed.</p> <p>This extension is available only if the provider had no way of knowing that the individual had Colorado Medical Assistance Program coverage. Providers who render services in a hospital or nursing facility are expected to get benefit coverage information from the institution. The extension does not give additional time to obtain Colorado Medical Assistance Program billing information.</p> <p>If the provider has previously submitted claims for the member, it is improper to claim that eligibility notification was delayed.</p> <p>LBOD = the date the provider was advised the individual had Colorado Medical Assistance Program benefits.</p>

Billing Instruction Detail	Instructions
Electronic Medicare Crossover Claims	<p>An electronic claim is being submitted for Medicare crossover benefits within 120 days of the date of Medicare processing/ payment. (Note: On the paper claim form (only), the Medicare SPR/ERA date field documents crossover timely filing and completion of the LBOD is not required.)</p> <p>File the claim within 120 days of the Medicare processing/ payment date shown on the SPR/ERA. Retain the commercial insurance payment or denial notice that identifies the member, rendered services, and shows the payment or denial date. Claims must be filed within 365 days of the date of service. No exceptions are allowed. If the claim is nearing the 365-day limit and the commercial insurance company has not completed processing, file the claim, receive a denial or rejection, and continue filing in compliance with the 60-day rule until insurance processing information is available.</p> <p>LBOD = the date commercial insurance paid or denied.</p>
Correspondence LBOD Authorization	<p>The claim is being submitted in accordance with instructions (authorization) from the Colorado Medical Assistance Program for a 60 day filing extension for a specific member, claim, services, or circumstances.</p> <p>File the claim within 60 days of the date on the authorization letter. Retain the authorization letter.</p> <p>LBOD = the date on the authorization letter.</p>
Member Changes Providers during Obstetrical Care	<p>The claim is for obstetrical care where the member transferred to another provider for continuation of OB care. The prenatal visits must be billed using individual visit codes but the service dates are outside the initial timely filing period.</p> <p>File the claim within 60 days of the last OB visit. Maintain information in the medical record showing the date of the last prenatal visit and a notation that the member transferred to another provider for continuation of OB care.</p> <p>LBOD = the last date of OB care by the billing provider.</p>

Column Instructions for HCPCS Code Table

Code Column:

HCPCS codes consist of a letter followed by four (4) numbers. Read the entire entry to determine the benefit status of the item. Providers are instructed to submit the HCPCS code most closely describing the item being requested on the PAR form. The Colorado Medical Assistance Program reserves the right to amend the coding for any approved item.

Description Column:

A description of the item as provided by Centers for Medicare and Medicaid Services (CMS) is listed. When possible and appropriate, the description of the item includes a notation of the billing unit. For disposable supplies, one (1) billing unit represents one (1) item unless otherwise noted.

PAR Column:

This column is used to identify if prior authorization is required for the item identified and to identify which reviewing agency to send the PAR to for review.

Yes: PARs for these items are reviewed by the ColoradoPAR Program.

Con (Conditional): The item requires prior authorization under certain circumstances. See the comments section next to the item or the subheading description for an explanation of the circumstances.

None: The identified item does not require special authorization when provided to an eligible member.

Unit Limit Column:

Unit limits are displayed with the maximum unit allowable and the minimum time between requests. Some items may have special provisions for unit limits with more detail in the Comment Column.

This column is being updated on a continual basis, further updates will be made to complete this column. No changes are being made to unit limits; they are only being identified in an easily accessible column. Unit limits may be identified in the comment column until changes are made.

Comment Column:

The comment section outlines specific or special instructions as well as more detailed information on unit limits where applicable.

Comments expand on the description and identify any required special PAR or billing instructions. The notation "DELETED" means that the code is invalid effective the day following the date shown in the "COMMENTS" column. Newly added codes become effective on the date shown. For example, procedure codes deleted effective 12/31/11 can be used only for non-prior authorized services provided prior to 1/1/12 or on PARs approved prior to 1/1/12.

The following codes are pure CRT codes. Only qualified CRT suppliers may bill for these codes.

For the purpose of the below chart only, please note the following definitions:

New:

- Purchase of a chair or equipment type not previously owned.
- Replacement of equipment after the three year mark for pediatrics and five years for adults.

Mod (Modification):

- A change or alteration to a member owned piece of equipment. I.E. A different seating system to be placed on an existing base.

Repair:

- Repair or replacement of a part due to damage and/or normal wear and tear. Replacement item is a duplicate of the original.

Con:

- Specialty eval is only required when the member is switching from or adding to a standard drive control (Joystick, any type) and/or attendant control.
