

Children's Services Steering Committee

Meeting Date: Friday July 26, 2013
Meeting Time: 8:30 am to 10 am

Facilitator: Gina Robinson

Location	The Daniel's Fund 101 Monroe St
Meeting Purpose	<p>Charter</p> <p>Effective Early and Periodic Screening, Diagnostic and Treatment (EPSDT) program design and implementation requires continuing involvement of health professional organizations. Screening protocols and services, periodicity schedules, and service delivery timeliness standards must meet reasonable standards of medical and dental practice, determined by the agency after consultation with recognized medical and dental organizations involved in child health care.</p> <p>Description</p> <p>The Children's Services Steering Committee serves in an advisory capacity to the Department and makes recommendations regarding issues related to benefits for children and youth age 20 and under, provider education interventions and application of standards.</p>
Meeting Participants / Invitees	<p>To attend the meeting by phone:</p> <p>(720) 279-0026 Participant Code: 323983</p>

	Complete work plan	
9:45	Follow up on request for ASQ-SE at all visits	All

Notes:

Next meeting date:

August 23, 2013 at The Daniel's Fund

ACTION ITEMS

Issue	Action / Next Step	Assigned To & Date Assigned		
What do we need to let families know that the physicals are the same	Talking points and give them to HC staff to try – also might work with IZ staff	Gina, Meredith		
Do we need to survey docs and see if they can fill out the form during any physical – after visit form...	Is there a way to unify the information that could be given to the parents of the sports team	Group discussion		
Is there a way to add the check boxes from CHASA into the end of the well child form to see that everything has been done and not have it be on their form, but if the information is there	AAP built a form that was acceptable to all child care centers – can this one be built into school sports association?	Bill C - Kathy		
Bill Betts needs to set up meeting with CHASA Can we look at changing the language to physical or comprehensive well visit not a SPORTS physical – this is our concern	Requirement and form – can we just start out with that form, and take a look at it and see what is needed	Bill		
Can we incentivize the Little clinics to provide a full physical? – they may already be since a well check pays more than a sports physical You're a medical provider – these physicals need to be done in the medical home – are there providers who are not supporting this concept? Messages that are coming out of the marketing so how do we counteract that within Medicaid? Medical home?	Possible provider bulletin from Judy Zerzan and Kathi Wells?	Gina		

<p>Oral Health – how to we assure that they are going? How can we work with IZ to spread the message – posters etc for providers to use in their waiting rooms, school nursing offices, etc that will speak to dental visits – well child visits for teens, depression screening, etc</p>	<p>Messages needed – Can LiveWell be a part of this as health care?</p> <p>Connect for Health as a partner?</p> <p>Contact Medicaid dental providers about this and talk to Kataya – messages for outreach?</p> <p>Possible poll about medicaid dental – OHEC partnership?</p> <p>Mobilizing grand parents – educating the people with the influence</p> <p>Information is on the eligibility print out as to who the medical home is for each child – including ACC and PCPP and managed care</p>	<p>Kathy – IZ piece Anita/Dori? Anita – check with LiveWell to see if there is a way to partner with those messages? Children need well child visits and should be the same for everyone that has medical coverage – without copay and deductible – life span not just toddlers – Gina to check with Camille – can we put this into the QI grant?</p>		
<p>Families say that they already got the sports physical - Faster – no appointment – not really seeing the benefits – convenience for the families – letters to families at the end of the school year –</p>	<p>Message to encourage families to seek the care earlier – like at welcome at high school and junior high</p> <p>Is there a way to use the data system to generate letters to the appropriate age group? Attachment of CHASA form, list of providers, etc.</p> <p>Well child is covered – sports physicals are not – more extensive – screenings for oral health and IZ as well as depression screening</p>	<p>Rashonda and Carol and Jeffco</p> <p>Try call em all system for sports physicals</p>		
<p>Meeting with School Based Health Association</p>		<p>Meredith</p>		

Message from sports staff	Athletes are humans that are at risk for depressions, suicide and cardio issue	Gina – work with coaches at her sons school for ideas		
Where is camp physicals – who needs to find out about this possibility – push the standard – everything needs to be complete – physical, IZ, oral health and behavioral health				
Kerry to talk with Mary about this for child welfare		Kerry		
Include IZ - marketing		Kathy to ask Rosemary if she is able to attend for a bit
