I. TYPE OF PERMIT..... 1  
II. FACILITY INFORMATION..... 1  
III. MODIFICATION REQUEST..... 1  
IV. CHANGES TO PERMIT..... 1  
V. PUBLIC NOTICE COMMENTS .....1

**I. TYPE OF PERMIT**

Modification #1 - Minor

**II. FACILITY INFORMATION**

- A. Facility Type: Domestic - Minor Municipal, Mechanical Plant
- B. SIC Code: 4952 Sewerage Systems
- C. Facility Location: Latitude: 39°41'14.57" N, Longitude: 105°52'56.02" W
- D. Discharge Point: Outfall 001A, following disinfection and prior to mixing with the receiving stream. Latitude: 39°41'15.47" N, Longitude: 105°52'55.86" W
- E. Facility Flow: Outfall 001A - 0.030 MGD

**III. MODIFICATION REQUEST**

The Division received a modification request letter from the Clear Creek Skiing Corporation on September 23, 2014. In the request, the permittee asked for a one-year extension to conduct a mixing zone study under low flow conditions. It should be noted that the facility's consultant indicated in a phone call that the low flow conditions did not occur during the time the receiving water was accessible. The consultant also indicated the latitude and longitude of both Outfall 001A and the facility were incorrect and provided new coordinates for the outfall and facility.

**IV. CHANGES TO PERMIT**

The Division has incorporated this request into the permit (CO0040835) under Part 1.B.5. The permittee is now required to submit the mixing zone study results by August 31, 2015.

The Division has also updated the latitude and longitude of Outfall 001A and the facility based on new information given to the Division from the consultant representing the facility.
