

- Department contracted with CCDC to develop some cultural competency training specifically for HCPF staff
 - History of ADA, welcoming culture, and communication techniques for individuals with a variety of disabilities.
 - 3 online modules
 - Melissa Marshall from CT came in did in-person training as well.
 - Took place in late May and were recorded for future use.
- Have not launched quite yet
- Primary audiences is HCPF staff, but hope to use for a wider audience including case managers or other groups.
- Are interested in working more with providers to work towards less-medical oriented models, but not within current scope.
- Have capabilities to load online courses in the system and tracks users who registered, took tests, etc. Envision using this for internal HCPF staff, but only have a limited number of licenses.
