Colorado All-Payer Claims Database DATA SUBMISSION GUIDE

Version 11 2019

REVISION HISTORY

Date	Version	Description	Author
2/2011	A/B	Initial draft; Added section on Data Quality Requirements and added Employer Name to the Eligibility Data File. Added Provider File and Pharmacy Eligibility File, with placeholder for Plan Details File.	A. Graziano
3/1/2011	C/D	General revisions and updates Added section numbering and data elements to insurance plan file. Added decisions reached during payer weekly DSG meeting	A. Graziano
4/27/2011	0	Incorporated decisions reached during payer weekly meetings including a revision to submission timelines, modification to data element definitions	A. Graziano
6/10/2011	0	Final adjustments made based on feedback from Cigna and United Healthcare. Modified timeline for data submission.	A. Graziano
7/14/11	1	Removed elements that are stated in the rule and removed certain data values in several data elements that are not relevant. Included the requirement to filter claims based on CRS 10-16-104(5)(d)(I)	A. Graziano
8/11	2/3/4d	Modified data element types, removed reference to small group plan types and filtering of mental health related claims. Provided definitions for field types. Corrected minor typos throughout the document and clarified the purpose of the header and trailer records. Incorporated decisions reached at the rules hearing on 8/23/11.	A. Graziano
1/22/13	4d	Added IP Procedure Code/Date, Present on Admission (POA), Dental columns, File Naming Convention Updates based on phase 1A and 1B experience.	S. Murphy
1/23/13	5 Draft	Added clarifications to required fields	L. Green
3/11/13	5 Draft	Final DSG approved at rules hearing	T. Campbell
2/14/2014	6 Draft	Added Address two, Provider Telephone Number, Added clarification to required and optional fields.	E. Perry
7/29/2015	7 Draft	Added new fields for the incorporation of self-funded claims.	E. Perry
4/1/2016	8 Draft	Amended the definition of SMG to align with federal regulation.	E. Perry
3/27/2017	9 Draft	Several changes made to fields to improve the comprehensiveness of the data.	E. Perry M. Tahir

Date	Version	Description	Author
5/1/2017	9 Draft	Final DSG 9 approved at rules hearing	E. Perry M. Tahir
5/25/2018	10 Draft	Added provision for the collection of additional data elements including: alternative payment models and prescription rebate information. Also added the collection of Medicare Beneficiary Identifiers and corrected typos.	
8/24/2018	10 Draft	Revisions on new data elements including APM and table B.1.J, corrected typos.	J. Tremaroli
10/17/2019	11 Draft	Modified definition, field type or field length to improve the quality of the data submitted for several data elements. Changed criteria for data elements that are important for measurement of healthcare cost, utilization or quality from being optional to being required. Modified definition of several data elements to be consistent with national standards from the APCD Council Common Data Layout and added useful data elements that are currently included in the CDL.	J. Tremaroli E. Perry
3/27/2020	11.5 Draft	Updated APM file to include Insurance Product Type Code, removed redundant fields, added year and payment arrangement type to Control Total file. Added Other Drugs to Drug Rebate file, added PBM contract information addendum, revised primary care definition for APM filings	J. Tremaroli

1.0 DATA SUBMISSION REQUIREMENTS - GENERAL

Data submissions detailed below will include eligibility, medical claims, pharmacy claims, provider data (Health Care Data), Alternative Payments and Drug Rebates. Field definitions and other relevant data associated with these submissions are specified in Exhibit A. These datasets have been developed by the APCD Council in collaboration with stakeholders across the nation. Refer to APCD Rule 0615 for definitions and other requirements.

Each payer will be required to submit to administrator documentation supporting their standard data extract files that will include a data dictionary mapping internal system data elements to the data elements defined in this DSG. The documentation should include a detailed description of how the data extracts are created and how the requirements of this DSG and the rule are accomplished, including specifications on what data is being excluded and the parameters that define that excluded data.

Any thresholds regarding the number of enrolled lives, as related to payer data submissions (or a payer's third-party administrator or administrative services only organization ("TPA/ASO")), should be calculated by the payer (or its TPA/ASO) on a minimum annual basis, reflecting a 12-month average. The method for calculating any such thresholds, and the results, must be provided in any payer supporting documentation or upon the administrator's request.

1.1 DATA TO BE SUBMITTED

1.1.1 MEDICAL CLAIMS DATA

- a) Payers shall report health care service paid claims and encounters for all Colorado resident members. Payers may be required to identify encounters corresponding to a capitation payment (Exhibit A-2).
- b) A Colorado resident is defined as any eligible member whose residence is within the State of Colorado, and all covered dependents. An exception to this is subscribers covered under a student plan. In this case, any student enrolled in a student plan for a Colorado college/university would be considered a Colorado resident regardless of their address of record.
- c) Payers must provide information to identify the type of service and setting in which the service was provided. Each submitted data file shall have control totals and transmission control data as defined in the Header and Trailer Record for each defined file. (See Exhibit A for specifics).

Claim data is required for submission for each month during which some action has been taken on that claim (i.e. payment, adjustment or other modification). Any claims that have been "soft" denied (denied for incompleteness, being incorrect or for other

administrative reasons) which the data supplier expects to be resubmitted upon correction, do not have to be submitted until corrections have been completed and the claim paid. It is desirable that payers provide a reference that links the original claim to all subsequent actions associated with that claim (see Exhibit A-2 for specifics).

- d) ICD-9/ICD-10 Diagnosis and Procedure Codes are required to accurately report risk factors related to the Episode of Care. CPT/HCPCS codes are also required.
- e) For historical data submitted during the onboarding process, payers shall provide, as a separate report, monthly totals of covered members (Colorado residents) for the periods associated with the Historical Data.
- f) Dental Claims: Standalone dental carriers should provide contact information to the Colorado APCD when these rules become effective. The Colorado APCD will notify standalone dental carriers of the process for submitting test files and regular updates. The process will include opportunities to discuss submission requirements prior to due dates.

1.1.2 PHARMACY CLAIMS

- a) Health Care Payers must provide data for all pharmacy paid claims for prescriptions that were actually dispensed to members and paid (Exhibit A-3).
- b) If your health plan allows for medical coverage without pharmacy (or vice versa), ME018 - ME020 in Exhibit A-1 provides data elements in which such options must be identified in order to effectively and accurately aggregate claims based on Episodes of Care.
- c) Claim data is required for submission for each month during which some action has been taken on that claim (i.e. payment, adjustment or other modification).

1.1.3 MEMBER ELIGIBILITY DATA

- a) Health Care Payers must provide a data set that contains information on every covered plan member who is a Colorado resident (see paragraph 1.2.1.b above) whether or not the member utilized services during the reporting period. The file must include member identifiers, subscriber name and identifier, member relationship to subscriber, residence, age, race, ethnicity and language, and other required fields to allow retrieval of related information from pharmacy and medical claims data sets (Exhibit A).
- b) If dual coverage exists, send coverage of eligible members where payer insurance is primary or tertiary. ME028 is a flag to indicate whether this insurance is primary or tertiary coverage.

1.1.4 PROVIDER DATA

- a) Health Care Payers must provide a data set that contains information on every provider for whom claims were adjudicated during the targeted reporting period or for whom were reported on the eligibility file during the targeted reporting period.

- b) A provider file is a data file composed of information including but not limited to: provider IDs, provider names, National Provider Identifiers (NPI), specialty codes, and practice location(s) for all providers as indicated by the payer on the eligibility and on the claim.
- c) Data suppliers must provide a data set that contains information for all providers as indicated on the eligibility file and on every provider that a claim (Medical, Dental, and Pharmacy) was adjudicated for in the targeted reporting period. Third party administrators (including pharmacy benefit managers, etc.) who may not contract directly with providers, are expected to include providers who are on the claims file for the time period of the corresponding reporting period.
- d) In the event the same provider delivered and was reimbursed for services rendered from two different physical locations, then the provider data file shall contain two separate records for that same provider reflecting each of those physical locations. One record shall be provided for each unique physical location for a provider who was reported during the period.

1.1.5 ALTERNATIVE PAYMENT MODEL DATA

- a) Health care payers must provide a file that includes information related to payments made under different payment models (Exhibit A-5).
- b) Payments reported in the Alternative Payment Model filing should be for care provided to Colorado residents only and based on the date of service.
- c) Alternative Payment Model files should include three years' worth of historical data, separated by year.
- d) Files are submitted on an annual basis.

1.1.6 ALTERNATIVE PAYMENT MODEL CONTROL TOTAL DATA

- a) Health care payers must provide a file that includes summary information for payments reported in the Alternative Payment Model filing (Exhibit A-6).
- b) Control Total files should include three years' worth of historical data, separated by year.
- c) Files are submitted on an annual basis.

1.1.7 DRUG REBATE DATA

- a) Health care payers must provide a file that includes aggregated information for pharmacy expenditures and rebates/other compensation received. (Exhibit A-7).
- b) Drug Rebate files should include three years' worth of historical data, separated by year.
- c) Files are submitted on an annual basis.

1.2 COORDINATION OF SUBMISSIONS

- a) In the event that the health plan contracts with a pharmacy benefits manager or other service entity that manages claims for Colorado residents, the health plan shall be responsible for ensuring that complete and accurate files are submitted to the CO APCD by the subcontractor. The health plan shall ensure that the member identification

information on the subcontractor's file(s) is consistent with the member identification information on the health plan's eligibility, medical claims and dental claims files. The health plan shall include utilization and cost information for all services provided to members under any financial arrangement, including sub-capitated, bundled and global payment arrangements.

1.3 TEST, HISTORICAL AND PARTIAL YEAR INITIAL SUBMISSION

For payers required to begin submitting files to the CO APCD, the administrator will identify:

- (1) the calendar month to be reported in test files;
- (2) the specific full calendar years of data to be reported in the historical submission; and
- (3) at the administrator's direction, a partial year submission for the current calendar year.

2.0 FILE SUBMISSION METHODS

- 2.1 SFTP - Secure File Transport Protocol involves logging on to the appropriate FTP site and sending or receiving files using the SFTP client.
- 2.2 Web Upload - This method allows the sending and receiving of files and messages without the installation of additional software. This method requires internet access, a username and password.

3.0 DATA QUALITY REQUIREMENTS

- 3.1 The data elements in Exhibit A provide, in addition to field definitions, an indicator regarding data elements that are required. A data element that is required must contain a value unless an override is put in place with a specific payer who is unable to provide that data element due to system limitations. A data element marked as "TH" means that a % of all records must have a value in this field based on the expected frequency that this data element is available. Data files that do not achieve this threshold percentage for that data element may be rejected or require follow up prior to load into the CO APCD. A data element marked as "O" is an optional data element that should be provided when available, but otherwise may contain a null value.
- 3.2 Data validation and quality edits will be developed in collaboration with payers and refined as test data and production data is brought into the CO APCD. Data files missing required fields, or when claim line/record line totals don't match, may be rejected on submission. Other data elements will be validated against established ranges as the

database is populated and may require manual intervention in order to ensure the data is correct.

The objective is to populate the CO APCD with quality data and each payer will need to work interactively with CIVHC to develop data extracts that achieve validation and quality specifications. This is the purpose of test data submissions early in the implementation process. Overrides may be granted, at the discretion of CIVHC, for data variances that cannot be corrected due to systematic issues that require substantial effort to correct.

4.0 FILE FORMAT

4.1 All [monthly](#) files submitted to the CO APCD will be formatted as standard text file.

Text files all comply with the following standards:

- a) Always one line item per row; No single line item of data may contain carriage return or line feed characters.
- b) All rows delimited by the carriage return + line feed character combination.
- c) All fields are variable field length, delimited using the pipe character (ASCII=124). It is imperative that no pipes ('|') appear in the data itself. If your data contains pipes, either remove them or discuss using an alternate delimiter character.
- d) Text fields are *never* demarcated or enclosed in single or double quotes. Any quotes detected are regarded as a part of the actual data.
- e) The first row *always* contains the names of data columns.
- f) Unless otherwise stipulated, numbers (e.g. ID numbers, account numbers, etc.) do not contain spaces, hyphens or other punctuation marks.
- g) Text fields are never padded with leading or trailing spaces or tabs.
- h) Numeric fields are never padded with leading or trailing zeroes.
- i) If a field is not available, or is not applicable, leave it blank. 'Blank' means do not supply any value at all between pipes (including quotes or other characters).

4.2 [Monthly](#) File Naming Convention - All [monthly](#) files submitted to the CO APCD shall have a naming convention developed to facilitate file management without requiring access to the contents.

All files names will follow the template:

TESTorPROD_PayerID_PeriodEndingDateFileTypeVersionNumber.txt

- Examples
 - i. TEST_0000_201606MEv01.txt

ii. PROD_0000_201606MEv02.txt

- TEST or PROD - TEST for test files; PROD for production files
- PayerID - The payer ID assigned to each submitter
- Period ending date, expressed as CCYMM (four-digit calendar year and two-digit month; for example, 201403 indicates a March 2014 end date).
- File Type - Member Eligibility (ME), Medical Claims (MC), Pharmacy Claims (PC), Provider (MP), Specialty Crosswalk (SC).
- Version number: Used to differentiate multiple submissions of the same file. This is important when a file must be resubmitted to resolve an issue, such as a validation failure. The letter v should be used, followed by two digits, starting with v01. Please include the leading zero. Original submissions of all files should be labeled v01. The Portal will not accept files that have the same name as an existing file.
- File extension (.txt)

4.3 All annual files submitted to the CO APCD will be formatted as standard excel file.

Submitters should complete the blank template file distributed for each annual file submission.

4.4 Annual File Naming Convention - All annual files submitted to the CO APCD shall have a naming convention developed to facilitate file management without requiring access to the contents.

All files names will follow the template:

TESTorPROD PayerID SubmissionYearDueFileTypeVersionNumber.txt

a. Examples

iii. TEST 0000 2019AMv01.txt

iv. PROD 0000 2019DRv02.txt

- TEST or PROD - TEST for test files; PROD for production files
- PayerID - The payer ID assigned to each submitter
- Submission year due, expressed as CCYY (four-digit calendar year).
- File Type - APM File (AM), Control Total (CT), Drug Rebate (DR).
- Version number: Used to differentiate multiple submissions of the same file. This is important when a file must be resubmitted to resolve an issue, such as a validation failure. The letter v should be used, followed by two digits, starting

[with v01. Please include the leading zero. Original submissions of all files should be labeled v01. The Portal will not accept files that have the same name as an existing file.](#)

- [File extension \(.xlsx\)](#)

5.0 DATA ELEMENT TYPES

date - date data type for dates from 1/1/0001 through 12/31/9999

int - integer (whole number)

decimal/numeric - fixed precision and scale numeric data

char - fixed length non-unicode data with a max of 8,000 characters

varchar - variable length non-unicode data with a maximum of 8,000 characters

text - variable length non-unicode data with a maximum of 2³¹ -1 characters

year- 4 digit Year for which eligibility is reported in this submission

month- month for which eligibility is reported in this submission expressed numerical from 01 to 12

time- time expressed in military time = HHMM

6.0 DATES FOR [MONTHLY CLAIMS](#) DATA SUBMISSION

30 days after the end of the reporting month.

Date That Supplier Must Submit Data to CO APCD	Period Begin date of Paid Claims Data	Period End date of Paid Claims Data	Period Begin date of Eligibility Data	Period End date of Eligibility Data
<i>By March 1</i>	<i>January 1</i>	<i>January 31</i>	<i>January 1</i>	<i>January 31</i>

<i>By February 1</i>	<i>December 1</i>	<i>December 31</i>	<i>December 1</i>	<i>December 31</i>

EXHIBIT A - DATA ELEMENTS

A-1 ELIGIBILITY FOR MEDICAL CLAIMS DATA

Frequency: Monthly Upload via FTP or Web Portal

It is extremely important that the member ID (Member Suffix or Sequence Number) is unique to an individual and that this unique identifier in the eligibility file is consistent with the unique identifier in the medical claims/pharmacy file. This provides linkage between medical and pharmacy claims during established coverage periods and is critical for the implementation of Episode of Care reporting.

For Historic Data collected, eligibility is to be reported for all Colorado residents who were covered members during that reporting month. In the event historical address data is not available, eligibility data for historical months shall be reported based on member's last known or current address. It is acknowledged that for some payers there may not be an eligibility record for each member identified in the medical claims file for that same period. In order to reconcile the total number of Colorado resident covered members for this 3-year period, each payer is to submit a summary report that totals the number of Colorado resident covered members for each month for Historic Data.

Additional formatting requirements:

- Eligibility files are formatted to provide one record per member per month. Member is either the Subscriber or the Subscriber's dependents.
- Data for administration fees, premiums, and capitation fees is contained on the eligibility file is pre-allocated (i.e. broken out by employee by month) to match the eligibility data
- Payers submit data in a single, consistent format for each data type.

MEDICAL ELIGIBILITY FILE HEADER RECORD

ME899	N/A	Record Type	char	2	Value = ME	R

A-2 MEDICAL CLAIMS DATA

Frequency: Monthly Upload via FTP or Web Portal

Additional formatting requirements:

- Claims are paid claims. Non-covered or denied claims (e.g. duplicate or patient ineligible claims) are not included.
- Payers submit data in a single, consistent format for each data type.

MEDICAL CLAIMS FILE HEADER RECORD

Data Element #	Data Element Name	Type	Max Length	Description/valid values
HD001	Record Type	char	2	MC
HD002	Payer Code	varchar	4	Distributed by CIVHC
HD003	Payer Name	varchar	75	Distributed by CIVHC
HD004	Beginning Month	date	6	CCYMMM
HD005	Ending Month	date	6	CCYMMM
HD006	Record count	int	10	Total number of records submitted in the medical claims file, excluding header and trailer records

MEDICAL CLAIMS FILE TRAILER RECORD

TR006	Extraction Date	date	8	CCYYMMDD

A-2.1 MEDICAL CLAIMS FILE

Data Element #	Reference	Data Element Name	Type	Length	Description/Codes/Sources	Required
MC001	N/A	Payer Code	varchar	4	Distributed by CIVHC	R
MC002	N/A	Payer Name	varchar	30	Distributed by CIVHC	R
MC003	837/2000B/SBR/ /09	Insurance Type/Product Code	char	2	See Lookup Table B.1.A	R
MC004	835/2100/CLP/ /07	Payer Claim Control Number	varchar	35	Must apply to the entire claim and be unique within the payer's system. No partial claims. Only paid (or partially paid) claims	R
MC004A	N/A	Cross Reference Claims ID	varchar	35	The original Payer Claim Control Number (MC004). Used when a new Payer Claim Control Number is assigned to an adjusted claim and a Version Number (MC005A) is not used. MC004A and MC004 should be identical when MC038C = O.	R
MC005	837/2400/LX/ /01	Line Counter	int	4	Line number for this service. The line counter begins with 1 and is incremented by 1 for each additional service line of a claim. All claims must contain a line 1.	R

Data Element #	Reference	Data Element Name	Type	Length	Description/Codes/Sources	Required
MC005A	N/A	Version Number	int	4	The version number of this claim service line. The original claim will have a version number of 0, with the next version being assigned a 1, and each subsequent version being incremented by 1 for that service line. Plans that cannot increment this column may opt to use YYYY as the version number.	R
MC006	837/2000B/SBR/ /03	Insured Group or Policy Number	varchar	30	Group or policy number - not the number that uniquely identifies the subscriber.	R
MC007	835/2100/NM1/3 4/09	Subscriber Social Security Number	varchar	9	Subscriber's social security number; Set as null if unavailable	O
MC008	835/2100/NM1/H N/09	Plan Specific Contract Number	varchar	128	Plan assigned subscriber's contract number; may use an alternate unique identifier such as Medicaid ID. Must be an identifier that is unique to the subscriber.	R

Data Element #	Reference	Data Element Name	Type	Length	Description/Codes/Sources	Required
MC009	N/A	Member Number	varchar	128	<p>Unique number of the member within the contract. Must be an identifier that is unique to the member. May include a combination of contract number and suffix number in order to be unique.</p> <p>This column is the unique identifying column for membership and related medical and pharmacy claims. Only one record per eligibility month per Eligibility year.</p> <p>MC009 = ME010; PC009</p>	R
MC010	835/2100/NM1/M I/0&9	Member Identification Code (patient)	varchar	9	Member's social security number; Set as null if contract number = subscriber's social security number or use an alternate unique identifier such as Medicaid ID. Must be an identifier that is unique to the member.	O
MC011	837/2000B/SBR/ /02, 837/2000C/PAT/ /01, 837/2320/SBR/ /02	Individual Relationship Code	char	2	Member's relationship to insured - payers will map their available codes to those listed in Lookup Table B.1.B	R

Data Element #	Reference	Data Element Name	Type	Length	Description/Codes/Sources	Required
MC012	837/2010CA/DMG / /03	Member Gender	char	1	M = Male F = Female X = Non-binary U = Unknown	R
MC013	837/2010CA/DMG /D8/02	Member Date of Birth	date	8	CCYYMMDD	R

A-5 ANNUAL SUPPLEMENTAL PROVIDER LEVEL ALTERNATIVE PAYMENT MODEL (APM) DATA

Frequency: Submit annually in Excel format to CIVHC via SFTP by September 30th of each year. Additional formatting requirements:

If discrepancies exist between the same years on different files, an explanation will be required.

Initially, payers shall submit a complete and accurate historical test file for the 2016 calendar year to the administrator. These historical submissions must conform to submission guide requirements and be received by no later than July 1, 2019. On a yearly basis thereafter, Payers will transmit complete and accurate APM data for the most recent and complete three calendar-year periods by no later than September 30th of the following year. Please see an example of the timeline below. [Please note that the administrator may choose to require test files to be submitted prior to the annual due date of September 30th.](#)

Date That Supplier Must Submit APM file to CO APCD	Period Begin date	Period End date
<i>120 days after the effective date of the rule</i>	<i>N/A</i>	<i>N/A</i>
<i>July 1, 2019</i>	<i>January 1, 2016</i>	<i>December 31, 2016</i>

A-7 ANNUAL PRESCRIPTION DRUG REBATE DATA FILE

Frequency: Submit annually in Excel format to CIVHC via SFTP by September 30th of each year.

If discrepancies exist between the same years on different files, an explanation will be required.

Additional formatting requirements:

- Payers submit aggregate level data in a single, consistent format for each data type.
- [Drug Rebate file should be submitted as the first tab in the same excel document as the PBM Contract data](#)
- [Drug Rebate tab should be labeled “DR”](#)
- [PBM Contract tab should be labeled “PBM”](#)
- Include the total amount of any prescription drug rebates, discounts and other pharmaceutical manufacturer compensation or price concessions paid by pharmaceutical manufacturers to a payer or their pharmacy benefit manager(s) during the previous three calendar years. Data elements to be included in the prescription drug rebate file are listed in Table A7.1 ANNUAL PRESCRIPTION DRUG REBATE DATA.
- The definition of prescription drug rebates, discounts and other pharmaceutical manufacturer compensation or price concessions to be used for implementation of the Annual Prescription Drug Rebate Data File requirement is as follows:
- Prescription Drug Rebates: Total rebates, compensation (defined below), remuneration, and any other price concessions (including concessions from price protection and hold harmless contract clauses) provided by pharmaceutical manufacturers for prescription drugs with specified dates of fill, excluding manufacturer-provided fair market value bona fide service fees. This amount shall include rebate guarantee amounts as well as any additional rebate amounts collected by the payer. This amount shall include the total amount of prescription drug rebates and price concessions provided by pharmaceutical manufacturers, regardless of whether they are conferred to the payer directly by the manufacturer, a PBM, or any other entity. In addition, this amount shall include the total amount of prescription drug rebates and price concessions provided by pharmaceutical manufacturers, regardless of whether they are conferred to the payer through regular aggregate payments, on a claim-by-claim basis at the point-of-sale, as part of retrospective financial reconciliations (including reconciliations that also reflect other contractual arrangements), or by any other method. Payers should apply incurred but

not reported (IBNR) factors to preliminary prescription drug rebate data. Rebates will exclude claims paid under the benefit plan as qualified 340b pricing.

- Rebates and other price concessions: A reduction in the amount a payer pays for an item or service based on an arms-length transaction. The terms of the reduction must be fixed and disclosed in writing to the payer at the time of the initial purchase to which the reduction applies, and the reduction or concession must result in cash flow from the manufacturer to the payer.
- For the purposes of this data collection, Medicare Part D coverage gap discounts shall be treated in the same manner as they are treated for pharmacy expenditures. If coverage gap discounts are excluded from pharmacy expenditures, they should be excluded from 957 CMR 2.00 Payer Reporting of Prescription Drug Rebates Data Specification Manual 8 prescription drug rebates. If coverage gap discounts are included in pharmacy expenditures, they should be included in prescription drug rebates.
- Fair market value bona fide service fees: Fees paid by a manufacturer to a third party (e.g., payers, PBMs, payer- or PBM-owned pharmacies), that represent fair market value for a bona fide, itemized service actually performed on behalf of the manufacturer that the manufacturer would otherwise perform (or contract for) in the absence of the service arrangement (e.g., data service fees, distribution service fees, inventory management fees, product stocking allowances, and fees associated with administrative services agreements and patient care programs (such as medication compliance programs and patient education programs), etc.).
- Compensation: Compensation includes, but is not limited to, discounts; credits; rebates, regardless of how categorized; fees; educational grants received from manufacturers in relation to the provision of utilization data to manufacturers for rebating, marketing and related purposes; market share incentives; commissions; manufacturer administrative fees; and administrative management fees.

Initially, payers shall submit a complete and accurate historical test file for the 2016 calendar year to the administrator. These submissions must conform to submission guide requirements and be received by no later than July 1, 2019. On a yearly basis thereafter, Payers will transmit complete and accurate drug rebate data for the most recent and complete three calendar-year periods by no later than September 30th of the following year. Please see an example of the timeline below. [Please note that the administrator may choose to require test files to be submitted prior to the annual due date of September 30th.](#)

B.1.J ALTERNATIVE PAYMENT MODEL (APM) CATEGORY DEFINITIONS

Code	Value	Definition/Example
<u>PP01</u>	Pay for Performance/Payment Penalty <u>Fee for Service</u>	<u>Payments made on a traditional fee-for-service model, no link to quality and value. These are traditional FFS payments that are not adjusted to account for infrastructure investments, provider reporting of quality data, for provider performance on cost and quality metrics. Diagnosis-related groups (DRGs) that are not linked to quality are in Category 1.</u>
<u>2ASH</u>	Shared Savings/Shared Risk <u>Foundational Payments for Infrastructure and Operations</u>	Annual payments or penalties made to the billing provider for performance against spending targets during reporting year. <u>Payments for infrastructure investments that can improve the quality of patient care. (e.g., payments designated for staffing a care coordination nurse or upgrading to electronic health records).</u>
<u>2BGB</u>	Global Budget <u>Pay for Reporting</u>	Payments made to a billing provider, where the budgets were set either prospectively or retrospectively, for either a: <ul style="list-style-type: none"> • Comprehensive set of services for a broadly defined population • Defined set of services, where certain benefits such as BH or Rx are carved out and not part of the budget <u>Must, at a minimum, include physician services and IP/OP hospital services. Payments (incentives or penalties) to report quality measurement results</u>
<u>2CLB</u>	Limited Budget <u>Pay-for-Performance</u>	Payments made to a billing provider, where the budgets were set either prospectively or retrospectively, for a non-comprehensive set of services to be delivered by a single provider organization (e.g. capitated primary care or oncology services) <u>Payments (incentives or penalties) based on performance in meeting goals for quality measures (e.g. bonuses for quality performance)</u>
<u>3ACU</u>	Capitation—Unspecified <u>APMs with Shared Savings</u>	Payments made to a billing provider, where the budgets were set either prospectively or retrospectively, for a set of services for a defined population, for which it cannot be determined if the arrangement is a global budget or limited budget arrangement <u>Payments representing a share of the savings generated when a cost or utilization target is met and if quality targets are</u>

Code	Value	Definition/Example
		<u>met. Does not include penalties when cost or utilization targets are not met. (e.g., shared savings with upside risk only)</u>
3BBU	<u>Bundled/Episode Based APMs with Shared Savings and Downside Risk</u>	<u>Payments made to a billing provider where a set budget was set for a defined episode of care for a specific condition (e.g. knee replacement) delivered by providers across multiple provider types. Payments representing a share of the savings generated when a cost or utilization target is met and if quality targets are met. Includes penalties representing a portion of the losses that result when a cost or utilization target is not met. (e.g., episode-based payments for procedures and comprehensive payments with upside and downside risk)</u>
3ND	<u>Integrated Delivery System Risk Based Payments NOT Linked to Quality</u>	<u>One or more legal entities encompassing financing and delivery of a full spectrum of healthcare services under a mutually exclusive contract agreement. Resources and decision making rights are shared across entities, and reimbursement is not dependent on services provided. Payments representing a share of savings generated when a cost or utilization target is met and no quality targets exist (e.g., episode-based payments for procedures without quality measures and targets)</u>
4APC	<u>Patient-Centered Primary Care Home/ Patient-Centered Medical Home Condition-Specific Population-Based Payment</u>	<u>Payment for recognition as a Patient-Centered Primary Care Home (PCPCH) or other type of Patient-Centered Medical Home (PCMH), including recognition under a proprietary PCMH initiative. Only reported for payments exclusively for PCPCH or other PCMH recognition. FFS, pay for performance, shared savings, and capitation payments made for members in a PCPCH or other PCMH should be reported under those payment arrangement categories. Payments for the comprehensive treatment of specific conditions (e.g., payments for specialty services, such as oncology or mental health). Bundled payments for cancer care fall under Category 4A if providers are responsible for the total cost and quality of care for a patient, rather than covering only chemotherapy payments. Also, payments that are prospective and population-based and cover all care delivered by particular types of clinicians (e.g., orthopedics).</u>

Code	Value	Definition/Example
4BOT	Other, Non-FFS <u>Comprehensive Population-Based Payment</u>	All other payments made to a billing provider which are not based on a FFS model, including payments for health information technology structural changes; payments or expenses for supplemental staff or supplemental activities integrated into the practice, such as practice coaches, patient educators, or patient navigators; and other infrastructure payments. Payments that are prospective and population-based, and cover all an individual's health care needs. Category 4B encompasses a broad range of financing and delivery system arrangements, in which payers and providers are organizationally distinct, (e.g. global budgets or full/percent of premium payments)
4CFS	FFS <u>Integrated Finance and Delivery System</u>	<u>Payments that also cover comprehensive care, but unlike Category 4B payments, they move from the financing arm to the delivery arm of the same, highly integrated finance and delivery organization. In some cases, these integrated arrangements consist of insurance companies that own provider networks, while in other cases they consist of delivery systems that offer their own insurance products (e.g. global budgets or full/percent of premium payments in integrated systems)</u>
4N	<u>Capitated Payments NOT Linked to Quality</u>	<u>Payments that are prospective and population-based, but not linked to quality.</u>

B.1.K PRIMARY CARE PROVIDER ~~TAXONOMY CODES~~ DEFINITION

The primary care definition for the purposes of the Alternative Payment Model filing in Data Submission Guide v 11.5 consists of two components that should be summed to produce total primary care payments:

- A. Outpatient services delivered by primary care providers (which includes OB/GYN providers), defined by a combination of provider taxonomy (Table B.1.K.A) and CPT-4 procedure codes (Table B.1.K.C).
- B. Outpatient services delivered by behavioral health providers, nurse practitioners and physician assistants, defined by a combination of provider taxonomy (Table B.1.K.B) and CPT-4 procedure codes (Table B.1.K.C) AND billed by a primary care provider (defined by primary care taxonomy in Table B.1.K.A).

B.1.K.A: PRIMARY CARE PROVIDER TAXONOMIES

Sum the allowed amounts for services (defined by the procedure code list in B.1.K.C) delivered by the providers defined by the taxonomies listed below. Include services delivered in an outpatient setting and exclude facility claims and inpatient services.

<u>Taxonomy Code</u>	<u>Description</u>	<u>Taxonomy Type</u>
