

Title of Rule: Revision to the Medical Assistance Home and Community Based Services for Elderly Blind and Disabled Rule Concerning Alternative Care Facilities Section 8.495
Rule Number: MSB 18-05-25-B
Division / Contact / Phone: Benefits and Services Division / Cassandra Keller / 866-5181

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

The intention of this rule is to ensure providers meet both State and Federal guidelines for critical incident reporting, care planning, and the HCBS Final Settings Rule. The new regulations will make clear the new requirements for the providers. This will help to ensure the Department is in compliance with federal regulations, as well as better align regulations with our sister agencies. That collaboration will lead to improved oversight of Alternative Care Facilities as well as more comprehensive inspections by the Department of Public Health and Environment (DPHE).

Additionally, the revised criteria for food safety regulations and updated language and clarification throughout will provide more comprehensive regulations and safer settings for the HCBS waiver participants and clarity for providers.

The Department has worked extensively with stakeholders throughout the revision process, including suggestions from them throughout. Stakeholders include LeadingAge, CALA, providers, case managers, participants, and DPHE. DPHE has done an extensive review of the revisions and made changes where necessary.

2. An emergency rule-making is imperatively necessary

- to comply with state or federal law or federal regulation and/or
- for the preservation of public health, safety and welfare.

Explain:

3. Federal authority for the Rule, if any:

4. State Authority for the Rule:

25.5-1-301 through 25.5-1-303, C.R.S. (2017);

Title of Rule: Revision to the Medical Assistance Home and Community Based Services for Elderly Blind and Disabled Rule Concerning Alternative Care Facilities Section 8.495

Rule Number: MSB 18-05-25-B

Division / Contact / Phone: Benefits and Services Division / Cassandra Keller / 866-5181

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Individuals who will be affected by this rule are individuals who reside in Alternative Care Facilities on the EBD and CMHS waivers. They will benefit from this rule change due to improved critical incident reporting; care planning requirements; HCBS Final Settings Rule requirements; food safety regulations; and updated language and clarification throughout. They will not bear any cost from this rule change. Alternative Care Facilities may have a slight additional administrative burden, but the Department does not anticipate the providers bearing any additional costs.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

All EBD and CMHS waiver clients who reside in Alternative Care Facilities will benefit from the new requirements and additional oversight it will bring to the program.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

There will not be a cost increase to the Department.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

The clarification to the Alternative Care Facility rule will significantly benefit participants, which outweighs any additional administrative burdens on the part of the Facilities.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

The additional requirements in the proposed regulations are required by CMS and must be implemented. The additional regulations and clarifications will require minimal additional output from the Department.
