

Certified Application Assistance Site (CAAS)

What is a Certified Application Assistance Site (CAAS)?

A Certified Application Assistance Site assists individuals and families in completing applications for Public Assistance, and is certified to verify citizenship and identification documentation on behalf of the Department.

As a Certified Application Assistance Site, your efforts will assist Colorado citizens by:

- Facilitating enrollment for Medical Assistance Programs through the application process.
- Providing convenient access to members within your community.
- Offering services in a fair, impartial, and culturally sensitive manner to eliminate barriers.
- Being a resource to the community by informing members of ongoing changes regarding benefits.
- Acting as the liaison between members and appropriate state agencies for additional information regarding Medical Assistance Programs.
