COLORADO EMPLOYMENT SITUATION August 2010

Labor Force^[i]

Colorado's seasonally adjusted unemployment rate increased two-tenths of one percentage point to 8.2 percent in August, according to Donald J. Mares, Executive Director of the Colorado Department of Labor and Employment. "The August report underscores that we have yet to see stability in the jobs market," said Mares. "We hope to see positive momentum in the months ahead." Last August, the unemployment rate was 7.9 percent.

The number of working Coloradans decreased 2,100 over the month to 2,440,000. The civilian labor force increased 600 to 2,656,500. The number of residents unsuccessfully looking for work increased 2,700 over the month to 216,500. One year ago, total employment was 2,476,700 and the number of unemployed was 213,300. The civilian labor force has declined 33,500 since August 2009.

The unemployment rate (not seasonally adjusted) decreased in 43 of Colorado's 64 counties, increased in 9 and was unchanged in 12. The lowest rate was 2.9 percent in Hinsdale County and the highest was 14.5 percent in Dolores County. In August 2009, the unemployment rate declined in 63 counties and remained unchanged in one. Last year, the lowest rate was 2.4 percent in Cheyenne County and the highest was 13.3 percent in Dolores County.

Wage and Salary Employment^[ii]

The monthly survey of Colorado business establishments indicates the number of nonfarm wage and salary jobs decreased 8,600 in August to 2,194,400.

Employment increased over the month in three of Colorado's eleven major industry sectors. Other services employment increased 200, while education and health services and construction each added 100 jobs. Leisure and hospitality employment declined 3,800, government employment decreased by 1,600, due primarily to Census-related layoffs, and trade, transportation and utilities and professional and business services declined by 1,300 and 1,000 jobs, respectively. Information decreased 500 and manufacturing and financial activities declined 400 each. Mining and logging employment was unchanged over the month.

Nonfarm payroll employment decreased 1.3 percent over the year, or 28,100, from the August 2009 level of 2,225,500.

Employment in four of Colorado's eleven major industry sectors increased over the year. Education and health services increased 6,700, mining and logging 400, government 200 and other services 100. The remaining seven industry sectors declined over the year. Construction, down 15,300, experienced the largest decline of all industry sectors. Trade, transportation & utilities declined 5,000, leisure and hospitality 3,800, information 3,600, manufacturing 3,500, financial activities 2,700, and professional and business services 2,000.

National^[iii]

The Bureau of Labor Statistics reported that the unemployment rate increased one-tenth of a percentage point to 9.6 percent in August. Nonfarm payroll employment declined 54,000. Government employment declined as 114,000 temporary workers completed their work on the decennial census. Private-sector payroll employment continued to rise modestly, increasing 64,000 due to growth in mining, health care, and temporary services.

^[i] Labor force estimates are calculated from the household survey results, using the Bureau of Labor Statistics Local Area Unemployment Statistics methods. The unadjusted statewide and county level estimates are available at the following link:

CSA is Combined Statistical Area; the Denver-Aurora-Boulder CSA includes the Greeley MSA.

The Fort Collins-Loveland MSA is Larimer County; the Greeley MSA is Weld County; the Grand Junction MSA is Mesa County

MCA stands for Metropolitan Statistical Area; LMA is Labor Market Area.

All multi-county areas have their respective counties or MSA's listed in indented and italicized form.

All estimates made in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics and adjusted to Current Population Survey data.

Estimates have been revised to incorporate population data from the 2000 Census.

Seasonally Adjusted MSA Labor Force Data not official BLS series

Labor force estimates are adjusted to Current Population Survey data. Estimates made in cooperation with the U.S. Dept. of Labor, Bureau of Labor Statistics.

1/ Residents unemployed during the week including the 12th of the month.

2/ Total resident employment includes nonagricultural wage and salary workers; self-employed, unpaid family and domestic workers; agricultural workers and persons involved in labor disputes.

3/ Due to rounding, sum of individual items may not equal total. Industry data represents jobs by place of work coded under the 2002 North American Industry Classification System

Material contained within the accompanying tables is in the public domain and, with appropriate credit, may be reproduced without permission.
