Program Overview

Early Intervention Services (EI)

Early Intervention Services provides developmental supports and services to children birth to three (3) years of age who have either a significant developmental delay or a diagnosed condition that has a high probability of resulting in a developmental delay and are determined to be eligible for the program.

Targeted Case Management (TCM) Services are provided through the Community Centered Boards (CCB) for children actively enrolled in Early Intervention Services program and Health First Colorado (Colorado’s Medicaid Program).

Allowable Early Intervention Services

General Definition

Allowable Early Intervention Services are those services that are:

1. Designed to meet the developmental needs of an infant or toddler with a significant developmental delay or the needs of the family related to enhancing the infant’s or toddler’s development;
2. Selected in collaboration with the infant’s or toddler’s family;
3. Provided in conformity with an Individualized Family Service Plan (IFSP);
4. Based on appropriate evidence-based practices and related to functional outcomes;
5. Provided under public supervision to assure, through monitoring, that services are provided in accordance with these requirements;
6. Provided by qualified personnel as defined in Colorado’s Part C State Plan;
7. Provided in the natural environments of the infant or toddler and the family including the family’s home and/or community settings in which infants and toddlers without disabilities participate, unless otherwise justified on the IFSP; and
8. Provided in a culturally relevant manner, including the use of an interpreter if needed.

Role of Service Providers

All Early Intervention service providers are responsible for:

1. Consulting with parents, service coordinators, other service providers and representatives of other community agencies where the infant or toddler participates to ensure the effective provision and coordination of Early Intervention Services;
2. Billing Health First Colorado (Colorado’s Medicaid Program) appropriately for services rendered when the service is a benefit of Health First Colorado.
3. Completing all required Prior Authorization requests for Health First Colorado covered services in a timely manner;
4. Collaborating with service coordinators when recommending referrals for other professional services.
Allowable Early Intervention Providers
Community Centered Boards (CCBs) can become billing agents, if they choose, for EI service providers. The Department does not regulate who can act in the capacity of billing agent. To bill a fee-for-service code, the provider must be approved to provide that service.

Once the provider has provided a service, the billing agent can bill using the rendering provider's Health First Colorado NPI number in both the billing and rendering fields. The CCBs cannot pay additional money to the providers for the service that they are billing Health First Colorado for (e.g. if the reimbursement for a code is $60 from Health First Colorado and the CCB generally pays $75 to non-Health First Colorado providers, they can't pay the $15 difference to the provider). When a provider signs up to become a Health First Colorado provider, he/she signs a contract agreeing to accept the Health First Colorado payment for the services he/she bills. However, if the CCB wants to pay for additional services not covered by Health First Colorado, such as transportation to and/or from the member’s house that is up to each CCB and provider to decide between them.

Health First Colorado does not regulate who can fill out the provider application. CCB staff can choose to fill out the Health First Colorado application for providers. The provider is still responsible for reading the application and signing it.

Targeted Case Management (TCM)
Targeted Case Management is an optional Health First Colorado benefit for members who have been determined by a CCB to have a developmental disability and are actively enrolled in Early Intervention Services. The purpose of case management is:

✓ Facilitate Enrollment
✓ Service Plan Development
✓ Service Monitoring
✓ Coordination of Services/Benefits which include but is not limited to: Educational; Mental Health; Emotional; Social; Medical
✓ Ensure Non Duplication of Services

These activities include, but are not limited to:

• Locating, coordinating, and monitoring needed developmental disabilities services;
• Coordinating with other non-developmental disabilities funded services to ensure non-duplication of services; and
• Monitoring the effective and efficient provision of services across multiple funding sources.

Activities will not:

✓ Restrict members to a limited provider set. Members may choose any willing Health First Colorado provider for Health First Colorado services.
✓ Limit case management services provided in a manner consistent with the member’s best interest.
✓ Be used to restrict a member’s access to other services.
✓ Compel members to receive case management services.
✓ Be used as a reason for case managers to deny other State Plan services.

**Billable Activities**

**Comprehensive Assessment and Periodic Reassessment**
- Determine need for: Medical, Educational, Social, or other EI Services

**Service Plan Development** based on information collected through assessment
- Specifies goals for meeting all service needs
- Activities to ensure member participation
- Work with individual and others to develop goals

**Service and Support Coordination**
- Coordination of the services being provided in the Service Plan to ensure continuity of service provision
- Help individuals obtain needed services and activities and link them to the appropriate provider

**Activity** TCM activity that is being performed
- Multiple related activities or activities performed within a single day should be entered into a single log note
- Must be a billable activity
- Type of contact can be Direct or Indirect, however, length of activity must be at least 7.5 minutes in order to bill one unit. Voice mails left or received or emails sent and received are not an acceptable way to bill for one unit.

**Non-Reimbursable Targeted Case Management Services**
Activities that may be a service coordination responsibility, but are not reimbursed as TCM services are those activities either paid through the “Early Intervention Contract,” personnel costs, indirect costs, a service to be paid by third party or activities that are built into the rate structure for TCM services. The list below is not exhaustive:

- Intake and initial eligibility determination for the EI Colorado Program;
- Preparation for and participation in the dispute resolution processes in accordance with Federal Part C Regulations of the IDEA (34 C.F.R. Part 303) procedural safeguards;
- Assessment costs for determining the individual’s need for a physical or psychological examination or evaluation;
- Payment for the costs of the administration of other services or programs to which a recipient is referred (e.g. educational services), general administrative programs of the Health First Colorado program;
- The provision of any medical treatment or service;
- Service coordination staff meetings not related to individual child and family reviews;
- Completing time sheets or billing documents; billing Health First Colorado for services which are included in the cost of doing normal business;
- Discharge planning from an institution or hospital;
- Administrative activities such as eligibility determination, screening, intake outreach and utilization review;
• Care coordination or case management activities covered by Health First Colorado in the ACC and Healthy Communities programs;
• Formal policy advocacy and developing new provider resources;
• Service coordination training and personnel development;
• Prior authorization of services;
• Recreational events provided by the Broker when no service coordination activity is provided;
• Fund raising activities for the Broker.
• Voice mail messages (should be combined together with other approved activities to form one note);
• Multiple case managers or supervisors in a single meeting, only one person can bill for the meeting.
• Supervisors cannot bill for TCM time, only a service coordinator can bill for TCM services

Other Health First Colorado Covered Services

Other services which can be billed to Health First Colorado (Colorado’s Medicaid Program) include, but are not limited to:

✓ Occupational Therapies
✓ Physical Therapies
✓ Speech Therapies
✓ Assistive Technology
✓ Audiology or hearing services
✓ Developmental Screenings, including but not limited to: the M-CHAT and Ages and Stages

These Health First Colorado covered services should always be billed to Health First Colorado by a contracted Health First Colorado provider. Any Health First Colorado covered services must be billed prior to accessing CORE Early Intervention dollars for the same services. Please visit our website at www.colorado.gov/pacific/hcpf/billing-manuals for the billing instructions for these and other covered services.

Natural Environments

Part C of IDEA requires "to the maximum extent appropriate to the needs of the child, early intervention services must be provided in natural environments, including the home and community settings in which children without disabilities participate." (34 CFR §303.12(b))

By definition, natural environments mean "settings that are natural or normal for the child's age peers who have no disabilities." (34 CFR §303.18)

The exception to the rule reads "the provision of early intervention services for any infant or toddler with a disability occurs in a setting other than a natural environment that is most appropriate, as determined by the parent and the individualized family service plan team, only
when early intervention cannot be achieved satisfactorily for the infant or toddler in a natural environment."

The provision of early intervention services taking place in natural environments is not just a guiding principle or suggestion, it is a legal requirement.

Claim Submission

Paper Claims

Electronic claims format shall be required unless hard copy claims submittals are specifically authorized by the Department. Requests may be sent to the Department’s fiscal agent, DXC Technology (DXC), P.O. Box 30, Denver, CO 80202-0030. The following claims can be submitted on paper and processed for payment:

- Claims from providers who consistently submit 5 claims or fewer per month (requires approval),
- Claims that, by policy, require attachments, or
- Reconsideration claims.

For more detailed CMS 1500 billing instructions, please refer to the CMS 1500 General Billing Information manual in the Provider Services Billing Manuals section.

Electronic Claims

Instructions for completing and submitting electronic claims are available through the 837 Professional (837P) Web Portal User guide via the Web Portal and also on the Department’s Health First Colorado Web Portal page.

Electronically mandated claims submitted on paper are processed, denied, and marked with the message “Electronic Filing Required.”

The Special Program Indicator (SPI) must be completed on claims submitted electronically. Claims submitted electronically and on paper are identified by using the specific national modifiers along with the procedure code.

The appropriate procedure codes and modifiers for each HCBS waiver are noted throughout this manual. When the services are approved, the claim may be submitted to the Department’s fiscal agent. For more detailed billing instructions, please refer to the CMS 1500 General Billing Information in the Provider Services Billing Manuals section.

Procedure/HCPCS Codes Overview

The Department develops procedure codes that are approved by the Centers for Medicare & Medicaid Services (CMS). The codes are used to submit claims for services provided to Health First Colorado members. The procedure codes represent services that may be provided by enrolled certified Health First Colorado providers.
The Healthcare Common Procedural Coding System (HCPCS) is divided into two principal subsystems, referred to as level I and level II of the HCPCS. Level I of the HCPCS is comprised of CPT (Current Procedural Terminology), a numeric coding system maintained by the American Medical Association (AMA).

The CPT is a uniform coding system consisting of descriptive terms and identifying codes that are used primarily to identify medical services and procedures furnished by physicians and other health care professionals. Level II of the HCPCS is a standardized coding system that is used primarily to identify products, supplies, and services not included in the CPT codes. These include ambulance services and durable medical equipment, prosthetics, orthotics, and supplies (DME/Supplies) when used outside a physician's office. Level II codes are also referred to as alpha-numeric codes because they consist of a single alphabetical letter followed by 4 numeric digits. CPT codes are identified using 5 numeric digits.

### Early Intervention Procedure Code Table

Providers may bill procedure codes for Early Intervention Services as follows:

*It is important to remember that State General Funds and Federal Part C Funds can be used for the reimbursement of provider travel time when billing Health First Colorado. Generally provider's travel time is included in their negotiated hourly rate, however, in situations where providers are being asked to travel significant distances the Community Centered Board may decide to reimburse this cost to providers. This would be considered a related cost aligned with the service.*

| **19G. Charges** | 7 digits: Currency 99999.99 | Required  
Enter the usual and customary charge for the service represented by the procedure code on the detail line.  
Some CPT procedure codes are grouped with other related CPT procedure codes. When more than one procedure from the same group is billed, special multiple pricing rules apply.  
The base procedure is the procedure with the highest allowable amount. The base code is used to determine the allowable amounts for additional CPT surgical procedures when more than one procedure from the same grouping is performed.  
Submitted charges cannot be more than charges made to non-Health First Colorado covered individuals for the same service.  
Do not deduct Health First Colorado co-payment or commercial insurance payments from usual and customary charges. |
| **19H. Days or Units** | 4 digits | Required  
Enter the number of services provided for each procedure code.  
Enter whole numbers only.  
Do not enter fractions or decimals.  
See special instructions for Anesthesia and Psychiatric services. |
| **19I. Copay**   | 1 digit | Conditional  
Complete if co-payment is required of this client for this service. Enter one of the following codes:  
1-Refused to pay co-payment  
2-Paid co-payment  
3- Co-payment not requested |

   f. BIRTH DATE:
Timely Filing

The Health First Colorado allows providers to document compliance with timely filing requirements when the initial timely filing period has expired. Health First Colorado providers have 120 days from the date of service to submit their claim. For information on the 60-day resubmission rule for denied/rejected claims, please see the General Provider Information manual in the Provider Services Billing Manuals section.

Making false statements about timely filing compliance is a misrepresentation and falsification that, upon conviction, makes the individual who prepares the claim and the enrolled provider subject to fine and imprisonment under state and/or federal law.
