Subject: Den Hartog, Ace Roto Mold, Septic Tank - Acceptance
For Use in Colorado On-site Wastewater Treatment Systems

Dear Mr. Danko:

Pursuant to section 43.13 of the On-site Wastewater Treatment System Regulation 5 CCR 1002-43 (Regulation 43), the Water Quality Control Division (Division) has reviewed drawings and specifications received December 1, 2014, and December 8, 2014 for the following septic tanks:

- AST-1000-1 (1000 Gallons), as a single-compartment septic tank that must be used in series with another tank so as to comply with all requirements of section 43.9(B)(4)(a) of Regulation 43.
- AST-1250-1 (1250 Gallons), as a single-compartment septic tank that must be used in series with another tank so as to comply with all requirements of section 43.9(B)(4)(a) of Regulation 43.
- AST-1500-1 (1500 Gallons), as a single-compartment septic tank that must be used in series with another tank so as to comply with all requirements of section 43.9(B)(4)(a) of Regulation 43.
- AST-1000-2 (1000 Gallons, 2 compartment)
- AST-1250-2 (1250 Gallons, 2 compartment)
- AST-1500-2 (1500 Gallons, 2 compartment)

The Division finds the tank design(s) to be consistent with the criteria of section 43.9 of Regulation 43. The Division also provides this acceptance of the tank(s) referenced above as meeting these criteria and acceptable for use in Colorado.

The materials reviewed included evidence that the above noted tanks are certified for use as a septic tank by the International Association of Plumbing and Mechanical Officials (IAPMO) so watertightness testing is not required pursuant to section 43.13(G)(2). However, it is requested that you provide the division a copy of your IAPMO certification on an annual basis.

This acceptance does not constitute an endorsement of this product. As individual local public health agency regulations may be more stringent than Regulation 43, the Division cannot ensure the acceptance of a septic tank within any given jurisdiction.

If you have any questions regarding the Division's review or findings, please contact me at (303) 692-2366 or chuck.cousino@state.co.us.
