

# **Colorado Medication Take-Back Program**

## **Listing of**

### **Non-acceptable Substances**

**This program is not permitted to accept a controlled substance.**

**It is permitted to accept most of the 90% or more of all medicines that are not controlled substances. All over-the-counter vitamins and other over-the-counter medicines are acceptable. Most, but not all, prescription medicine is acceptable for disposal. This list reflects many but not all medicines currently listed as “controlled substances” by the U.S. Drug Enforcement Agency (DEA).**

**“Controlled Substances” are defined by DEA as “having a potential for abuse.” Please visit the DEA web site at <http://www.deadiversion.usdoj.gov/index.html> - for more information. You may want to consult your physician or pharmacist if you are unsure if your medicine is controlled or uncontrolled.**

**Federal law prohibits this program (use of this drop-box) for the disposal of controlled substances.**
