Re: Board Rule 5-7

-

I'm very opposed to degrading the leave benefits of our Classified employees, even by this small fraction. Assuming this change is necessary to fit the State's new payroll system, it would be prudent, from a purely human standpoint, to round up to the nearest workable number rather than down. It will be seen by our Classifieds as another blow to their value in our workforce. They should not be negatively impacted because the State's systems require replacement.

Thank you,

Debbiee Pylican | Benefits Manager | Human Resources
