Early and Periodic Screening Diagnostic and Treatment (EPSDT) Program

Providers must be enrolled as a Colorado Medical Assistance Program provider in order to:

- Treat a Colorado Medical Assistance Program member
- Submit claims for payment to the Colorado Medical Assistance Program

The Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit provides comprehensive and preventive health care services for children and youth ages 20 and under, who are enrolled in Medicaid. EPSDT is key to ensuring that children and youth receive appropriate preventive, dental, mental health, developmental and specialty services.

Early	Assessing and identifying problems early
Periodic	Checking children's health at periodic, age-appropriate intervals
Screening	Providing physical, mental, developmental, dental, hearing, vision, and other screening tests to detect potential problems
Diagnostic	Performing diagnostic tests to follow up when a risk is identified
Treatment	Control, correct or reduce health problems found

One of the goals of EPSDT is to establish a regular pattern of healthcare through routine health screenings, diagnostic, and treatment services.

All states are required to complete a report to the federal government on April 1 of each year as to the numbers of services received by the EPSDT eligible members. All states have a minimum requirement of 80% of the children and youth receiving at least one screening visit per year.

Providers should refer to the Code of Colorado Regulations, [Program Rules](#) (10 CCR 2505-10.8.280), for specific information when providing EPSDT care.

General Billing Information

National Provider Identifier (NPI)

The Health Insurance Portability and Accountability Act (HIPAA) requires that covered entities (i.e., health plans, health care clearinghouses, and those health care providers who transmit any health information electronically in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard) use NPIs in standard transactions.

Paper Claims

Electronic claims format shall be required unless hard copy claims submittals are specifically authorized by the Department of Health Care Policy and Financing (the Department). Requests may be sent to

Affiliated Computer Services (ACS), P.O. Box 90, Denver, CO 80201-0090. The following claims can be submitted on paper and processed for payment:

- Claims from providers who consistently submit 5 claims or fewer per month (requires approval)
- Claims that, by policy, require attachments
- Reconsideration claims

Paper claims do not require an NPI, but do require the Colorado Medical Assistance Program provider number. Electronically mandated claims submitted on paper are processed, denied, and marked with the message "Electronic Filing Required".

Electronic Claims

Instructions for completing and submitting electronic claims are available through the following:

- X12N Technical Report 3 (TR3) for the 837P, 837I, or 837D (<http://www.wpc-edi.com/>)
- Companion Guides for the 837P, 837I, or 837D in the Provider Services [Specifications](#) section of the Department’s Web site.
- Web Portal User Guide (via within the Web Portal)

The Colorado Medical Assistance Program collects electronic claim information interactively through the Colorado Medical Assistance Program Secure Web Portal (Web Portal) or via batch submission through a host system. For additional electronic information, please refer to the Medicaid Provider Information manual located on the Department’s website (Colorado.gov/hcpf) → For Our Providers → Provider Services → [Billing Manuals](#).

General Program Provisions

A comprehensive EPSDT Periodic Screening examination includes the following components:

- | | |
|--|--|
| <ul style="list-style-type: none"> ▪ Comprehensive health & developmental history ▪ Comprehensive unclothed physical examination ▪ Assessment of physical, emotional & developmental growth ▪ Assessment of mouth, oral cavity and teeth, including referral to a dentist ▪ Assessment of nutritional status ▪ Family planning services and adolescent maternity care ▪ Vision assessment | <ul style="list-style-type: none"> ▪ Immunizations <i>appropriate to age & health history</i> ▪ Laboratory tests (including lead blood level assessment appropriate to age & risk) ▪ Assessment of mental/behavioral health ▪ Hearing as sessment ▪ Health education (including anticipatory guidance) ▪ Treatment and referrals for any medically necessary further diagnosis and treatment |
|--|--|

Types of EPSDT Provider Visits

1) Periodic Screen

The periodic screen includes comprehensive health assessments that are performed soon after birth or as early as possible in a child’s life. It is repeated at prescribed intervals until the age of 20, as described in the AAP Bright Futures Periodicity Schedule.

2) Inter-Periodic Visit

An inter-periodic visit is any other healthcare visit the child may need, such as visits for an ear ache, fever or injury.

Outreach and Case Management – Healthy Communities Program

Each family or member is assigned to a Family Health Coordinator in their local area. The Family Health Coordinator’s services are a part of the member’s Medicaid benefit and offers support services, including the following:

- Ensures that members are informed of program benefits
- Assists child in accessing health care services within a reasonable time period
- Offers assistance in identifying participating Colorado Medical Assistance Program doctors, dentists, other medical specialists and care programs or Accountable Care Programs.
- Assists in making and reminds members of appointments, if requested
- Follows up on appointments that may have been missed, if requested by a provider
- Assists with connecting child with non-medical community resources

managed

Coordinate the following types of health care services wherever possible:

- Newborn or well-baby check-ups
- Day care or Head Start physicals
- Routine well child physical exams
- Dental Screenings
- Behavioral Health screenings
- Developmental screenings

Visit the [Healthy Communities](#) web page on the Department’s website to find a [Family Health Coordinator](#) in your area.

Diagnosis and Treatment

A presumptive diagnosis may be made at the time of screening, but it is usually necessary to advise the member of the need for further diagnosis and treatment. Necessary treatments may be rendered by the PCP or MCO practitioner or by referral to an authorized Colorado Medical Assistance Program specialist.

Services

EPSDT is made up of the following screening, diagnostic, and treatment services:

Screening Services

Comprehensive health and developmental history
Comprehensive unclothed physical exam
Appropriate immunizations (according to the Advisory Committee on Immunization Practices)
Laboratory tests (including lead toxicity testing)
Health Education (anticipatory guidance including child development, healthy lifestyles, and accident and disease prevention)

Dental Services

At a minimum, dental services include relief of pain and infections, restoration of teeth, and Maintenance of dental health, including examinations, cleanings and fluoride treatments.

Diagnostic Services

When a screening indicates the need for further evaluation, diagnostic services must be provided.

Hearing Services

At a minimum, diagnosis and treatment for defects in hearing, including hearing aids.

Vision Services

At a minimum, diagnosis and treatment for defects in vision, including eyeglasses.

Lead Screening

Lead screening is a requirement for all Medicaid eligible children at 12 and 24 months or between the ages of 36 and 72 months if not previously tested. Colorado has not received an exemption from this requirement from CMS, therefore all contracted providers are required to provide and report testing for lead at the appropriate physicals at 12 and 24 months and between 36 and 72 months if not previously tested.

Other Necessary Health Care Services

Additional health care services that are coverable under the Federal Medicaid program and found to be medically necessary to treat, correct or reduce illnesses and conditions discovered regardless of whether the service is covered in a state's Medicaid plan. It is the responsibility of states to determine medical necessity on a case-by-case basis (see medical necessity below for more information).

Treatment

Necessary health care services must be made available for treatment of all physical and mental illnesses or conditions discovered by any screening and diagnostic procedures.

Medical Necessity

All Medicaid coverable, medically necessary, services must be provided even if the service is not available under the State plan to other Medicaid eligibles. Benefits not listed are not considered to be a state plan benefit and therefore outside of EPSDT coverage and exceptions. No arbitrary limitations on services are allowed, e.g., one pair of eyeglasses or 10 physical therapy visits per year.

Colorado makes the final determination of medical necessity and it is determined on a case-by-case basis. Provider recommendations will be taken in to consideration, but are not the sole determining factor in coverage. Colorado determines which treatment it will cover among equally effective, available alternative treatments.

EPSDT Medical Necessity Does NOT include:

- Experimental or investigational treatments
- Services or items not generally accepted as effective; and/or not within the normal course and duration of treatment; and/or those without clinical guidelines
- Services for caregiver or providers convenience

Services for which Colorado has a waiver are also not considered to be state plan benefits, and therefore are not a benefit under EPSDT. Items such as respite, behavioral interventions, in-home support services, and home modifications are examples of waiver services.

To request services that a provider feels are medically necessary but are not currently covered by the state plan, a prior authorization request must be completed as well as a letter of medical necessity. Both should be sent to the authorizing agent listed in Appendix D located in the [Billing Manuals](#) section of the Department's website.

The provider will receive an initial denial of the benefit, but will then receive a subsequent approval or denial based on the EPSDT review.

For Children Receiving Services Through the Health Care Program for Children with Special Needs Eligible Clients

Developmental Screening

Colorado Medicaid enrolled children aged 0 – 4 (up to 59 months) following the 3 by 3 framework from the AAP. Three (3) screens per year for children aged 0 – 24 months. Colorado Medicaid covers developmental screening for children ages 0 – 4 (up to 59 months), using a standardized, validated developmental screening tool (i.e., PEDS, Ages and Stages, etc.) at the child's periodic visits. In the absence of established risk factors or parental or provider concerns, the AAP recommends developmental screens at the 9-, 18-, and 30-months.

Depression Screening

Colorado Medicaid enrolled individuals aged 11 and over. One (1) screen per year for clients aged 11 and older. mColorado Medicaid covers depression screening for individuals aged 11 and older, using a standardized, validated depression screening tool (i.e., PHQ-9, Edinburgh Postnatal Depression Scale, Columbia Depression Scale, Beck Depression Inventory, Kutcher Adolescent Depression Scale, etc.) at the client's periodic visits. The exact frequency of validated, standardized screening depends on both the concerns of the child's parents or adult client and also the provider as to whether routine surveillance suggests the client may be at risk for depression.

Postpartum Depression Screening

Providers may choose to screen postpartum clients for postpartum depression as part of the client's annual depression screen. When a provider is primarily seeing an infant for a well-child check, the provider may include postpartum screening of the Medicaid mother for depression as a separate service.

Austism Screening

Two (2) screens between the child's 18- and 24-month visit. Colorado Medicaid covers autism screening for children aged 18- and 24-months, using a standardized, validated autism screening tool (i.e., M-CHAT, etc.) at the child's periodic visits. When an autism screen identifies a child as being at risk for an Autism Spectrum Disorder, an ASD Diagnostic Evaluation should follow.

Dental Inspection

The mouth must be examined as part of the physical examination. Providers can provide services under the Cavity Free by Three program and bill Colorado Medicaid for appropriate and covered services when

they have been certified to do so. Please visit the [Cavity Free at Three](#) web page under Children's Dental on the Department's website.

Children ages one and older, or at the eruption of their first tooth, should be referred to a dentist twice a year for preventive care.

Laboratory Tests

As appropriate for age or medical necessity, perform the following screening tests:

- Anemia
- Tuberculosis
- Sickle-cell trait
- Diabetes
- Lead poisoning
- Other infectious conditions

Administer lab tests according to the *Recommendations for Preventive Pediatric Health Care Schedule*. The Colorado Medical Assistance Program provider is required to test all children for a blood lead level at 12 months **and** 24 months of age and at 36-72 months if age, if not previously tested.

Diagnosis and Follow-Up for Lead Poisoning

If a child is found to have blood lead levels equal to or greater than 10 ug/dL, the laboratory will report results back to the provider and to the Colorado Department of Public Health and Environment. For guidelines covering patient management and treatment, including follow-up blood tests and initiation of investigations to the source of lead where indicated, providers should contact the Colorado Department of Public Health and Environment (Lead Poisoning Prevention Program 1-800-886-7689, Press 1).

Screening Frequency

The State has adopted the American Academy of Pediatrics (AAP) Bright Futures periodicity schedule for physicians in rendering screening examinations.

Screening examinations rendered more frequently are subject to medical review.

Developmental

Colorado Medicaid enrolled children aged 0 – 4 (up to 59 months) following the 3 by 3 framework from the AAP. Three (3) screens per year for children aged 0 – 24 months.

Depression

Colorado Medicaid enrolled individuals aged 11 and over. One (1) screen per year for clients aged 11 and older.

Note: Colorado Medicaid recommends the use of PHQ-9, but other validated, standardized depression screening tools are also acceptable.

Autism

Colorado Medicaid enrolled children aged 18- and 24-months. Two (2) screens between the child's 18- and 24-month visit.

Benefits

Developmental, Depression, and Autism Screenings

Developmental

Colorado Medicaid covers developmental screening for children ages 0 – 4 (up to 59 months), using a standardized, validated developmental screening tool (i.e., PEDS, Ages and Stages, etc.) at the child's periodic visits. In the absence of established risk factors or parental or provider concerns, the AAP recommends developmental screens at the 9-,18-, and 30-months.

Depression

Colorado Medicaid covers depression screening for individuals aged 11 and older, using a standardized, validated depression screening tool (i.e., PHQ-9 (Department recommended), Edinburgh Postnatal Depression Scale, Columbia Depression Scale, Beck Depression Inventory, Kutcher Adolescent Depression Scale, etc.) at the client's periodic visits. The exact frequency of validated, standardized screening depends on both the concerns of the child's parents or adult client and also the provider as to whether routine surveillance suggests the client may be at risk for depression.

Autism

Colorado Medicaid covers autism screening for children aged 18- and 24-months, using a standardized, validated autism screening tool (i.e., M-CHAT, etc.) at the child's periodic visits. When an autism screen identifies a child as being at risk for an Autism Spectrum Disorder, an ASD Diagnostic Evaluation should follow.

Dental Benefits

A non-emergency oral examination, dental prophylaxis, and fluoride topical application once every six months are benefits of the EPSDT program. The Colorado Medical Assistance Program recommends regular periodic examinations by a dentist with eruption of the first tooth or at age one, and continuing every six (6) months or as recommended by a dentist. Referral from the PCP is **not** required for EPSDT dental services.

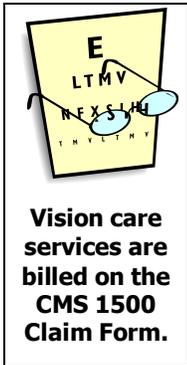

Orthodontia is available for children who have been diagnosed with a severely handicapping malocclusion.

Dentally necessary radiographs, restorations, endodontics, periodontics, prosthodontics and oral surgery are also benefits. Dental services are billed on the 2006 American Dental Association (ADA) claim form or the 837 D. Complete billing instructions for dental services are included in DentaQuest Provider Office Reference Manual (ORM) found under DentaQuest Resources section of DentaQuest's [website](#). Colorado Medicaid dental providers can also call DentaQuest's Provider Relations/Services at 1-855-225-1731 (for TTY assistance, please call AT&T's TTY line at 711).

Hearing Assisted Device Benefits

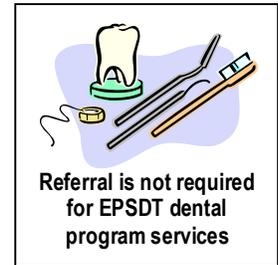

Audiological benefits include identification, diagnostic evaluation, and treatment for children with hearing impairments. Benefits include hearing aids and other assisted devices, auditory training in the use of hearing aids, therapy for children with hearing impairments, and family-focused home based early language intervention for children, (birth to three years of age), with hearing loss through the Colorado Home Intervention Program (CHIP).

Vision Care Benefits

Vision diagnostic and treatment services may be performed by an ophthalmologist or optometrist. Referral is **not** required for vision care. Single and multifocal vision lenses and frames, as well as repair or replacement of broken lenses or frames, are benefits of EPSDT and may be provided by an ophthalmologist, optometrist, or optician. Contact lenses are available in some medically necessary situations and require prior authorization.

Vision care services are billed on the CMS 1500 Health Insurance claim form or the 837 P. Complete billing instructions for vision services are included in the vision billing manual.

Billing Guidelines

EPSDT Billing

Providers submitting claims electronically must use the 837P.

Providers submitting claims on paper must use the EPSDT paper claim form.

The EPSDT claim form is used by primary care providers who bill fee-for-service for EPSDT periodic screens.

The Department tracks the EPSDT periodic screens by procedure and diagnosis codes appropriate for the screen. Other children’s health care services are billed on the CMS 1500, using national standard codes.

Providers must identify if a visit is a result of a referral from an EPSDT Screen

If a provider is seeing a child as a result of a referral from the EPSDT periodic screen for further diagnosis or treatment, the provider should enter a **“Yes” in Box # L** on the CMS 1500.

If the visit is a referral from an EPSDT periodic screen for further diagnosis and treatment, enter a **“Yes” in the service line** (Loop 2400, Segment SV1, Element SV111). It is important to identify these services as they are reported on the Annual EPSDT Participation Report (416) to the Centers for Medicare and Medicaid Services (CMS) along with the number of EPSDT periodic screens.

- Dental benefits are billed on the ADA claim form or the 837 D.
- Vision benefits are billed on the CMS 1500 claim form or 837 P.
- If the child is ill, services related to the illness should be billed on the CMS 1500 claim form. An appointment for an EPSDT screening should be made at a later date.
- Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs) complete the UB-04 claim form for EPSDT-rendered services. Refer to the FQHC/RHC Billing Manual for specific UB-04 billing instructions. FQHCs and RHCs use V72.0 to bill for the EPSDT Periodic Screen.

EPSDT benefits may include medically necessary covered benefits available for children enrolled in the Medical Assistance Program.

Procedure/HCPCS Codes Overview

The Department accepts procedure codes that are approved by the Centers for Medicare & Medicaid Services (CMS). The codes are used for submitting claims for services provided to Colorado Medical Assistance Program members and represent services that may be provided by enrolled certified Colorado Medical Assistance Program providers.

The Healthcare Common Procedural Coding System (HCPCS) is divided into two principal subsystems, referred to as level I and level II of the HCPCS. Level I of the HCPCS is comprised of Current Procedural Terminology (CPT), a numeric coding system maintained by the American Medical Association (AMA). The CPT is a uniform coding system consisting of descriptive terms and identifying codes that are used primarily to identify medical services and procedures furnished by physicians and other health care professionals.

Level II of the HCPCS is a standardized coding system that is used primarily to identify products, supplies, and services not included in the CPT codes, such as ambulance services and durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) when used outside a physician's office. Level II codes are also referred to as alpha-numeric codes because they consist of a single alphabetical letter followed by 4 numeric digits, while CPT codes are identified using 5 numeric digits.

HIPAA requires providers to comply with the coding guidelines of the AMA CPT Procedure Codes and the International Classification of Disease, Clinical Modification Diagnosis Codes. If there is no time designated in the official descriptor, the code represents one unit or session. Providers should regularly consult monthly bulletins in the Provider Services [Bulletins](#) section. To receive electronic provider bulletin notifications, an email address can be entered into the Web Portal in the *(MMIS) Provider Data Maintenance* area or by completing and submitting a publication preference form. Bulletins include updates on approved procedures codes as well as the maximum allowable units billed per procedure.

Late Bill Override Date

For electronic claims, a delay reason code must be selected and a date must be noted in the "Claim Notes/LBOD" field.

Valid Delay Reason Codes

- 1 Proof of Eligibility Unknown or Unavailable
- 3 Authorization Delays
- 7 Third Party Processing Delay
- 8 Delay in Eligibility Determination
- 9 Original Claim Rejected or Denied Due to a Reason Unrelated to the Billing Limitation Rules
- 11 Other

The Late Bill Override Date (LBOD) allows providers to document compliance with timely filing requirements when the initial timely filing period has expired. Colorado Medical Assistance Program providers have 120 days from the date of service to submit their claim. For information on the 60-day resubmission rule for denied/rejected claims, please see the General Provider Information manual in the Provider Services [Billing Manuals](#) section.

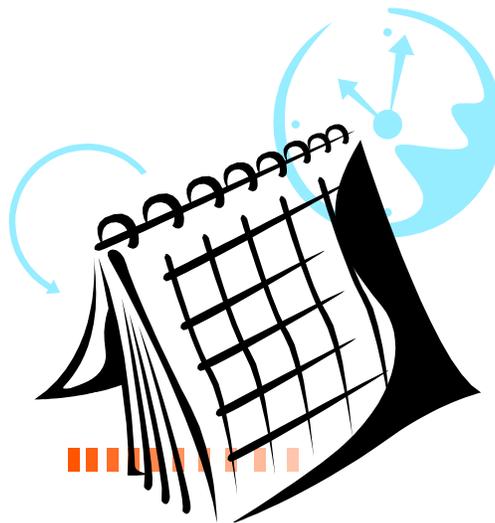

Making false statements about timely filing compliance is a misrepresentation and falsification that, upon conviction, makes the individual who prepares the claim and the enrolled provider subject to fine and imprisonment under state and/or federal law.
