Crack Sealing to Begin Throughout Bennett October 2

Town of Bennett, Colo. – In order to maintain proper street conditions, the Town of Bennett Public Works Department will begin crack sealing roads throughout town on October 2.

The public works department is asking residents to park their vehicles off the streets during the time they are working on their roads. A tentative schedule of the road maintenance is listed below. This schedule is subject to change based on weather conditions.

Tuesday October 2 – Thursday October 4, 2018

- Truman Avenue
- Roosevelt Avenue
- Grant Avenue
- Lincoln Avenue
- Washington Avenue

Tuesday October 8 – Thursday October 11, 2018

- 2nd Street
- 3rd Street
- 4th Street
- 5th Street

Friday October 12, 2018

- 6th Street
- 7th Street
- 8th Street
- Washington Avenue (At Bennett High School)
- Lincoln Avenue (At Bennett High School)

Tuesday October 16 – Thursday October 19, 2018

- 1st Street
- Palmer Avenue

The intent of crack sealing is to eliminate open areas where water and moisture can penetrate to the substrate beneath the road surface. When that happens, it can cause soil destabilization, which can lead to roadway issues like potholes, excessive cracking and heaving or sinking of the roads themselves. This process protects and extends the lives of our roadways.

Updates on road work can be found on the Town of Bennett Facebook page and on the Town of Bennett website at www.townofbennett.org.
