Pharmacy Requirements and Benefits

This manual explains many of the Department of Health Care Policy and Financing's (Department) policies regarding billing, provider responsibilities and Colorado Medical Assistance Program benefits. Providers should also consult the [Code of Colorado Regulations](#) (10 C.C.R. 2505-10 Section 8.100) for further guidance regarding benefits and billing requirements.

1990 OBRA Rebate Program

Federal regulation requires that drug manufacturers sign a national rebate agreement with the Centers for Medicaid and Medicare Services (CMS) to participate in the state Medical Assistance Program. Drugs produced by companies that have signed a rebate agreement (participating companies) are generally a Colorado Medical Assistance Program benefit but may be subject to restrictions. In addition, some products are excluded from coverage and are listed in the Restricted Products section. The Medical Assistance Program does not provide reimbursement for products by manufacturers that have not signed a rebate agreement unless the Department has made a determination that the availability of the drug is essential, such drug has been given 1-A rating by the Food and Drug Administration (FDA), and prior authorized.

Prior Authorization Request (PAR) Process

Drugs that are considered regular Colorado Medical Assistance Program benefits do not require PAR. Certain restricted drugs require prior authorization before they are covered as a benefit of the Medical Assistance Program.

The procedure to request a PAR and the medications that require a PAR are outlined in Appendix P- Prior Authorization Procedures and Criteria located in the Pharmacy Prior Authorization Policies section of the Department's website (colorado.gov/hcpf).

Prior authorization requests are reviewed by the Department or the Department's fiscal agent, Xerox State Healthcare. All pharmacy PARs must be telephoned and/or faxed by the prescribing physician or physician's agent to the Prescription Drug Card System (PDCS) Pharmacy Support numbers identified in Appendix P. Notification of PAR approval or denial is sent to each of the following parties:

- Requesting physician
- Proposed rendering provider (if identified on the PAR)
- Member

In addition to stating whether the PAR has been approved or denied, the notification letter identifies the member's appeal rights. Only members have the right to appeal a PAR decision.

If additional information is requested in order to process the PAR, the physician should provide the information by phone or fax.

Approval of a PAR does not guarantee payment. Prior Authorization Requests only assures that the approved service is medically necessary and considered to be a benefit of the Colorado Medical Assistance Program. All claims, including those for prior authorized services, must meet claim submission requirements before payment can be made. Some claim submission requirements include: timely filing, eligibility requirements, pursuit of third party resources and required attachments included. **A PAR approval does not override any of the claim submission requirements.**

Medications Requiring a PAR

- Certain restricted drugs
- Non-preferred agents subject to the Preferred Drug List (PDL)
- Over-the-counter drugs that are not a regular Colorado Medical Assistance Program benefit
- Some Home Intravenous (IV) solutions
- Total Parenteral Nutrition (TPN) therapy and drugs

Guidelines Used by the Department for Determining PAR Criteria

In determining what drugs should be subject to prior authorization, the Department applies the following criteria:

- Significance of impact on the health of the Colorado Medical Assistance Program population or costs to the Colorado Medical Assistance Program
- Required monitoring of prescribing protocols to protect both the long-term efficacy of the drug and the public health
- Potential for, or a history of, drug diversion and other illegal utilization
- Appearance of the Colorado Medical Assistance Program usage in amounts inconsistent with non-medical assistance program usage patterns, after adjusting for population characteristics
- Clinical efficacy compared to other drugs in that class of medications
- Availability of more cost effective comparable alternatives
- Procedures where inappropriate utilization has been reported in medical literature
- Performing auditing services with constant review on drug utilization

Generic Mandate

Most brand-name drugs with a generic therapeutic equivalent are not covered by the Colorado Medical Assistance Program.

Members can receive a brand name drug **without** a PAR if:

1. Only a brand name drug is manufactured.
2. A generic drug is not therapeutically equivalent to the brand name drug.
3. The Department has determined the final cost of the brand name drug is less expensive.
4. The drug is for the treatment of:
 - a. Biologically based mental illness as defined in C.R.S 10-16-104 (5.5);
 - b. Treatment of cancer;
 - c. Treatment of epilepsy; or
 - d. Treatment of Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS).

Members may receive a brand name drug **with** a PAR if:

1. A member has tried the generic equivalent but is unable to continue treatment on the generic drug.
2. The physician is of an opinion that a transition to the generic equivalent of a brand-name drug would be unacceptably disruptive to the patient's stabilized drug regimen.

The [Prior Authorization Form](#) is available on the Department's website→For Our Providers→Provider Services→[Forms](#)→Pharmacy.

Dispensing Requirements

Refill Too Soon Policy

For DEA Schedule 2 through 5 drugs, 85% of the days' supply of the last fill must lapse before a drug can be filled again. For non-scheduled drugs, 75% of the days' supply of the last fill must lapse before a drug can be filled again. If the appropriate numbers of days have not lapsed, the claim will be denied as a refill-too-soon unless there has been a change in the dosing. If a Medicaid member enters or leaves a nursing facility, the member may require a refill-too-soon override in order to receive their drugs. A PAR must be submitted by contacting the PA Helpdesk at 1-800-365-4944.

Tamper Resistant Prescription Pads

All Medicaid providers are required to use tamper-resistant prescription pads for written prescriptions. This requirement stems from the Social Security Act, 42 U.S.C. 1396b(i)(23), which lists three (3) different characteristics to be integrated into the manufacture of prescription pads. Prescriptions must be written on tamper-resistant prescription pads that meet all three of the stated characteristics. More information about Tamper-Resistant Prescription Pads/Paper requirements and features can be found in the Pharmacy section of the Department's website.

Compounded Prescriptions

A compounded prescription (a prescription where two (2) or more ingredients are combined to achieve a desired therapeutic effect) must be submitted on the same claim. A PAR is only necessary if an ingredient in the compound is subject to prior authorization. Pharmacies may use the number 8 in field 420-DK instead of obtaining a PA for non-covered ingredients to allow the claim to pay for the ingredients that are considered a covered benefit. The Colorado Medical Assistance Program does not pay a compounding fee.

Partial Fills and/or Prescription Splitting

Prescriptions cannot be dispensed in quantities less than the physician ordered unless the quantity ordered is more than a 100-day supply for maintenance medications and 30-day supply for non-maintenance medications. Partial fills are not allowed.

Emergency Three-Day Supply

In an emergency, when a PAR cannot be obtained in time to fill the prescription, pharmacies may dispense a 72-hour supply (3 days) of covered outpatient prescription drugs to an eligible member by calling the Department's PA Helpdesk for approval. Refer to Appendix P in the [Billing Manuals](#) section of the Department's website for the PA Helpdesk phone number. An emergency situation is any condition that is life threatening or requires immediate medical intervention.

Lost/Stolen/Damaged/Vacation Prescriptions

The Department does not pay for early refills when needed for a vacation supply.

The Colorado Medical Assistance Program will cover lost, stolen, or damaged medications once per lifetime for each member. Stolen prescriptions will require a copy of the police report to be submitted to the Department before approval will be granted. The replacement request and verification must be submitted to the Department within 60 days of the last refill of the medication.

Counseling

A pharmacist or pharmacist designee shall offer counseling regarding the drug therapy to each Medicaid patient with a new prescription. The offer to counsel shall be face-to-face communication whenever practical or by telephone. A pharmacist shall not be required to counsel a patient or caregiver when the patient or caregiver refuses such consultation. The pharmacist shall retain signatures from Medicaid members indicating that counseling was offered.

Override Codes

Prior Authorization Type Code 1 – Use for emergency only. This code is no longer allowed to override a PAR requirement. Please see the current policy for processing an emergency three-day supply above.

Prior Authorization Type Code 2 – Refill too soon. This code is no longer an override for the refill too soon edit. If a member has a change in dosage, the point of sale system will ignore the refill too soon edit. If a member is going into or out of a nursing home and is in need of medication, the pharmacy must request an authorization from the PA Helpdesk.

Prior Authorization Type Code 4 – Copay exemption for pregnant/postpartum members. This code can only be used for female members who are pregnant or 60 days postpartum to exempt the member from co-payments.

DAW 1 – Prescriber requests brand. This code is required for brand name products that have a generic equivalent to override FUL reimbursement. A prior authorization may also be necessary if the drug is not excluded from the generic mandate.

Co-payment Exclusions

Applicable co-payment is automatically deducted from the provider's payment during claims processing. Providers can collect co-payment from the member at the time of service or establish other payment methods. Services cannot be withheld if the member is unable to pay the co-payment.

The following categories of members are exempt from co-payment:

- Members who are age 18 and younger
- Members residing in a nursing facility
- All services to women in the maternity cycle. The maternity cycle is the time period during the pregnancy and sixty days post-partum. Pharmacies need to use a Prior Authorization Type Code 4 code to waive the copayment for women in the maternity cycle.

Reversals

If the member does not pick up the prescription from the pharmacy within 14 calendar days, the prescription must be reversed on the 15th calendar day. The pharmacy must retain a record of the reversal on file in the pharmacy for audit purposes. Pharmacies that have an electronic tracking system shall review prescriptions in will-call status on a daily basis and enter a reversal of prescriptions not picked up within ten (10) days of billing. In no case shall prescriptions be kept in will-call status for more than 14 days.

Retention of Records

Source documents and source records used to create pharmacy claims shall be maintained in such a way that all electronic media claims can be readily associated and identified. These source documents, in addition to any work papers and records used to create electronic media claims, shall be retained by the provider for six (6) years and shall be made readily available and produced upon request of the

Secretary of the Department of Health and Human Services, the Department, and the Medicaid Fraud Control Unit and their authorized agents.

Mail Order

Qualifying Medicaid fee-for-service members may receive their outpatient maintenance medications from mail order pharmacies.

In order to qualify, a Medicaid member must have:

1. A physical hardship that prohibits him or her from obtaining their maintenance medications from a local pharmacy, **or**
2. Third party insurance that allows the use of a mail order pharmacy to obtain their maintenance medications.

A member or the member's physician must complete and submit an enrollment form to the Department that attests the member meets one of the qualifying criteria.

If a mail order pharmacy submits a pharmacy claim for a member that has not enrolled for the mail order benefit, the claim will be denied. The National Council for Prescriptions Drug Program (NCPDP) edit that will appear at the point-of-sale is an 85, with text indicating that the claim did not process. This denial will appear as edit PB85 on the Provider Claim Report (PCR), with information indicating the claim did not process.

Out-of-state mail order pharmacies are permitted to enroll as Medicaid providers but may only mail maintenance medications to members who have applied for the mail order pharmacy benefit.

Local pharmacies, which are not mail order pharmacies, may continue to occasionally mail any type of outpatient medication to any fee-for-service Medicaid members without the members having to enroll for the mail order pharmacy benefit.

Restricted Products

The Colorado Medical Assistance Program restricts or excludes coverage for some drug categories. More information may be obtained in Appendix P in the [Billing Manuals](#) section of the Department’s website.

Restricted products by participating companies are covered as follows:

- None* *No products in the category are Medical Assistance Program benefits.*
- Limited* *Prior authorization requests for some products may be approved based on medical necessity.*
- All* *All products in this category are regular Medical Assistance Program benefits.*

Category	Benefits
Anorexia (weight loss)	None
Weight gain	Limited
Cosmetic purposes or hair growth	None
Cough and cold *	Limited
DESI drugs **	None
Non-rebateable products	None
Fertility	None
Non-prescription drugs	Aspirin, Insulin; others Limited
Prenatal vitamins	All for females. None for males.
Other vitamins	Limited

Category	Benefits

** Cough and cold products: Cough and cold products include combinations of narcotic and non-narcotic cough suppressants, expectorants and/or decongestants. Single agent antihistamines are not considered to be cough and cold products and are regular Medical Assistance Program benefits.*

*** DESI drugs: DESI drugs are products that are declared "less than effective" by the FDA and are not a benefit of the Medical Assistance program.*

Exclusions

The following are not benefits of the Colorado Medical Assistance Program:

- DESI drugs and any drug if by its generic makeup and route of administration, it is identical, related, or similar to a less than effective drug identified by the FDA
- Drugs classified by the U.S.D.H.H.S. FDA as "investigational" or "experimental"
- Dietary needs or food supplements (see Appendix Y for a list)
- Medicare Part D drugs for Part D eligible members
- Drugs manufactured by pharmaceutical companies not participating in the Colorado Medical Assistance Program
- Fertility drugs
- IV equipment (for example, Venopaks dispensed without the IV solutions). Nursing facilities must furnish IV equipment for their patients
- Personal care items such as mouth wash, deodorants, talcum powder, bath powder, soap (of any kind), dentifrices, etc.
- Spirituous liquors of any kind
- Erectile dysfunction drugs

The following are not **pharmacy** benefits of the Colorado Medical Assistance Program:

- Drugs administered in physician’s office; these must be billed by the physician as a medical benefit using a CMS 1500 Claim Form or through the Colorado Medical Assistance Program Web Portal ([Web Portal](#))
- Drugs administered in clinics; these must be billed by the clinic using a CMS 1500 claim form or through the Web Portal
- Drugs administered in a dialysis unit are part of the dialysis fee or billed using a CMS 1500 claim form or through the Web Portal
- Drugs administered in the hospital are part of the hospital fee
- Durable Medical Equipment (DME); these must be billed as a medical benefit using a CMS 1500 claim form or through the Web Portal

Pharmacy Helpdesk

The Department's fiscal agent provides a support Helpdesk. The Helpdesk is available to answer provider claim submission and basic drug coverage questions (refer to PDCS Pharmacy Support numbers found on the Department's website→For Our Providers→Provider Services→[Billing Manuals](#)→Appendices→Appendix B.

The Helpdesk is available 24 hours a day seven days a week.

Billing Information

The Colorado Medical Assistance Program uses the National Council on Prescription Drug Programs (NCPDP) electronic format and the Pharmacy Claim Form (PCF) to submit prescription drug claims. Both electronic and paper claims are processed by the PDCS. The PDCS provides claim, provider, eligibility, and prior authorization request interfaces with the Medicaid Management Information System (MMIS). All electronic claims must be submitted through a pharmacy switch vendor. Claims that cannot be submitted through the vendor must be submitted on paper. Please refer to the specific rules and requirements regarding electronic and paper claims below.

Timely Filing Requirements

Pharmacy claims must be submitted electronically and within the timely filing period, with few exceptions. Timely filing for electronic and paper claim submission is 120 days from the date of service.

Pharmacies should retrieve their PCR via the File and Report Service (FRS) through the [Web Portal](#). Claims that do not result in the Colorado Medical Assistance Program authorizing reimbursement for services rendered may be resubmitted. If a claim is denied, the pharmacy should follow the procedure set forth below for **rebilling denied claims**. If a resolution is not reached, a pharmacy can **ask for reconsideration** from the Department's fiscal agent. If the reconsideration is denied, the final option is to **appeal the reconsideration**.

Rebilling Denied Claims

Pharmacies may electronically rebill denied claims when the claim submission is within 120 days of the date of service. Claims that are older than 120 days are still considered timely if received within 60 days of the last denial. Pharmacies should continue to rebill until a final resolution has been reached. Pharmacies must keep records of all claim submissions, denials, and related documentation until final resolution of the claim.

Copies of all forms necessary for submitting claims are also available on the Pharmacy Billing Procedures and Forms web page of the Department's website. Instructions on how to complete the PCF are available in this manual. All necessary forms should be submitted to the Department's fiscal agent at:

Claims and PARs Submission

P.O. Box 30
Denver, CO 80201-0090

There are four (4) exceptions to the 120-day rule: Delayed Processing by Third Party Payers, Retroactive Member Eligibility, Delayed Notification to the Pharmacy of Eligibility and Extenuating Circumstances. Each of these exceptions is detailed below along with the specific instructions for submitting claims.

Delayed Processing by Third Party Payers

The Colorado Medical Assistance Program is the payer of last resort. When timely filing expires due to delays in receiving third party payment or denial documentation, the Department's fiscal agent is authorized to consider the claim as timely if received within 60 days from the date of the third party

payment or denial **or** within 365 days of the date of service, whichever occurs first. Pharmacies must complete third party information on the PCF and submit documentation from the third party payer of payment or lack of payment.

Retroactive Member Eligibility

If the timely filing period expires due to a delayed or back-dated member eligibility determination, the claim is considered timely if received within 120 days of the date that the member appears on state eligibility files.

Pharmacies can submit these claims electronically or by paper. If a pharmacy chooses to submit these claims by paper, complete a PCF and attach the Retroactive Backdate Letter from the county to each claim to verify the member's eligibility.

Pharmacies may submit claims electronically by obtaining a PAR through the PA Helpdesk. The pharmacy must fax the Retroactive Eligibility Letter from the county to the PA Helpdesk at 1-888-772-9696. The pharmacy should receive a confirmation fax from the PA Helpdesk within 24 hours. If a confirmation is not received within 24 hours, the pharmacy should call the PA Helpdesk at 1-800-365-4944. Once the confirmation fax is received, the pharmacy has 120 days from the date the member was granted backdate eligibility to electronically submit claims from the date of eligibility.

Delayed notification to the pharmacy of eligibility

Pharmacies are expected to take appropriate and reasonable action to identify Colorado Medical Assistance Program eligibility in a timely manner. If a pharmacy is made aware of eligibility after 120 days from the date of service, the pharmacy can submit the PCF paper claim form along with [Certification & Request for Timely Filing Extension Delayed Eligibly Notification](#). This form is specifically for the requests of a timely filing extension caused by delayed eligibility notification. Because pharmacies must attach a completed Certification & Request for Timely Filing Extension Delayed Eligibly Notification form to each claim, these claims must be submitted by paper. The Certification & Request for Timely Filing Extension Delayed Eligibly Notification form can be found in the [Forms](#) section of the Department's website.

Extenuating circumstances

Requests for timely filing waivers for extenuating circumstances must be made in writing and must contain a detailed description of the circumstance that was beyond the control of the pharmacy. Exceptions are granted only when the pharmacy is able to document that appropriate action was taken to meet filing requirements, and that the pharmacy was prevented from filing as the result of extenuating unforeseen and uncontrollable circumstances. Pharmacy employee negligence, employer failure to provide sufficient, well-trained employees, or failure to properly monitor the activities of employees and agents (e.g., billing services) are not considered extenuating circumstances beyond the pharmacy provider's control. The detailed description of the extenuating circumstances must be attached to the PCF and mailed to the Department's fiscal agent.

Request for Reconsideration

When a pharmacy has exhausted all authorized rebilling procedures and has not been paid for a claim, the pharmacy may submit a Request for Reconsideration to the Department's fiscal agent.

We recommend that pharmacies contact the Department's fiscal agent provider services at 1-800-237-0757 before submitting a request for reconsideration.

Requests for Reconsideration must be filed in writing with the Department's fiscal agent within 60 days of the most recent claim or prior reconsideration denial.

Copies of all PCRs, electronic claim rejections, and/or correspondence documenting compliance with timely filing and 60-day rule requirements must be submitted with the Request for Reconsideration. A Request for Reconsideration will display on the PCR as a paid or denied claim without specifying that it is a claim for reconsideration.

An additional request for reconsideration may be submitted within 60 days of the reconsideration denial if information can be corrected or if additional supporting information is available. The resubmitted request must be completed in the same manner as an original reconsideration request.

The Request for Reconsideration Form and instructions are available in the Provider Services [Forms](#) section of the Department website.

Appealing Reconsideration Denials

If a pharmacy disagrees with the final decision of the Department's fiscal agent, the pharmacy may file an appeal with the Office of Administrative Courts.

Representation by an attorney is usually required at administrative hearings. Appeals to the Office of Administrative Courts must be filed in writing within 30 days from the mailing date of the reconsideration denial. Appeals may be sent to:

Office of Administrative Courts
1525 Sherman Street – 4th Floor
Denver, CO 80203

Paper Claim Submission Requirements

With few exceptions, providers are required to submit claims electronically. Electronically mandated claims submitted on paper are processed, denied, and marked with the message "Electronic Filing Required".

The following claims can be submitted on paper and processed for payment:

- Providers who consistently submit five (5) or fewer claims per month
- Claims that are more than 120 days from the date of service that require special attachments
- Reconsideration claims

Providers can submit only one (1) claim per submission on the PCF; however, compound claims can be submitted. Providers must submit accurate information. The use of inaccurate or false information can result in the reversal of claims.

The PCF should be submitted to the Department's fiscal agent at:

Claims and PARs Submission

P.O. Box 30
Denver, CO 80201-0090.

Instructions for Completing the Pharmacy Claim Form

Below are the completion instructions for the Colorado Pharmacy Claim Form (PCF-2) for Pharmacy Providers. The form is one-sided and requires an authorized signature. Providers must follow the instructions below and may only submit one (prescription) per claim. The claim may be a multi-line compound claim. If there is more than a single payer a D.0 electronic transaction must be submitted

*** **Please note:** The format for entering a date is different than the date format in the POS system

Electronic Claim Submission Requirements

Interactive claim submission is a real-time exchange of information between the provider and the Colorado Medical Assistance Program. The provider creates interactive claims one at a time and transmits them by toll-free telephone through a switch company to the Colorado Department's fiscal agent claims processor. The Department's fiscal agent claims processor reviews the claim and immediately returns a status of paid or denied for each transaction to the provider's personal computer. If the claim is denied, the Department's fiscal agent claims processor sends one or more denial reason(s) that identify the problem(s).

Interactive claim submission must comply with Colorado D.0 Requirements. Providers must submit accurate information. The use of inaccurate or false information can result in the reversal of claims.

- An optional data element means that the user should be prompted for the field but does not have to enter a value.
- Drug Utilization Review (DUR) information, if applicable, will appear in the message text of the response.
- Electronic claim submissions must meet timely filing requirements.

D.0 General Information

The following are the Payer Sheets for D.0 Effective January 1, 2012, pharmacy transactions must meet D.0 requirements. Pharmacies must code their systems for Colorado D.0 transactions using the information provided below.
