To the Members of the Medical Services Board:

The Colorado Center on Law and Policy (CCLP) submits this letter to express our support for the rule change proposed in Document 4, MSB 18-01-16-A. The revision would eliminate the listing hierarchy for identity documentation that creates a preference for some forms of identity documentation over others. The revision would also require agencies reviewing citizenship and identity documentation to accepted photocopies, facsimiles, scanned or other copies of those documents. These changes will streamline the process applicants have to go through in order to verify their citizenship and identity.

CCLP appreciates the Department being proactive about making these changes to align with what is acceptable under federal rules and to improve the process for clients. Thank you for your time.

Sincerely,

A handwritten signature in cursive script, appearing to read "Allison Neswood".

Allison Neswood
Health Care Attorney
