

## **COLORADO/NEBRASKA COMMUTER CATTLE AGREEMENT**

The animals being moved must be accompanied by a Certificate of Veterinary Inspection (CVI) issued prior to movement and a copy of this Commuter Cattle Agreement. The commuter agreement number is to be written on the CVI.

All adult commuter cattle shall be officially identified with an approved eartag. The official ID eartag numbers of the commuter cattle are not required to be individually listed on the CVI. However, a master list of official ID eartag numbers for all adult cattle that might move under this agreement must be on file with Colorado Department of Agriculture (CDA) and Nebraska Department of Agriculture (NDA) prior to approval of the agreement.

All Trichomoniasis test results and laboratory diagnostic reports for bulls 18 months of age and older MUST accompany the application. The commuter agreement will only be considered after the most recent Trich test results and the previous year's Trich test results are provided for review. Trich test results from the entire bull battery shall be included. Your application will not be approved if all test information is not furnished or if testing dates are not within the acceptable guidelines. Bulls returning to their state of origin after grazing will not need a negative Trich test to return.

This permit must be renewed in writing on a yearly basis; the State Veterinarian's Office in the state of origin must receive applications at least two weeks prior to movement.

The following Commuter Cattle Agreement, when submitted and signed by the owner and approved by the State Animal Health Officials of Colorado and Nebraska, will allow for the movement of your herd and their offspring. Commuter permits are for bonafide breeding herds only – NO TRADER CATTLE.

**APPLICATION INSTRUCTIONS:** Sections I and II are to be completed by the herd owner and submitted by mail, fax, or e-mail to the State Veterinarian's Office at CDA. Section III will be completed by the State Animal Health Officials.
