Postponing Go Live

10/12/2016

COLORADO

Department of Health Care
Policy & Financing

What's Happening?

Why are we postponing?

“ The Department strongly believes it is better to hold off on a full launch than to launch a system on time that may ” disrupt our providers or members.

More time for system testing

More time for providers to complete the revalidation process

More time for the Department to define business and process changes

Now What?

Continue sending claims
and PARS to Xerox

We'll continue paying

Trading Partners who have received a new Trading
Partner ID for the interChange should **not** use it

Revalidate, revalidate, **revalidate!**

Providers still need to revalidate ASAP

Providers not enrolled in the interChange
will not be paid after Go Live 

 **We have resources** for providers
struggling with the application

Stay tuned for new deadlines

We are working to **finalize new deadlines.**

For now, **you should continue conducting business as usual.**

As soon as we have more details we will communicate with you.

Will there still be a payment delay?

No payment delay this month.

All providers should still plan for a delay in payment, but it will occur closer to the new Go Live date.

This will happen for **all providers** and is **unavoidable**
