

# Pollution Prevention Advisory Board Assistance Committee

## Committee Member Application

House Bill 07-1288, also known as the Recycling Resources Economic Opportunity (RREO) Act, established a fund to incentivize implementation projects that promote economic development through the productive management of recyclable materials that would otherwise be treated as discards. Projects that meet this goal are designed to implement source reduction, recycling, composting, anaerobic digestion, and beneficial use/re-use for a wide variety of materials. Revenues originate from a tipping fee of \$0.09 per cubic yard of trash dumped at Colorado landfills, scheduled to gradually increase to \$0.14 per cubic yard by 2016.

This act also created a 13-member Assistance Committee (the committee) in order to assist the Pollution Prevention Advisory Board in overseeing the RREO Fund. Committee members are appointed by the Executive Director of the Colorado Department of Public Health and Environment. There are two seats that are currently vacant, and the individuals selected to fill these vacancies will serve the remainder of the previous member's term. One vacant seat is term limited in August 2015, and the other seat is term limited in August 2017. All newly appointed members have the option of being reappointed for three consecutive terms, four years in length.
