

Committee Working Items At-A Glance

Completed Action Items							
Action Item	Description	Anticipated Benefits	Risks	Costs/Timeline	Approach	Source of Idea	RSTF Report
Joint Training Facility	Construction of a training facility open to all responders for the purpose of training on responder safety topics.	Engage more responders in joint training on responder safety topics	Availability of training times and location	Complete	Task Force	Governor's Task Force & Executive Committee	TO1.6 - Joint Training Facilities T3.4 - Train Together OP1.6 - Culture Change
Co-location of TMC and CSP Dispatch	Co-location of CDOT TMC and CSP Dispatch in Pueblo.	Improvement of communications between agencies and expedited service.	New protocols may be required in addition to those anticipated.	Complete	Task Force	Governor's Task Force	OP1.8 - Co-location of Communications Practices
Colorado Standing Committee on First Responder Safety - Committee Governance	Governing document for management and operations of Committee.	Provide for on-going operations and ability to implement vision	Follow-up	Complete	Task Force	Governor's Task Force	TO1.1 - Statewide Committee Participation

Current Action Items							
Action Item	Description	Anticipated Benefits	Risks	Costs/Timeline	Approach	Source of Idea	RSTF Report
CSP/CDOT Quick Clearance MOU	MOU between CSP and CDOT regarding "Quick Clearance" practices of the agencies.	Demonstrated leadership and commitment to statewide culture change.	Informing responders and the public of the MOU and its benefits.	low ready for signature	Task Force	Governor's Task Force & Executive Committee	P1.1 - CSP/CDOT MOU
What's In It For Me Kit (WIIFM Kit)	Media Kit to report out to all responders on Committee work/Vision. Provide video, digital, and print assets possibly in combination with responder equipment.	Report out to responder community on Committee activities - putting task force findings into action Communicate roles/responsibilities for all, including public Re-enforce identified messages: Move Over, Move Your Crash, etc. Provide actionable tools to responders Expand knowledge base & available resources	New messages may be developed in the relatively near future Need to make sure to include full range of responders, industry, and public in messaging	TBD; low TBD; est. less than 6 months	Task Force	Executive Committee	C3.1 -Report Findings to First Responder Community T3.2 - Define One Scene Approach OP1.5 - Common Understanding of One Scene Culture OP1.6 - Culture Change
IPAWS implementation	Improve public notification of hazards statewide.	Increase situational awareness for public Message in a uniform, integrated, interoperable way Develop data-based performance objectives	Limited scope and length of messages No attachments allowed Area of message delivery limitations	TBD; low TBD; program update announcements this summer; est. more than 6 months	Working Group: Operations	CSP Captains	OP1.7 - Interoperable Communications Practices

Potential Action Items							
Action Item	Description	Anticipated Benefits	Risks	Costs/Timeline	Approach	Source of Idea	RSTF Report
Replace Flare Use with Non-flammable Alternative	Flares are used to provide increased visibility of a hazard; however, fire danger is extremely high and alternative materials are available.	Fire danger reduced Danger of injury to responders associated with using flammable equipment eliminated Responder community supporting fire risk. Advances Vision.	Reliability of alternate devices	TBD; low; est. \$300/kit TBD; est. less than 6 months	Task Force	CSP Captains	T3.3 - Common Operating Framework T3.5 - Mitigate Obstacles for Small Agencies OP1.6 - Culture Change OP3.1 - Model Behavior
Responder Self Reporting Form for Successful Outcomes	Develop and deploy an interactive, self reporting form for responders to identify the state of operations within their service areas on an on-going basis.	Increase situational awareness for public Promote positive messages from field experience Develop data-based performance objectives & case studies	Level of participation	TBD; low TBD; est. less than 6 months	Task Force	Executive Committee	T2.1 - Establish Baseline Dataset
Plan TIM Track Event Series for FY 2019-2020	Develop and host series of training and informational events at the TIM Track.	Link Executive Committee to responders Make concerted use of shared facility to train together on relevant subjects Advance Vision	Participation & Logistics Appearance of "front range" focus	TBD; low to medium depending on programming TBD; est. less than 6 months for event series outline + host first event	Task Force	Staff	TO1.6 - Joint Training Facilities T3.4 - Train Together OP1.6 - Culture Change
Establish Baseline Conditions	Investigate and establish baseline operating conditions to facilitate future performance management.	Provide pathway to data-driven decision making Future ability to measure and report on Committee work beyond Case Studies and/or list of accomplishments & activities.	Narrowing scope to reasonable & effective work	TBD; medium to high depending on programming TBD; est. more than 6 months	Working Group: Operations, Training, Infrastructure	Governor's Task Force & Executive Committee	T1.3 - Current State T2.1 - Establish Baseline Dataset I1.1 - Identify Existing Opportunities
Prepare "Trunk" Kit of materials for use by responders around Colorado	Prepare and distribute a "Trunk" Kit of materials for responder use in preparing safe work areas.	Encourage participation in Committee work Opportunity to define "best practices" in using Kit items for many disciplines Advance Vision. Support local responders in acquiring applicable materials.	Reliability of alternate devices How to incorporate private industry	TBD; low to medium; est. \$1200/kit (can be very flexible to work with available budget) TBD; est. less than 6 months	Task Force	CSP Captains	T3.5 - Mitigate Obstacles for Small Agencies OP1.6 - Culture Change

Potential Action Items							
Action Item	Description	Anticipated Benefits	Risks	Costs/Timeline	Approach	Source of Idea	RSTF Report
Global Training Website	Mechanism to consolidate access to training opportunities and simplify recruitment.	Connect training opportunities with students. Track and report on attendance and completion metrics.	Getting everyone onto a single platform. Maintaining/updating the website continuously.	TBD; low TBD; low to medium	Task Force	CDOT	T3.1 Unify Practices T3.4 Train Together
HAAS Alert for Waze	Mechanism to notify the Public and Other Responders of incidents.	Increase situational awareness for public Track and report on available information Re-enforce identified messages: Move Over, Move Your Crash, etc.	Small Sample size Time on/off metrics	TBD; low TBD; low to medium	Task Force	Executive Committee	TO 1.3 - Current State TE1.1 - Automated Messaging Protocol TE2.2 - Increase First Responder Visibility
Annual TIM Conference	Opportunity to engage responders in training, building relationships, and promote Committee messages.	Increase safety awareness for responders Link Executive Committee to responders Re-enforce identified messages: Move Over, Move Your Crash, etc.	Access to responders around Colorado Agency costs - incl. travel, out of service time, etc.	TBD; low to medium 12 months - planning & execution	Task Force	CDOT	T3.1 Unify Practices T3.4 Train Together P1.3 Statewide Commitment to "Quick Clearance" Practices
Template MOU	MOU between agencies and CSP/CDOT regarding "Quick Clearance" practices of the agencies. Partnering agreement also a possibility for less binding option.	Increase safety awareness for responders Demonstrated leadership and commitment to statewide culture change	Access to responders around Colorado Agency costs - incl. travel, out of service time, etc.	TBD; low to medium 12 months - planning & execution	Task Force	Governor's Task Force	P 1.2 Template MOU
