Prior to your review today, this item underwent a technical review by staff of Colorado Department of Public Health and Environment (CDPHE) and the following determinations were made (if checked below):

- The item accurately uses terms, descriptors, or displays necessary for the intended audience to understand dangerous behaviors and explain less risky practices concerning HIV transmission.
- The item specifically covers the harmful effects of promiscuous sexual activity and intravenous substance abuse, and the benefits of abstaining from such activities.
- Though this item does not specifically mention the harmful effects of promiscuous sexual activity or intravenous substance use and the benefits of abstinence, this item is part of an overall program that does address these issues.
- The intended audience is youth, and the item appears to be guided by the principles contained in "Guidelines for Effective School Health Education to Prevent the Spread of AIDS."
- This item does not contain any education messages and will be used for marketing.

To be completed by Material Review Panelist

If you, as a review panelist, require more details on how these determinations were made, you may request them from CDPHE prior to approving this item.

In your opinion, are the following statements true of this item you are reviewing?

1. This item encourages, directly, homosexual or heterosexual sexual activity or intravenous substance abuse. (Note: Merely mentioning behavior is not considered to be "encouraging behavior" so long as the underlying intent is to provide accurate information about various means to reduce an individual's risk of exposure to, or the transmission of, HIV).	<input type="checkbox"/> Yes <input type="checkbox"/> No
2. Given community standards, as you understand them, this item is obscene.	<input type="checkbox"/> Yes <input type="checkbox"/> No
3. This item involves an educational session (e.g., a curriculum) in which attendees participate in sexually suggestive physical contact or actual sexual practices.	<input type="checkbox"/> Yes <input type="checkbox"/> No
