

Depression Screenings

Measure Description

Percent of members 12 years and older who had a depression screening within the 12-month evaluation period.

Evaluation Period

Rolling 12 month; 90 days claims run out

Numerator

Members in the denominator who have had at least one depression screening claim within the rolling 12-month rolling evaluation period.

| Condition Description | # Event | Detailed Criteria | Criteria Connector | Timeframe |
|-------------------------------------|---------|--------------------------------|--------------------|--------------------------|
| Members included in the denominator | 1 | | and | |
| Depression Screening Claim | 1 | CPT Code in ('G8431', 'G8510') | | During evaluation period |

Denominator

Members will be counted in the denominator if they are enrolled in the ACC on the last day of the last month of the 12-month evaluation period and are 12 years old or older.

Denominator Units: Distinct count of members meeting the above criteria

Denominator Eligibility/Enrollment Inclusion Criteria:

| Condition Description | # Event | Detailed Criteria | Timeframe |
|-----------------------|---------|---|--|
| Enrolled in the ACC | 1 | <ul style="list-style-type: none"> RAE Enrolled Indicator='Y' Snapshot Date = last month of the evaluation period RAE Enrollment End Date >= last day of the month of the evaluation period | Last month of the 12-month rolling evaluation period |

Notes

- Multiple numerator events in an evaluation period for a unique member will only be counted once
- All diagnosis codes on the claim and encounter will be considered, not just the primary diagnosis
- Only claims and encounters submitted through the MMIS (interChange) will be used for this measure
