KEEP IN TOUCH:

Welcome!

Welcome to a special issue of the Environmental Agriculture Program's newsletter. This special issue is to update our stakeholders with important information regarding the Annual Stakeholder Meeting and the newly revised Annual Report form for permitted facilities.

Annual Stakeholder Meeting Presentation On-line

10th Annual Ag Program Stakeholder Meeting

The 10th annual Ag Program stakeholder meeting was held from 9:00 am - 12:00 pm on Wednesday, February 11, 2014 at the CDPHE laboratory services building:

The meeting's topics included regulation updates, enforcement issues, program goals and priorities, inspections, budgets and more.

We have posted the slide presentation for the annual meeting on our website under "News and Announcements" or you can download the presentation below.

If you have any question regarding the content of the presentation, please feel free to contact the Ag Program for assistance.

Revised Annual Report Template

The time has come for permitted facilities to complete and submit their annual reports. In an effort to simplify the process, the Ag Program has revised the Annual Report template. The program has also developed a Microsoft Excel format of the Annual Report form as well as an expanded instruction sheet to assist you in correctly reporting all of the necessary information.

The new form and accompanying instruction sheet are now available on the Ag Program's website under "Forms" or you may download the forms below.

If you have any problems or questions, please do not hesitate to call the Ag Program for assistance. As a reminder, the annual reports are due to the Ag Program by no later than March 31, 2015.

Spring Time Reminders

With Spring just around the corner, here are a few helpful reminders from common issues we often see during inspections:

Record keeping - be sure to maintain accurate records of all land application events.

Ensure adequate storage in your facility impoundments for the designed storm event.

Prevent the unintentional ponding of wastewater from the melting snow by maintaining the production area.

Questions? Concerns?

Do you have an idea for a newsletter article? Do you have a complaint or questions or concerns regarding regulatory compliance, inspections, or enforcement? Please contact us at the email or phone numbers listed above and we will be glad to assist you.
