Colorado State EMS Conference 2016

Continuing Education Hours Recommendations

This year's conference offers 60+ presentations which may be used for National Registry and/or Colorado EMS Provider recertification. To help plan and document continuing education (CE) received at this year's conference, this document is intended to provide suggestions based on the schedule as of October 1, 2016.

The tables in this document include recommendations for categorizing each session plus the number of contact hours that may be applied towards National Registry and Colorado recertification requirements. The information provided is also intended to help guide local state-recognized education programs when assigning CE credit and contact hours necessary to approve EMS provider recertification applications.

Please note that the following recommendations are only suggestions.

For more information about the Colorado state recertification process, please visit our website at www.coems.info

For more information about the National Registry recertification process, please visit their website at www.nremt.org
