

## 2010 Colorado State EMS Conference November 4 - 7, 2010 Keystone, Co

This year's conference offers nearly 60 presentations which may be used for National Registry and/or Colorado EMT recertification. To help you plan and document your learning experience, we have provided you with a recommended allocation of continuing education credits for each presentation. Each presentation matrix indicates the recommended credits based on both National Registry and Colorado recertification requirements. Please remember these are only **recommendations**, and continuing education hours may be appropriately allocated in more than one way. This information should be provided to your local State-Recognized EMS Education Program representative who will approve the credits for your individual recertification application.

For more information regarding the Colorado state recertification process, please visit our web site at [www.coems.info](http://www.coems.info).  
For information about National Registry, please visit their web site at [www.nremt.org](http://www.nremt.org).

<b>Presentation Title:</b> PCAD1 - Reading The Wave: Basic ECG Rhythm Recognition			
<b>Presenter's Name(s):</b> Fidel Garcia			
<b>Total Class Time:</b> 8			
Colorado		National Registry	
Category	Hrs	Category	Hrs
EMT Basic			
Preparatory		Preparatory	
OB/Peds		OB/Peds	
Trauma		Trauma	
Pt. Assessment	4	Pt. Assessment	4
