Cattle, hay, corn, vegetables

When people think of  Colorado, outdoor fun in the Rocky Mountains is what usually comes to mind. Think again. Nearly half of Colorado's 66 million acres are farms and ranches, and Colorado agribusinesses contribute about \$40 billion to Colorado's economy.

Hungry for a juicy steak? Colorado has plenty. With more than 12,000 beef producers, the cattle industry is the largest ag sector in the state, bringing in \$4 billion in cash receipts.

Love a baked potato with your steak or french fries with your leg of lamb? Ranked fifth nationally in production of potatoes, Colorado produces over two billion pounds of potatoes annually.

Having veggies or salad for dinner? Colorado ranks sixth in onion production and tenth in sweet corn production and is one of the nation's top lettuce producers.

Need something to quench your thirst? Annual production of eight million bushels of barley helps make Colorado one of the top beer producing states in the nation. The state is also home to more than 140 licensed wineries. Cheers!

Colorado agriculture is more than just food. Farmers and ranchers help create products in construction, manufacturing, health care, education, transportation and personal care.
